The late Mr. R. B. McCabe.

No. 4338G.—The Chief Commissioner deeply deplores the death of Mr. R. B. McCabe, of the Indian Civil Service, Inspector-General of Police, Jails and Registration, Commissioner of Excise and Superintendent of Stamps, Assam, which occurred on the evening of the 12th June 1897, by the falling in of his house on him during the earthquake. Mr. McCabe's whole service of more than twenty years had been passed in Assam, where he was mostly employed on frontier duties, and had acquired an unrivalled reputation for courage, resource, forbearance and temper in times of crisis and difficulty. He was as much esteemed in the plains districts of this province as he was respected and loved by the hill tribes among whom he lived so long. His death is an irreparable loss to the Administration, and will be mourned by innumerable friends in every district of Assam.

By order of the Chief Commissioner of Assam,

E. A. GAIT,

Offg. Secy. to the Chief Commissioner of Assam.

The 25th June 1897.

NOTIFICATION—No. 1855L.R.

Rules for the grant of prospecting licenses and mining leases for mica.

The 5th July 1897.—The rules sanctioned by the Governor-General in Council and the Secretary of State for the grant of prospecting licenses and mining leases, so far as they are applicable to the mica-mining industry in the Provinces under the jurisdiction of the Lieutenant-Governor of Bengal, are hereby published for general information. The main modifications necessary to make the rules applicable to mica-mining and to prospecting for mica have received the sanction of the Governor-General in Council. These rules supersede those published in the Government Resolution of 5th December 1888. Standard forms of prospecting licenses and mining leases adapted for mica-mining are also published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

Rules.

In these rules, Collector means the Revenue Officer in charge of the district.

Prospecting licenses.

1. (1) A license to prospect for mica, called hereinafter a prospecting license, shall confer on the licensee the sole right, subject to the conditions contained in the license, to mine, quarry, bore, dig and search for, win, work, and carry away mica lying or being within, under, or throughout the land specified in the license.

(2) A prospecting license shall only be granted with respect to land in which the mica mines, or mica is the property of the Government, and which is comprised in a compact block, the length of which does not exceed four times its breadth.

2. When any area has been explored and its value as a field for mica-mining sufficiently ascertained, the Lieutenant-Governor may refuse to grant prospecting licenses, and may order such area to be demarcated into blocks, and may, subject to such rules as the Governor-General in Council may from time to time prescribe, sell by public auction or private contract the right to win and carry away mica in and from all or any of such blocks for such term or terms not exceeding 30 years, and subject to such conditions as he may think fit, or may grant mining leases thereof as provided in rules 10 and 11, as he may think fit:

Provided that no such sale as aforesaid shall be made without the previous sanction of the Secretary of State for India in Council if the estimated value thereof exceeds 12 lakhs of rupees.

3. (1) No prospecting license shall be granted except to a person approved by the Government, and such person shall, before the license is granted, deposit as security in respect of each license a sum which may be less than Rs. 500, but shall not be less than Rs. 100, as the Collector may determine, or give security to the like amount to the satisfaction of the Collector. Subject to such deduction on account of compensation for surface damage or otherwise as the Collector may order, the amount of any deposit made under this rule, should the depositor afterwards become the lessee of any mica-mining lease, will be carried to his credit as part of the rents payable under his lease, and should he decline or fail to obtain any such lease as aforesaid, will be returned to him.

(2) No prospecting license shall be granted to any Company or to any Syndicate on behalf of a proposed Company without the previous sanction of the Governor-General in Council.

4. (1) Every application for a prospecting license for mica shall, unless the Lieutenant-Governor of Bengal shall in any case otherwise direct, be made to the Collector of the district in which the land or some part of the land with respect to which the license is required is situate.

(2) Every such application shall contain the following particulars, namely:—

(*a*) the name, residence and profession of the applicant;

(*b*) a description as accurate as possible, and illustrated by a rough sketch, of the situation, boundaries, and area of the land with respect to which the license is required.

(3) Every application shall be accompanied by a certificate of approval signed by a Secretary to the Government of Bengal.

5. On receipt of any such application the Collector shall, as soon as practicable, enquire whether the grant of the license applied for is inexpedient either on the ground that the land described in the application is required for a public purpose, or otherwise.

6. (1) Should the Collector be of opinion that it is not expedient to grant the license, or should he find that the license has not been approved by the Lieutenant-Governor, he shall refuse to grant the license, and shall forthwith report the matter through the proper channel to the Lieutenant-Governor, who may pass such orders as he may think fit.

(2) Subject to the control of the Government of Bengal, the Collector, if he finds that there is no objection to the grant of the license applied for, and if the applicant has been approved by the Government of Bengal, may grant to the applicant a license in such form as

may be prescribed, and shall report the matter to the Lieutenant-Governor or such other authority as the Lieutenant-Governor may direct.

7. A register of applications for prospecting licenses shall be kept in English in the Collector's office, specifying—

1. Number of application.
2. Date.
3. Name and residence of applicant.
4. Situation of the land.
5. Boundaries.
6. Estimated area.
7. Date of sanction by the Government of Bengal.
8. Date of license.
9. Rent payable.
10. Period for which granted.

8. Every prospecting license shall contain such conditions as may in any particular case seem necessary, and shall in all cases contain the following conditions :—

(i) The term for which the license shall be granted shall be one year or such shorter term as the applicant may desire. The license may be renewed by the Collector for a further term not exceeding one year, whenever he is satisfied that the licensee has been prevented from completing his search of the land by any cause other than his own default.

(ii) A moderate rent not exceeding one rupee per acre shall be paid for the land covered by the license.

(iii) No land in the occupation of any person shall be entered upon without the consent of the occupier, and no trees, standing crops, or other private property shall be cut or in any way injured without the consent of the owner thereof.

(iv) The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the license, and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.

(v) The licensee shall not cut or injure any tree on unoccupied and unreserved land without the permission of the Collector in writing.

(vi) Neither the licensee nor any one claiming through or under him shall grant or assign any interest under the license to any person without the previous consent in writing of the Government of Bengal, or to any Company without the previous sanction of the Governor-General in Council.

(vii) In case of any breach on the part of the licensee of any of the five last preceding clauses, the Collector may summarily revoke the license, and thereupon all rights conferred thereby or enjoyed thereunder shall cease.

(viii) The licensee shall, within six months next after the determination of the license, or the date of the abandonment of the undertaking, whichever shall first occur, securely plug any bores and fill up or fence any holes or excavations that he may have made in the land to such extent as the Collector may require, and shall to the like extent restore the surface of the land and all buildings thereon which he may have damaged in the course of prospecting. Provided that this clause shall not apply to any land held under a mining lease.

(ix) Should any question or dispute arise regarding the license, or any matter or thing connected therewith, or the powers of the licensee thereunder, or the amount or payment of the rent made payable thereby, the matter in difference shall be decided by the Lieutenant-Governor, whose decision shall be final.

9. On or before the determination of his license, the licensee shall have a right, subject to the rules hereinafter contained, and provided that the Lieutenant-Governor is satisfied that the prospecting has been of a *bonâ fide* character, to a mica-mining lease in accordance with the terms contained in the rules for such leases.

Such lease may include an area not exceeding half a square mile, whether comprising the whole or a part only of the area for which the prospecting license was granted.

Mica-mining Leases.

10. (1) Every application for the grant of a mica-mining lease shall be presented to the Collector in whose district the land or some part of the land with respect to which the lease is applied for is situate. The Collector shall forward the application through the proper channel to the Government of Bengal.

(2) No mica-mining lease shall be granted otherwise than with respect to land in which the mine or mica is the property of Government.

(3) No mica-mining lease shall be granted to any Company or to any Syndicate on behalf of a proposed Company without the previous sanction of the Governor-General in Council.

11. Every application for a mica-mining lease shall contain—

(*a*) the name, residence, and profession of the applicant; and
(*b*) a map of the area over which the proposed lease is to extend.

12. On receipt of any such application the Government may, if it considers that the applicant should be granted a mining lease, grant the same in accordance with these rules over such one or more blocks, each not exceeding half a square mile in area, as the Government may think fit.

No such lease shall be executed until it has been approved by the Advocate-General of Bengal.

13. Without the previous sanction of the Governor-General in Council, the extent of each lot or block of land covered by a mica-mining lease shall not exceed half a square mile, and, where the land follows the direction of a band or belt of mica, the length of the lot shall not exceed four miles.

14. The mica-mining lease shall run for a term not exceeding five years from the date on which possession of the land is given. At the end of that period the lease will be put up to public auction, and a fresh lease for five years granted to the person who offers the highest rental, subject to the approval of the Commissioner. In addition to the rent thus determined, a royalty of 2½ per cent. will be levied on the sale value of the mica at the pit's mouth.

15. Every such lease shall contain such conditions and stipulations as the Government of Bengal may in each case consider necessary, but shall in every case contain the following conditions:—

(i) An annual rent at such rates as may be approved by the Commissioner of the Division shall be payable in equal half-yearly instalments; the first payment to be made at the expiration of six months from the date of the execution of the lease. When a lease is renewed the rent will be fixed in the manner laid down in rule 14.

(ii) The lessee shall at his own expense erect and at all times maintain and keep in repair boundary marks and pillars according to the demarcation to be shown in a plan annexed to his lease.

(iii) Where the area leased lies within a Reserved or Protected Forest, the lessee shall at his own cost clear of all trees, wood, grass, leaves, sheds, huts, and inflammable material generally, a line 30 feet in width, all round the surface leased to him (but included in the leased area). He shall maintain this line clear as above every year during the months of February, March April, May, and June.

(iv) No lessee of any block leased under these rules for mining purposes shall divert any road, path or bye-way on the block leased, or any water-course beyond the limits of the block leased to him, and all water running waste on such block shall be returned to its natural channel within the limits of the same block.

(v) The lessee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the lease, and shall indemnify the Government against all claims which may be made by third parties in respect of any such injury.

(vi) The lessee shall not cut or injure any tree reserved in the lease. Where the area leased lies within a Reserved or Protected Forest, the lessee shall at once give to the Forest Officer in charge of the forest a full description of any timber or tree destroyed or injured by him.

(vii) Neither the lessee nor any person claiming through or under him shall assign the lease, or underlet the whole or any portion of the premises comprised in such lease, without the previous consent in writing of the Government of Bengal; and no such assignment or under-lease shall be made to a Company without the previous sanction of the Governor-General in Council.

(viii) The lessee shall commence operations within two years from the date of the execution of the lease, and shall thereafter carry them on effectually in a proper, skilful, and mining-like manner unless prevented by unavoidable cause.

(ix) The lessee shall keep correct accounts showing the quantity and particulars of all mica obtained from the mine and the number of persons employed therein, and also complete plans of the mine, and shall allow any officer authorised by the Government of Bengal in that behalf at any time to examine such accounts and plans, and shall furnish that Government with such information and returns in respect of the aforesaid matters as it may prescribe.*

(x) The lessee shall allow any officer authorised by the Government of Bengal in that behalf to enter upon the premises comprised in the lease for the purpose of inspecting the same.

(xi) The lessee shall without delay send to the Collector a report of any accident which may occur at or in the said premises, and also the finding therein of any other mineral than mica.

* NOTE.—All information and returns obtained or furnished under this clause shall be treated as strictly confidential.

(xii) Should the royalty or rent reserved or made payable by the lease be not paid within 28 days next after the date fixed in the lease for the payment of the same, the Government of Bengal may enter upon the said premises and seize and sell any minerals or moveable property therein, and if the royalty or rent cannot be so recovered, may determine the lease and take possession of the premises comprised therein.

(xiii) In case of any breach on the part of the lessee of any covenant contained in the lease, the Government of Bengal may determine the lease and take possession of the said premises.

(xiv) At the end or sooner determination of the lease, the lessee shall deliver up the said premises and all mines (if any) dug therein in a proper state for working.

(xv) Should any question or dispute arise regarding the lease or any matter or thing connected with the mines and mica leased or the working or non-working thereof, or the amount or payment of the royalty or rent reserved or made payable by the lease, the matter in difference shall be decided by the Lieutenant-Governor, whose decision thereon shall be final.

General Provisions as to Licenses and Leases.

16. No license or lease shall authorise the commencement of any exploration, prospecting or mining in a Reserved Forest unless previous notice of such intended commencement shall have been given to the District Forest Officer, and such exploration, prospecting or mining shall be subject to such conditions as the said officer may prescribe: Provided that the lessee shall not enter on the land covered by the lease, nor commence operations, without the written permission of the Collector.

17. Should the applicant for a prospecting license or mining lease desire the Collector to prepare for him the sketch required by rule 4 (2) (*b*) or the map required by rule 11 (*b*), or should the sketch or map presented by the applicant be insufficient, the Collector may prepare the sketch or map required, and may, if he so order, recover the cost from the applicant at a rate not exceeding 4 annas per acre. If the Government of Bengal has prepared a map of a tract of country specially for the convenience of intending applicants for licenses and leases under these rules, and if any applicant makes use of such map for the sketch or map aforesaid, it will be open to that Government to recover as above such share of the cost of preparing the map as it may consider to be equitably due from such applicant.

18. If a license or lease is not executed within six months after lease has been granted for it, the right of the applicant to such license or lease shall be held to have lapsed, unless the Government of Bengal, for special reasons, consents to grant the same, notwithstanding the delay.

IRRIGATION DEPARTMENT.

[Second Publication.]

The 29th June 1897.

No. 176—Notification.—In exercise of the powers conferred on him by sections XI and XII of Act V (B.C.) of 1864 (The Canals Act), the Lieutenant-Governor of Bengal proposes to pass the following rules in regard to the line of channel connecting the Kurnafuli and the Chandkhali rivers, known in its various parts as Sikalbaha and Murali khals, in the district of Chittagong.

A. D. MCARTHUR, *Colonel*, R.E.,
Secy. to the Govt. of Bengal.

1. Every vessel on entering the above channel shall be liable to measurement by the officer in charge of the toll station for the purpose of ascertaining the amount of toll to be paid.

2. The tonnage of every vessel, whether laden or empty, shall, for the purposes of the *Canals Act* and of these rules, be determined by the following measurements :—

(*a*) The product of half the length of the vessel from stem to stern measured along the water line, multiplied by the interior greatest breath of the vessel, multiplied by the depth from the water line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 50 maunds is to be omitted; and a fraction exceeding 50 maunds is to be charged as 50 maunds only.

3. No raft will be admitted into the channel in excess of 50 feet in length or 5 fee in breadth. No timber, bamboos or grass will be admitted except securely and compactly packed in the form of a raft.

4. Every vessel entering the channel shall be furnished with a ticket on paying the prescribed toll. The ticket will specify the date of entry, the maundage of the vessel and the amount of toll paid.

5. No vessels whatever except such as are employed on works connected with the maintenance or improvement of the channel shall be exempted from paying toll.

6. Every vessel or raft which has paid toll shall be allowed three days to pass through the channel, the days of entering and leaving being both included, and any vessel or raft remaining in any part of the channel longer than the period above fixed shall, for each day in excess of such period, be charged demurrage equal to one-half of the toll paid. Every vessel or raft remaining in the channel more than one month without authority from the Supervisor shall be subject to be summarily removed.

7. Any person infringing any of the above rules, or wilfully interfering in their enforcement, shall be liable, under section XI of the Canals Act, to a fine not exceeding fifty rupees for any one offence.

A Dictionary of the Economic Products of India

BY DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

The first five volumes and Vol. VI, Parts I, II, III & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs. 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made); packing and postage, in India, 8 annas per volume; for England, Rs. 2-6 per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross-references, so that little difficulty need be experienced in finding the account of a product, even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal 8vo. pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G.; Vol. IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of O; Vol. VI (which consist of four parts), Part I, contains letters P to R. The whole work completed in nine volumes (including Parts II to IV of Vol. VI); but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the Vernacular and European names of the plants, animals and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.

EASTERN ARCHIPELAGO—SUMATRA, WEST COAST.

Sunken rock westward of Moko Moko.

THE British Admiralty has given notice (No. 288 of 1897) of the existence of a sunken rock, now named Sarang Alang, of about 4½ cables in length, N.E. by N. and S.W. by S., and one cable in breadth, with a depth of 3 fathoms on it, and 20 to 30 fathoms around, situated westward of Moko Moko, in approximately lat. 2° 33′ 30″ S., long. 100° 59′ 0E.

The sea breaks on this rock with a heavy swell.

Leading lights on Little Woody island.

THE British Admiralty has given notice (No. 271 of 1897) that two pairs of *white* leading lights were exhibited on Little Woody island on 31st March 1897, but their exact positions are not given:—

1. The two lights visible from the northward are 450 feet apart, bear when in line S. 43° E., and then lead about 2 cables eastward of Long Middle bank buoy.
2. The two lights visible from the southward are 350 feet apart, bear when in line N. 3° E., and then lead nearly midway between the black buoy at the south extreme of New Grounds and the red beacon on the opposite side of the channel.

Approximate position, Woody island summit, lat. 25° 19′ 10″ S., long. 153° 2′ 25″ E.

AFRICA NORTH-EAST—Red sea, wetern shore.

North Massawa channel approach—Search for certain dangers.

The following Notice to Mariners (No. 274 of 1897), issued by the British Admiralty is republished:—

The undermentioned information, relating to a recent search for King Arthur shoal and Akbar rock, and an examination of Gannet bank, has been received from Lieutenant and Commander H. J. Gedge, H.M. Surveying Vessel *Stork*:—

1. *King Arthur shoal.*—With reference to Notice to Mariners, No. 205 of 1889, on the steam-vessel *King Arthur* striking on a shoal with a depth of about 2¼ fathoms on it, reported to be situated in approximately lat. 17° 10′ N., long. 39° 10′ E.

   In the search by the *Stork* for this danger the least water obtained was 10 fathoms, in approximately lat. 17° 8′ N., long. 39° 8′ E.; it is, however, considered probable that the rock exists and is small. Consequently the the words "Rock reported hereabout" have been retained on Admiralty Chart against the above position of the 10 fathoms.

2. *Akbar rock.*—With reference to Notice to Mariners No. 448 of 1892, on the steam-vessel *Akbar* (draught 20 feet) touching on a shoal in a position (considered very doutful) in lat. 16° 47′ N., long. 39° 12′ E.

   This rock was not found by the *Stork*, the least depth obtained being 10 fathoms, in approximately lat. 16° 44′ 30″ N., long. 39° 12′ 45″ E. In this case also it is considered probable that the rock exists and is small. Consequently the words "Rock reported hereabout" have been written on the Admiralty Chart against the above position of the 10 fathoms.

3. *Gannet bank.*—A coral head, with a least depth of 3¾ fathoms over it, was found on Gannet bank; and the position of this head was determined to be about 1¾ miles, N.W., from its previously charted position, or approximately in lat. 16° 59′ 55″ N., long. 39° 12′ 25″ E.

   This bank is about 6 cables in length north and south, and 3 cables in breadth, within the 5 fathom line; deepening quickly to the westward and southward, and having soundings less than 10 fathoms for some distance from it in other directions.

RESOLUTION ON THE ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN, CALCUTTA, FOR THE YEAR 1896-97.

FINANCIAL DEPARTMENT—MISCELLANEOUS.

Darjeeling, the 29th June 1897.

RESOLUTION—No. 3607 Mis.

READ—

The Report of the Botanical Garden, Calcutta, for the year 1896-97.

The failure of the past rains proved fatal to a number of the plants, which had been weakened by the preceding drought of 1895-96. The conservatories, which depend for their water on the tanks in the garden, suffered most, since these tanks had to be supplemented with water from the river, and the quality of the water thus supplied was found unsuitable for the more delicate plants. The principal improvement effected in the garden during the year was the relaying of the avenue leading from the river entrance to the great banyan tree. The opportunity was taken to open out several vistas by removing trees, and before the end of the year the improvement of the Clarke and Thompson avenues was taken in hand. The popularity of the garden has greatly increased owing to its having become a favourite resort for bicycling parties, and visitors in the hot weather and rains, who used to be scarce, are now numerous.

2. With regard to plants of an economic value, Dr. Prain, the Curator of the Herbarium, was engaged during last cold weather in making observations on mustards. To provide samples, patches of the various kinds of mustard cultivated in Bengal were grown in the Sibpur Experimental Farm.

Dr. Prain's results, which are said to be of great interest both from a botanical and an economic point of view, will shortly be published by the Department of Land Records and Agriculture. The results of a similar series of observations on the different kinds of wheat, which were made by Dr. Prain in 1895-96, have been recently published. There was a large demand from planters and other persons during the year for rheea plants, the interest in the cultivation of which has revived. The indents were met as far as possible and the rheea field has been thoroughly cultivated and manured in case the demand continues. Dr. King observes that the real difficulty in respect of rheea seems at present "to be rather in securing a supply of the raw material than in finding a process to deal with it successfully after it has been put on the European market."

3. The Herbarium as usual received special attention, and 13,989 specimens were added to the collections during the year, the principal contributors being Mr. Duthie, Director of the Botanical Survey of Northern India, and Mr. Thistleton Dyer, Director of the Royal Garden, Kew. An extremely interesting collection of Thibetan plants was received from Mr. E. Drake del Castillo of Paris, and a similar collection of Southern Indian plants, collected 50 years ago by Perottet, the Swiss Botanist, was contributed by M. Musy, Custodian of the Musée Cantonal of Fribourg. Contributions were also received from Mr. Ridley (Singapore), M. Batalin (St. Petersburg), the late Baron Von Mueller, Dr. Engler (Berlin), Mr. G. V. Nash (Columbia College, New York), Mr. A. H. Curtiss of Jacksonville (Florida), Mr. A. A. Heller (Hawaiian Islands), Dr. Treub (Buitenzorg), Dr. Radlkofer (Munich), Mr. R. T. Baker (Sidney), Dr. Günther Beck (Vienna), and Mr. C. W. Hope (Dehra Dun). The officers of the Indian Forest Department from whom contributions were received were Mr. R. L. Heinig, Deputy Conservator of Forests, Andaman Islands; Mr. J. S. Gamble, Director of the Forest School, Dehra Dun; Mr. W. A. Talbot, Deputy Conservator of Forests, Kanara; Mr. H. H. Haines, Deputy Conservator of Forests, Bengal, and Mr. Bourdillon, Conservator of Forests, Travancore. Surgeon-Captain F. C. Maynard and Mr. Dun (Chin Hills) also contributed to the Herbarium during the year. Sikkim plants, plants of Upper Burma and Bhutan plants were collected by the direct agency of the garden staff. A large number of specimens were sent out from the garden to various botanical institutions in Europe, America, Australia, Java, the Straits Settlements, and different parts of India.

4. The second part of the fifth volume and the seventh volume of the Garden Annals were issued during the year. The former consists of descriptions with figures of about one hundred new or interesting species, while the latter comprises a monograph on the Indian species of bamboos, by Mr. J. Sykes Gamble, Director of the Forest School, Dehra Dun, with a description of every species of bamboo found growing within the Empire and a summary of its uses. It also contains a lithograph of each species with careful analyses of the parts of the flower, and thus supplies a long felt want, since, owing to the infrequency of their flowering, the bamboos have hitherto been little understood, and the different species have been very imperfectly recognised. Both Dr. King and Dr. Prain also contributed valuable papers on botanical subjects to the Journal of the Asiatic Society of Bengal.

5. The Lloyd Botanic Garden in Darjeeling suffered severely during the year under review, first from the unusual drought, and subsequently from the exceptionally heavy rains, which at the end of July culminated in a storm which destroyed many trees and plants. The repair of the damage done absorbed much money, which would otherwise have been spent on improvements. The lease of the patch of ground, belonging to the Darjeeling Municipality, which has for some years been worked as a vegetable garden, expired during the year, and it was decided that the land should be made over to Government for incorporation with the garden.

6. The Lieutenant-Governor's thanks are again due to Dr. King, the Superintendent, and Dr. Prain, the Curator of the Herbarium, for their excellent management of the Garden during the year.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Secretary to the Govt. of Bengal.

ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN, CALCUTTA, FOR THE YEAR 1896-97.

No. 14G., dated Government Cinchona Plantation, Mungpoo, the 12th May 1897.

From—Brigade-Surgeon-Lieutenant-Colonel George King, M.B., LL.D., F.L.S. F.R.S., C.I.E., Superintendent, Royal Botanic Garden, Calcutta,

To—The Secretary to the Government of Bengal, Financial Department.

I have the honour herewith to submit the 11Oth Annual Report of the Royal Botanic Garden, Calcutta.

ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN, CALCUTTA, FOR THE YEAR 1896-97.

The scantiness of the rainfall which characterised the year 1895-96 was repeated during the year 1896-97, with the unfortunate but inevitable result that a number of plants which had been weakened by deficiency of moisture during the former year succumbed during the latter. The mortality was highest in the conservatories, and was not due so much to the want of water, which was given as freely as possible by artificial means, as to its quality. The tanks from which the conservatories are supplied contain in ordinary seasons sweet water all the year round. But at the end of last rainy season they contained, on account of the partial failure of the monsoon, less than the usual proportion of rain-water, their contents having had to be supplemented more largely than usual by water pumped into them from the river. As the season advanced their water thus became proportionally more brackish than usual, and many delicate plants perished, not from dryness, but from the unsuitable quality of the moisture supplied to them. The show of orchids, which during the month of March and April makes the conservatories so popular, was also affected by the season, and was much poorer than usual. The months of February and March were indeed unusually showery; but the supply of moisture, welcome although it was, came too late to counteract the effects of two unusually dry years. The chief improvement effected in the garden during the year was the relaying of the long straight avenue which leads from the river entrance to the great banyan tree. This involved many alterations in level, not only in the roadway itself, but in the grassy slopes on each side of it. The soil required for making up the levels and for improving the slopes was obtained (as was mentioned in last year's annual report) by deepening the large tanks in the western part of the garden, no addition whatever having been made to the area occupied by water, which in that part of the grounds is already quite great enough. The avenue on which these improvements were effected is crossed about its middle by the Hooker avenue (another of the main roads in the garden); and the alterations made in the levels of the former involved alterations also in those of the latter near the point of crossing. The changes made in these two roads, and the removal of a number of trees from their margins, have had the effect of opening up several fine vistas in a part of the garden where the views used to be rather cramped and confined. Before the end of the official year a beginning had been made towards making similar improvements in the Clarke and Thomson avenues, both of which have been in a bad state for years. It is hoped that these may be successfully completed during the current year, and that thus another considerable instalment shall be completed of the improvements which are still required to make the garden what it ought to be. No buildings were erected during the year. Additional cooly lines are, however, urgently wanted; a fern conservatory is still a desideratum; and another glazed plant-house is wanted for the nursery. These may, it is hoped, be provided when the present financial pressure on Government has been relieved. The number of visitors to the garden is steadily increasing. Even during the hot-weather and rainy seasons, during which in times past visitors used to be very few, parties of bicyclists have begun to make the garden a resort, the smoothness of the roads offering apparently a great attraction to people on wheels.

2. *Economic plants.*—During the cold season patches of the various kinds of mustard cultivated in Bengal were grown in the Sibpur Experimental Farm adjoining the garden. This was done so that Dr. Prain might have samples of these crops under observation, with the view of furnishing the Agricultural

Department with accurate information as to the races and varieties to which they belong. The results, which go to establish the accuracy of the conclusions arrived at 90 years ago by Dr. Roxburgh (the second Superintendent of the garden), are of great interest both botanically and economically. A similar series of observations on the races of wheat cultivated in Bengal was conducted by Dr. Prain on the same farm during the cold season of 1895-96, and Dr. Prain was then fortunately able to discover the host of the form of rust which too frequently works such havoc with the wheat crops of the Gangetic plain and of the Central Provinces. The results of the series of observations on "wheats" have just been issued, while those on "mustards" are shortly to be published, by the Department of Land Records and Agriculture of Bengal. There was during the year a revival of the interest in rheea cultivation, and large numbers of plants were consequently applied for by planters and others. These indents were met as far as possible; and, in view of a continuation of the demand, the rheea field, which has for years occupied a corner of the garden, has been thoroughly cultivated and manured. As was the case during all previous revivals of interest in rheea, various processes for extracting the fibre have been patented and advertised; and joint-stock companies have been formed to work them. The real difficulty at present seems, however, to be rather in securing a supply of the raw material than in finding a process to deal with it successfully after it has been put on the European market. The usual issues of fruit trees and of trees for planting avenues within municipalities and cantonments have been made during the year. Details of these will be found in the second appendix attached to the present report.

3. *Herbarium.*—Work in the Herbarium was carried on by Dr. Prain and myself with as much vigour as circumstances permitted. During the year 13,989 specimens were added to the collection; while 12,197 specimens of carefully named plants were distributed to the chief Herbaria in Europe, America, and Asia. The chief donor to the Herbarium was Mr. Duthie, Director of the Botanical Survey of Northern India, who contributed 2,066 specimens, and the next was Mr. Thiselton Dyer, Director of the Royal Garden, Kew, who sent 1,757. Mr. Ridley, Director of the Botanic Garden, Singapore, and M. Batalin, Director of the Imperial Herbarium, St. Petersburg, contributed respectively 993 and 847 specimens. An extremely interesting collection of 629 Tibetan plants was contributed by M. E. Drake del Castillo of Paris. From M. Musy, Custodian of the Musée Cantonal of Fribourg, was received a most interesting collection numbering 550 species of plants collected fifty years ago in Southern India by the Swiss Botanist, Perottet. In exchange for these plants of Perottet a large named collection of plants of Northern India has been sent to M. Musy. This exchange transaction was arranged by Dr. Prain while he was on furlough in Europe two years ago. To Mr. R. L. Heinig, Deputy Conservator of Forests in the Andaman Islands, the Herbarium is indebted for 627 specimens. Mr. Heinig is an old and valued contributor, from whom in past years, excellent collections have been received. Other members of the Forest Department who made contributions during the year are Mr. J. S. Gamble, Director of the Forest School, Dehra Dun; Mr. W. A. Talbot, Deputy Conservator of Forests, Kanara, and Mr. H. H. Haines, Deputy Conservator of Forests in Bengal, who sent respectively 77, 339, and 212 specimens. From the late Baron von Mueller, one of the most liberal contributors to the Calcutta collection in years past, there was received, just before his lamented death, a most interesting collection of 301 critical species, chiefly from New Guinea. From Dr. Engler of the Imperial Herbarium, Berlin, I have to acknowledge the receipt of 283 specimens. From America were received 557 plants from Mr. G. V. Nash of Columbia College, New York; 200 from Mr. A. H. Curtiss of Jacksonville, Florida; and 435 from Mr. A. A. Heller, Hawaiian Islands. Surgeon-Captain F. C. Maynard contributed some very interesting plants collected by him during the delimitation of the Beluch-Afghan frontier. These plants formed the subject of a joint paper by Dr. Maynard and Dr. Prain, which was published during the year in the *Records of the Botanical Survey of India.* Mr. Dun sent from the Chin Hills an interesting lot of plants; while Dr. Treub, Director of the Botanic Garden, Buitenzorg, presented 215 specimens; and the veteran Dr. Radlkofer of the Royal Herbarium, Munich, sent 197 most interesting species. Other donors were Mr. R. T. Baker of the Technological Museum, Sydney, Dr. Günther Beck of

Vienna, Mr. C. W. Hope of Dehra Dun, and Mr. Bourdillon, Conservator of the Forests of Travancore. By the direct agency of the garden staff there were collected during the year three sets of plants; viz., Sikkim plants to the number of 1,794 by Mr. R. Pantling; plants of Upper Burma to the number of 530 by Abdul Kholil; and Bhutan plants to the number of 205 by Shaik Mokeem. The latter collector accompanied Dr. A. R. Anderson, Officiating Superintendent of the Indian Museum, who made as shooting excursion into Bhutan. The plants were collected in the neighbourhood of Buxa. Issues of named specimens of Indian plants were made during the year to most of the great botanical institutions in Europe, amongst which may be mentioned those at Kew, the British Museum, the Jardin des Plantes, Paris, the Imperial Museum, St. Petersburg, the Royal Museum, Berlin; to the Herbaria of the Botanic Garden and of the Imperial Museum, Vienna; to the great De Candollean Herbarium at Geneva, to the Herbaria of the Universities of Edinburgh, Cambridge, Aberdeen, Upsala, Zurich, Leiden, Utrecht, Florence; to those of Owen's College, Manchester, and to that of M. Drake del Castello at Paris, and of Sir Dietrich Brandis at Bonn. Contributions were also sent to America to the Smithsonian Institution, Washington, the Arnold Herbarium at Harvard, to the Natural History Survey of Minnesota, Minneapolis; to Australia for the Melbourne Herbarium; to Java for the Buitenzorg Herbarium, and to the Strait Settlements for the Herbaria at Singapore and Perak. In India plants were distributed to the Director of the Botanical Survey of Northern India; to the Herbarium of the College of Science, Poona; to that of the Madras Government at Madras, to that at Peradeniya, Ceylon, and to the collections of Mr. Talbot, Kanara, and of Mr. Gamble, Dehra Dun.

4. *Botanical publications.*—During the year the second part of the fifth volume of the *Annals* of the garden was issued. This volume consists of descriptions, with figures, of about one hundred new or interesting species. About one-fourth of the letter-press of the volume was contributed by Mr. P. Brühl of the Educational Service of Bengal, a smaller portion was written by Dr. Prain, and the remainder is my own work. The seventh volume of the *Annals* was also issued during the year. This volume consists of a monograph of the Indian species of Bamboos by Mr. J. Sykes Gamble, Director of the Forest School, Dehra Dun. The bamboos, owing chiefly to the infrequency of their flowering, have hitherto been little understood, and the different species have been very imperfectly recognised. Mr. Gamble, at once a Forest Officer and a botanist, years ago recognised the difficulties connected with the identification of the species of this most important group of plants, and he has devoted years to their study. After much patient labour he has succeeded in producing an account of them which leaves nothing to be desired. In addition to a description of every species found growing within the limits of the Empire, Mr. Gamble in his monograph gives a list of its vernacular names in the different provinces, with a summary of its uses. The volume contains, moreover, an excellent lithograph of each species drawn by a trained draftsman, with careful analyses of the parts of the flower from Mr. Gamble's own pencil. The eighth volume of the Annals is now in preparation, and will, it is hoped, be published during the year now entered upon. Dr. Prain, Curator of the Herbarium, contributed during the past year the following papers to the *Journal of the Asiatic Society* of Bengal:—*Noviciæ Indicæ*, XI, XII, XIII, XIV (*Two new species of* Lagotis; *Description of a new genus of* Orchidaceæ; *Further additional* Convolvulaceæ; *Some additional* Solanaceæ) and, in conjunction with Dr. King, a paper *on* Croftia, *a new genus of* Scitamineæ. In the *Records of the Botanical Survey of India* Dr. Prain has published, in conjunction with Dr. Cunningham, a *note on Indian wheat-rusts*, and in conjunction with Dr. Maynard a *note on the Botany of the Biluch-Afghan Boundary Commission.* He has also written a *note on the Races of wheat cultivated in Bengal* for the publications of the Department of Land Records and Agriculture, Bengal, and a *Supplementary Report on Ganja* for the Board of Revenue, Lower Provinces, besides contributing minor notes to the *Indian Forester*, *Bulletin de l'Herbier Boissier*, &c. To the *Journal of the Asiatic Society of Bengal*, I contributed the ninth part of my *Materials for a Flora of the Malayan Peninsula.* In the preparation of this part I received great assistance from Dr. Prain, who elaborated for it the account of the important and difficult family of Leguminosæ.

5. *Library.*—The usual periodicals and a few books were added to the library during the year. Some of these were received in exchange for volumes of the garden Annals, the others were purchased.

6. *Interchange of living plants and seeds.*—The appendices I to IV contain full details of the receipts and issues of plants and seeds during the year. The issue of plants was unusually large, and amounted to 54,874. Of this total, about 20,000 were rheea plants given gratuitously to various persons desirous of trying rheea cultivation on a large scale. The plants received numbered 17,981. Amongst these was a fine lot of very interesting things, numbering over 2,000, collected by Dr. G. Watt, C.I.E., during a tour made by him in Assam in his capacity of Reporter on Economic Products to the Government of India. Interesting collections, chiefly of orchids, were also received from Messrs. Gammie, Pantling, and Parkes of the Cinchona Plantation; from Mr. Davies, Assistant Curator of the garden; and from Mr. Peché, Moulmein. Mr. Spooner, C.E., Kathiawar, and Mr. Ridley of Lucknow contributed liberally. Messrs. Sander & Co. and Messrs. Low & Son, nurserymen, London, also made handsome contributions, as did Mr. P. Lancaster, Secretary to the Agri-Horticultural Society of India, and Mr. S. P. Chatterjee, nurseryman, Calcutta. Lastly, a most interesting collection was received from the Royal Garden, Kew. Of seeds, 1,043 packets were received during the year, and 2,234 packets were distributed.

7. *Lloyd Botanic Gadren, Darjeeling.*—The history of this garden during the year was one of misfortune. During the early months the drought was most trying, and when the rainy season at last began it was ushered in by heavy downpours of rain which caused many small landslips all over the grounds. And, towards the end of July, there occurred a violent storm of rain and wind which lasted for about two hours, and by which many of the larger trees were either uprooted or broken to pieces. The fall of these trees of course injured many of the shrubs and herbaceous plants growing beneath them; and the day after the storm the garden presented a miserable appearance. The repair of the damage, as far as it was capable of repair, absorbed much money which otherwise would have been spent on improvements. The lease of the patch of ground which for the past ten years has been worked by the Curator as a vegetable garden expired in June. The Municipality declined to renew the lease, and intimated their intention of building on the land. The building project, however, was abandoned, and an arrangement was made with Government by which this piece of land is to be made over to the Botanic Garden in perpetuity. These arrangements have not yet, however, been officially completed, and the patch of land has not as yet been formally made over. Mr. Kennedy has been in charge of the Lloyd Garden during the year; and, in addition to his work in the garden, he has been in charge of the Shrubbery grounds and of the various trees planted along roadsides within the limits of the Municipality. Mr. Kennedy has as usual worked steadily and energetically.

8. The budget allotments of money both for the Calcutta and Lloyd Botanic Gardens have been fully spent, with the exception of some trivial savings on account of exchange compensation allowance. The proceeds of the sales of surplus plants, amounting for the Calcutta garden to Rs. 732 and for the Darjeeling garden to Rs. 1,060, were paid into the Government treasuries as usual.

9. No one connected with the garden went on furlough during the year. Dr. Prain was as usual in charge of the Herbarium and Library. His services are already too well known to Government to require any mention by me. During the year his devotion to economic botanic work was conspicuous in connection with his researches into the cultivated forms of wheat and mustard and with his investigation into the host of wheat-rust of the plains, the latter having been conducted conjointly with Dr. D. D. Cunningham, F.R.S. Mr. G. T. Lane and H. J. Davies filled respectively the posts of Curator and Assistant Curator of the garden during the entire year, and both worked admirably. During the year Mr. G. H. Cave joined the garden as a probationer under the recently sanctioned graded scheme. Mr. Cave was selected by the Director of Kew from the staff of that institution and came to India with an excellent reputation, which I have little doubt he will maintain. The offices both of the Botanic Garden and of the Cinchona Plantation have been under the charge of Babu Gopal Chandra Datta, whose continued good service merits recognition.

RULES FOR THE GRANT OF MEDICAL CERTIFICATES.

MUNICIPAL DEPARTMENT.—MEDICAL.—No. 3399Medl.

Calcutta, the 30th June 1897

RESOLUTION.

READ—

Government of Bengal Resolution No. 298T.M., dated the 4th September 1895, revising the rules for the grant of medical certificates to candidates for employment in Government service and gazetted officers applying for leave or permission to retire from the service.

A letter from the Government of India, Home Department, No. $\frac{13\text{-Medl.}}{616}$, dated the 25th June 1896, reviewing the above Resolution.

IN the Resolution cited in the preamble the Government of Bengal reviewed the question of the grant of medical certificates in Bengal to candidates for employment in the Government service and to applicants for leave on medical certificate or for permission to retire. Rules were laid down on the subject, by which the duty of examining applicants and granting medical certificates in Calcutta was distributed among the medical officers permitted to engage in private practice. The Government of India, while accepting the principle laid down in the Resolution, desired that this distribution, which applied only to Provincial Departments, might be extended to all establishments under the Government of India in Calcutta. They also pointed out that the form of certificate prescribed in the Resolution was far more severe than was intended by Article 61 of the Civil Service Regulations, and observed that, except in cases where the rules for admission to an office or department require the submission of a certificate previous to examination, certificates should only be given to selected candidates on the requisition of the head of the department. It was further requested that, in the orders distributing the establishments of the Government of India for the purpose of the grant of medical certificates, it might be made clear that, subject to certain exceptions, the rules should not affect the right of officers under that Government, resident within the limits of the town of Calcutta, to call in any Presidency Surgeon whom they choose.

2. In order to give effect to the orders of the Government of India, and to settle finally the entire question of the grant of medical certificates, the Lieutenant-Governor is pleased, in supersession of all previous orders on the subject, to lay down the following rules for future guidance:—

RULES FOR THE GRANT OF MEDICAL CERTIFICATES.

I. The duty of granting medical certificates and of countersigning certificates under articles 903 and 904, Civil Service Regulations, shall, in Calcutta, be performed by the medical officers mentioned in Appendix II attached to these rules, who will examine or countersign certificates relating to those officers only who belong to the departments allotted to them.

II. In the mufassal the duty of granting medical certificates and of countersigning certificates under articles 903 and 904, Civil Service Regulations, shall be performed by the Civil Surgeon or Civil Medical Officer of the district, who will examine or countersign certificates relating to persons of all departments who belong to, or are employed in, his district. He will on no account examine or countersign a certificate for a person attached to another district, except under the circumstances described in rule IV.

III. All officers of Government, whether gazetted or non-gazetted, who are desirous of obtaining medical certificates recommending leave, extension of leave, or retirement, must, if employed in Calcutta, apply to the medical officer to whom the department in which they are employed is allotted. If they are employed in the mufassal, they must apply to the Civil Surgeon or the Civil Medical Officer of the district in which they are employed, and to him only.

IV. Officers on leave either in Calcutta or the mufassal, who, while at a station other than that from which they went on leave, are desirous of obtaining an extension of leave on medical certificate, must, if in Calcutta, apply to the Medical Officer to whom the Department in which they are employed, or the department of the Secretariat to which they are immediately subordinate is allotted, and, if in the mufassal, to the Civil Surgeon or Civil Medical Officer of the district. In every such case it will be the duty of the Medical

Officer, before he grants a certificate, to ascertain particulars regarding the applicant's previous medical history, and the fact that this has been done shall be mentioned in the medical certificate.

V. Selected candidates for employment in Government service will be examined only on the requisition of the Head of the Department for which they have been selected. In Calcutta, such requisitions must be addressed to the Medical Officer to whom the department has been allotted, and to no other officer, and in the mufassal to the Civil Surgeon or Civil Medical Officer of the district in which they are to serve.

VI. Medical certificates granted to selected candidates for employment in Government service will ordinarily be in Form I, but certificates in Form II will be given when specially required by the Head of the Department. Those granted to officers in the service of Government, whether gazetted or non-gazetted, will be in Form III which is prescribed in article 893 of the Civil Service Regulations.

VII. In every case, if the opinion of the medical officer is unfavourable to the applicant, an appeal will lie to the Medical Board, and the decision of the Board shall be final.

3. The Lieutenant-Governor is pleased to direct that these rules shall also apply to the establishments under the Government of India in Calcutta, and that the orders contained in Appendix II distributing the establishments of the Governments of India and of Bengal, for the purpose of the grant of medical certificates, will not affect the right of any officer under either Government, resident in Calcutta, who is entitled to the attendance of a Presidency Surgeon, to call in for the purpose of treatment any one of them whom he chooses, except in cases in which special orders have been laid down limiting this right.

4. The Lieutenant-Governor also directs that medical certificates shall only be required from selected candidates, on the requisition of the head of the Department, and that these shall be granted free of charge. In the case of selected candidates for the Provincial Service, the certificate will be in Form II.

5. The certificate prescribed by rule VI for ordinary use is the same as that prescribed by Article 61 of the Civil Service Regulations, but the rule leaves it open to any department, which requires its officers to be capable of standing hard out-door work, to demand a special certificate in Form II.

ORDER.—Ordered that a copy of this Resolution be forwarded to all Heads of Departments for information and communication to officers subordinate to them.

Ordered also that a copy of this Resolution be forwarded to all Departments under this Government for information.

Ordered also that a copy of this Resolution be submitted to the Government of India in the Home Department, for information.

Ordered also that this Resolution be published in the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Secretary to the Govt. of Bengal.

FIRST FORECAST OF THE JUTE CROP FOR 1897.

THE following is published for general information.

REV. DEPT., *The 5th July 1897.*

M. FINUCANE, *Secretary to the Govt. of Bengal.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

First forecast of the jute crop in Bengal for season 1897 (up to the middle of June 1897).

Season.—Very little rain was received in January and February in the jute-growing districts of Bengal. In March sufficient rain, generally in excess of the normal, fell in all jute-growing districts, except those in the south of the Province, namely, Khulna, Backergunge and Noakhali. The rainfall in April was almost normal in the districts of the Presidency and Burdwan Divisions, but it was very deficient in the districts of North and East Bengal generally. In May thunder showers were of frequent occurrence; the total rainfall of this month was very nearly normal or somewhat in excess of normal in North Bengal and in Burdwan, Dacca and Mymensingh; elsewhere it was more or less deficient. The rainfall during the first fortnight of June was considerably short of the normal in most jute-growing districts, but what rain fell seems to have been well distributed and the crop does not seem to have suffered from deficient moisture. The heavy rain which has fallen in the last portion of this month, since the District Officers wrote, has no doubt improved the prospects of the jute crop.

2. *Area cultivated.*—The total area sown in jute during the current season appears, from the district returns appended to this note, to amount to 2,188,100 acres against 2,203,000 acres estimated to have been sown in 1896. The decrease in area sown this year is nominal. The difficulty anticipated in steeping jute for want of water is reported to have checked sowings to some extent in Jessore and Nadia. Contraction in area is most noticeable in these two districts and in Dinajpur. In a few districts, on the other hand, a somewhat larger area than last year's has been sown this year, owing, it is believed, to favourable rain having been received in the beginning of the season. It is also stated that high price of rice has to some extent influenced cultivators to grow paddy this year in preference to jute.

3. *Character of the crop.*—The prospects of the crop appear so far to be favourable. In North and East Bengal, which are the chief seats of jute cultivation, the crop promises to give at least an average outturn, regard being had to the persistent tendency of local reporting officers to underestimate outturn, while the prospects of the crop are equally good in districts of less importance. The arithmetical mean of the estimates of outturn in annas returned by the District Officers for the current year is $14\frac{2}{3}$ annas; but in view of the tendency to under-estimate noticed above, the average outturn of the present crop is estimated by this Department at 16 annas, or nearly the same as the crops of 1894 and 1895 but over a slightly reduced area. The fulfilment of the present promise of the crop will depend, of course, on the season continuing to be favourable during the next two months and on the crop escaping serious injury by early floods.

4. *Gross yield of the crop.*—Comparing the crop of 1897 with the crops of 1894 and 1895, the gross yield of the present crop may be estimated at 67 lakhs of bales against 71 lakhs (revised estimate) in 1894 and 73 lakhs (revised estimate) in 1895.

In accordance with a suggestion made by the Bengal Chamber of Commerce last year, the exportable surplus of jute out of present crop has not been estimated. Some of the factors which determine that surplus, such as the amount locally consumed and the stock of jute from the previous year, are so uncertain and variable, that it is considered safest to allow those interested in the trade to make their own deduction as to the probable quantity of jute available for export. The estimate of yield adopted in this Department is that a 16 annas crop gives 15 maunds of raw jute, or 1,250 pounds to the acre. It has been roughly estimated in this Department that local consumption of raw jute in the districts for house construction, tethering cattle, local gunny-cloth and minor uses may account for 10 to 15 lakhs of bales. This estimate is sometimes challenged as excessive. With regard to stocks, it may be noted that enquiries recently made by local officers appear to show that very little jute is left in the districts out of the crop of 1896. As regards the consumption of jute by the Indian mills (an important factor in determining the surplus available for exportation), it may be mentioned that the Indian Jute Manufactures

Association estimate the consumption, during the coming season, at 21¾ lakhs of bales against 15⅔ lakhs of bales which was the average annual consumption of the three years ending 31st July 1896, and 18½ lakhs of bales in 1896-97.

Burdwan	Burdwan ... ... 16-6-97.	11,100	10,700	11,000	16½	16	Owing to seasonable rainfall the area cultivated this year, is greater than that of the last year, and the outturn is expected to be up to the average.	
	Midnapore 20-6-97. ...	20,900	9,500	11,000	12½	12½	The increase in area as compared with last year's is due to better rain, but the area brought under cultivation this year has still been much less than the normal area for want of seasonable rain. In Contai the area has been very much less, and it is stated that the estimate is premature. The outturn is likely to be slightly better than last year's on account of better rains.	
	Hooghly ... ... 17-6-97.	14,300	7,000	14,500	16	16	The area sown was above the normal owing to early and favourable rains. Figures have not been received from Howrah, and those received from other reporters under estimate (in the Collector's opinion) the area sown and the probable outturn.	
Presidency ...	24-Parganas ... 16-6-97.	42,000	26,200	40,300	13½	12	The outturn is expected to be below the average, as there was not sufficient rain at the sowing season.

		Acres.	Acres.	Acres.	Annas.	Annas.		
Presidency ...	Nadia 15-6-97.	47,000	46,600	30,000	15	13	The decrease in the area sown is owing to the fact that last year much difficulty in steeping jute for want of water was experienced by cultivators; besides they have considered it more advantageous this year to sow *aus* paddy. The present state of the crop is promising, and if there be no insufficiency of rain, a much better outturn is expected.	
	Murshidabad 17-6-97. ...	20,600	19,200	17,000	11	12	The decrease in area sown this year is due to the high prices of rice which has tempted the cultivators to sow paddy in jute lands. The increase in outturn is little and is due to the timely rainfall of the year.	
	Jessore 16-6-97.	41,500	41,000	27,000	13	15	In the Narail subdivision where the largest area of jute is the greatest, the decrease in area this year is due to want of rain which prevented the high lands from being sown with jute this year. The Divisional Officer of Bongaon says the decrease in area is due this year to cultivators having felt some difficulty last year in steeping their jute, which they are afraid might be repeated this year.	
	Khulna 17-6-97. ...	22,500	21,600	21,600	14	11	A good outturn can not be expected without timely rain.	

Rajshahi 26-6-97.	104,500	104,000	127,000 (a)	15	13 (b)	(a) The increase is due to the transfer of thana Mohadebpur and parts of thanas Adamdighi and Nawabganj to this district. (b) For want of sufficient rain in the Sadar and Nauraon subdivisions, the outturn this year is expected to be not more than 13 annas. In the Natore subdivision, however, a 16-anna outturn is expected owing to the timely rainfall since the sowing season.
Dinajpur 15-6-97.	86,300	104,000	90,000	10	10	The decrease in columns 3 and 4, compared with last year's figures (99,500 and 107,500 acres respectively), is due to the transfer of thana Mohadebpur to Rajshahi district. The area sown during the current year has, to some extent been reduced owing to a large area of *bhadoi* paddy having been sown. Prospects of the crop are, so far, good.
Jalpaiguri 21-6-97.	70,500	85,400	77,400	11½	12	The increase in area is due to extension of cultivation in the district. The outturn is expected to be more than that of the previous year owing to rainfall being seasonable up to date.
Darjeeling (plains) 15-6-97.	2,500	2,540	2,300	10	12	The figures in columns 3 and 5 have been taken from the crop statement prepared by the Settlement Officer, Terai, in the course of the present settlement operations. It may be added that owing to the scarcity of food-crops, the area, under jute has decreased with an increase in the cultivation of *bhadoi*. Owing to seasonable rainfall the outturn is expected to be better than that of the last year.
Rangpur 9-6-97.	218,500	187,300	270,800	11	16	Seasonable fall of rain during the year has been favourable to the cultivation of jute, and has not interfered with the weeding operations. Hence average outturn is expected.
Bogra 10-6-97.	76,000	100,000	160,000	10	20	Better outturn is due to the favourable rain at the time of sowing and afterwards.
Pabna 15-6-97.	140,000	148,300	182,300	12	12	In the Sirajganj subdivision the crop has been affected by the worm locally called "Urchoonga," and by the hailstorm in May last. Hence the bad outturn.

Dacca ...	Dacca ... 14-6-97.	(a)288,300	176,400	194,700	11	(b)13½	In last year's forecast, the normal area was shown as 219,500 acres. It has been now raised by the Collector to 259,300 acres. It is difficult, however, to believe that the estimate of normal area is correct, and the Collector is requested to be so good as to reconsider the estimate of normal area.
	Mymensingh 15-6-97.	570,800	558,700	532,700	12	14½	(a) The increase is due to the revision of area after local enquiry. (b) The outturn is expected to be better than that of last year, owing to timely rainfall. The decrease in the estimated area sown this year is owing to the fact that people have grown paddy more largely than before, and the increase in the outturn is due to the fact of sufficient rain in April and May.
	Faridpur 14-6-97.	86,000	86,000	86,000	14	16	The season up to date has been fairly normal, and as far as can be judged at present, there will be an average crop.
	Backergunge 16-6-97.	6,400	6,400	6,400	16	12	Decrease in outturn is due to deficiency of rainfall at the sowing time.
Chittagong ...	Tippera ... 16-6-97.	224,000	235,800	236,500	14	16	The increase in the area sown is trifling and does not call for any remark. The increase in the outturn is due to timely rainfall.

	Noakhali 15-6-97. ...	4,900	4,900	3,800	10	9	As the police supplied different figures on different occasions, a special enquiry was held by Sub-Deputy Collector and Kanungoes this year, to ascertain the normal area under jute cultivation. The figures in columns 3 and 4 of the previous forecast are accordingly changed. The decrease in the area sown and in the estimated outturn is due partly to insufficient rainfall at the time of sowing and partly to paddy cultivation having increased to some extent on account of the high price of food-grains.
Bhagalpur ...	Bhagalpur 14-6-97. ...	22,400	22,400	22,400	13	14	Hailstones have done some damage to the plants in the Supaul Subdivision. Hence the expected outturn has been shown less than average.
	Purnea 14-6-97.	62,200	75,500	61,500	15	16	The decrease in the area sown this year is due to the larger area sown with *bhadoi* paddy in consequence of high price of food-grains. This year's outturn is expected to be better than that of last year, as the rainfall is hitherto seasonable.
	Malda 14-6-97.	45,000	35,000	25,000	8	8	The total area available for jute cultivation could not be sown for want of rain, and for a similar reason the outturn is expected to be a poor one.
Orissa ...	Cuttack 17-6-97.	5,500	4,100	5,100	11	14	Owing to timely rainfall, a larger area has been sown this year than in the previous year and the prospects of the crop are better this year.

(a) As estimated by the Department last year. Probably, however, the crop was not less than 14 annas.
(b) The arithmetical mean of outturn, as shown in the district returns (calculated with reference to areas), is 14½ annas. But as explained in the note, this estimate is raised by this Department to 16 annas.

RABI CROPS IN BENGAL, 1896-97.

THE following is published for general information.

REV. DEPT., *The 6th July 1897.*

M. FINUCANE, *Secy. to the Govt. of Bengal.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Second note on the outturn of rabi crops in Bengal harvested in the spring of 1896-97.

Explanatory.—It was stated in the preliminary note on the outturn of *rabi* crops for 1896-97, issued on the 3rd April 1897, that in consequence of the incomplete estimate of *rabi* non-food-crops returned by District Officers in March last, it was not possible to prepare at the time a complete report on area cultivated with all kinds of *rabi* crops during the past season, and on their outturn. The returns appended to this note contain estimates of the area and outturn of all kinds of *rabi* crops (food as well as non-food-crops) harvested in the spring of 1896-97. The estimates of area and outturn of all *rabi* food-crops, except sugarcane, now published, are, with a few exceptions, the same as were published in the returns appended to the preliminary note of 3rd April 1897. Sugarcane, which did not appear in the preliminary returns, is now added to the list of *rabi* food-crops.

Separate estimates of area and outturn have been shown in the returns under the head of *rabi* non-food-crops for certain special crops, such as tobacco, opium, and Indian hemp, for which no separate forecast notes have been published.

The remaining *rabi* non-food-crops, among which the most important are oilseeds and cotton (for which separate forecast notes have been published), are shown in the aggregate. On reference to the provincial totals of the normal areas under the different kinds of *rabi* crops, it will be seen that out of an estimated total area of 18½ millions of acres, the food-crops, including sugarcane, occupy about 12½ millions of acres or two-thirds of the estimated *rabi* area. The remaining one-third, or six millions of acres, is occupied by non-food-crops, among which oilseeds occupying about four million acres and tobacco occupying about four-fifths of a million of acres, are the most important.

2. *Character of the rabi season of 1896-97.*—The character of the last *rabi* season was briefly described in the preliminary note of 3rd April 1897. The description is reproduced below for convenience of reference. The monsoon season of 1896 was exceptionally dry, and the rains,

moreover, ceased early in the latter part of September. The month of October was practically rainless, and no general rain was received over the Province till the third week of November. The absence of rain during this period, and the deficient rainfall of the previous months, produced a lack of moisture in the soil, which interfered seriously with the preparation of the land and the sowings of the *rabi* crops generally. Rain fell on the 23rd and 24th November in many parts of these Provinces, but the showers were too light to do much good to the *rabi* crops which had been sown. In December there was no rain in Lower Bengal and Orissa. In North Bengal there was general rain on the 31st, and in Bihar and Chota Nagpur light rain fell on the 25th and 31st. In January, rain was very light throughout the Province, in most parts practically *nil*. In February useful showers were received in all parts of these Provinces during the first three weeks of the month, which improved the prospects of the standing crops to some extent. The showers were generally light, except the rain which fell about the middle of the month in Orissa and Chota Nagpur. No rain fell during the last week of February. The rainfall of February was above the normal in Orissa and Chota Nagpur, practically normal in Bihar, and in defect of the normal in Bengal Proper. Hail slightly damaged the standing crops in Palamau during the first week of February. There was rain in the first week of March in parts of Northern and Eastern Bengal. In the second week slight showers of rain fell in many districts; and in parts of Bhagalpur and Palamau the rain was accompanied by hail and storm which did some damage to standing crops. In the third week scattered showers (accompanied in some instances by high winds) fell in different parts of these Provinces. During the last week of March rain was general all over the Province. It proved useful to spring crops, and is not reported to have injured the crops ready for harvest or lying on the threshing floor.

3. *Area cultivated.*—According to the revised estimates now published, the area sown in 1896-97 with *rabi* food-crops, exclusive of sugarcane, appears to be 8,724,900 acres, against 9,473,900 acres estimated to have been sown in the previous year. The decrease of 749,000 acres (7·9 per cent.) is attributed to the early cessation of the monsoon rains of 1896. Among the *rabi* food-crops there was, however, a noticeable increase in the area sown in *boro* rice (675,000 acres in 1896-97 against 561,700 acres in 1895-96); the extension of cultivation of *boro* paddy appears to have been due to the failure of the *bhadoi* and winter paddy crops. There was a nominal increase in the area cropped with potatoes, yams, melons, and other cold weather vegetables and fruits.

The estimated area under sugarcane in 1896-97 was 835,000 acres, against 927,000 acres in the previous year. The decrease in area seems to have been due to the want of rain at the sowing time in the cold weather of 1895-96. The

as sown in tobacco, opium, paddy and *ganja* also show a light decrease, due no doubt to the want of rain in the beginning of the last cold weather. There was, however, an important falling off, due to the same cause, in the area occupied by "other *rabi* non-food-crops" in 1896-97, amounting to 565,400 acres, or 13·2 per cent. on the area cultivated in the previous year.

The total area cropped with all kinds of *rabi* crops in the season of 1896-97, would appear to have fallen short of the area cultivated in the previous year by no less than 1,432,000 acres, or nearly 9 per cent. on the area sown in 1895-96.

4. *Estimated outturn of crops.*—The outturn of the *rabi* food-crops (except sugarcane) was described in the preliminary note of 3rd April 1897. The estimates of outturn of these crops remain generally the same, as shown in the preliminary returns. The average outturn for Bengal, of the *rabi* crops of 1896-97, was stated in the preliminary note to be $10\frac{1}{2}$ annas, against $11\frac{1}{2}$ annas estimated as the outturn of the *rabi* crops of 1895-96 grown on a somewhat larger area. In the Patna and Bhagalpur Divisions, which together comprise $\frac{5}{8}$ths of the total area under *rabi* food-crops, and where the area under cultivation with *rabi* food-crops was not much less than was cultivated in the previous year, the cultivation in 1896-97 was stated to be not less than 12 annas. The outturn of sugarcane, tobacco, and "*rabi* non-food-crops" generally is estimated at nearly three-fourths of the average. The arithmetical mean of the district returns of yield of opium appears to be 13 annas for 1896-97, against $12\frac{3}{4}$ annas in 1895-96. But it would appear from the Opium Administration Report for 1895-96 that the yield of opium per bigha in 1895-96 was slightly above the average of the past ten years. It is probable, therefore, that the outturn of the crop of 1896-97, which appears to have been slightly better than that of 1895-96, was a little over 16 annas, and not so low as 13 annas, which is the figure resultant from the District Officers' estimates.

Rajshahi ...	1,490,565	1,095,900	Wheat	84,700	78,500	69,400	10½	6	The decrease in area sown with wheat, barley, gram, other *rabi* cereals and pulses, tobacco and other *rabi* non-food crops, as well as the deficient outturn, is due to want of rain. Owing to the very poor outturn of both *bhadoi* and winter rice crops the cultivators have exerted their utmost to bring every bit of land, even clearing *dams* or weeds from the *beels* under cultivation, hence an unusual increase in the area sown this year under *boro* rice. The rainfall of May has improved the prospects of *boro* rice.

Champaran —	3,360,640	1,622,000	Wheat	162,000	130,000	130,000	Annas. 10	Annas. 12	The normal area in column 5 has now, for the first time, been taken from the survey records, which show that the areas previously reported were very wide of the mark. The area in column 6 has been corrected accordingly and this accounts also for the difference between the area in column 7 and that in the first forecast. The area and likewise the outturn have been greatly reduced owing to abnormal drought and excessive heat at sowing time. The crop was very unequal owing to variations in moisture at the time of sowing.

In the first forecast the ... *dalua* was estimated 14 annas, but the rain of the last fortnight of March, and the 1st week of April 1897, attended with high winds and freshets, has reduced the estimated outturn to 12 annas. As regards other food-crops and non-food-crops omitted in the previous report, they were sown late, and the rain of March and April accounts for the good outturn.

The decrease in area, as compared with the normal in some cases, and in outturn, as compared with that of last year in all cases, is due to want of rains at the time of sowing and growth. The area under *boro* rice is above the normal, as the raiyats were induced to cultivate it for compensating the loss of winter rice by floods.

FAMINE RELIEF.

THE following paper is published for general information.

M. FINUCANE,

Secretary to the Government of Bengal.

The 5th July 1897.

No. 652 $\frac{T.-R.}{(Fam.)}$, dated Darjeeling, the 21st June 1897.

From—M. FINUCANE Esq., Secretary to the Govt. of Bengal, Revenue Dept.

To—The Secretary to the Government of India, Revenue and Agricultural Dept.

IN continuation of this Government's letter No. 299 $\frac{T.-R.}{Fam.}$, dated the 19th May 1897, I am directed to submit, under section 29 of the Bengal Famine Code, the following report on relief operations in this Province during the month of May. This report has been delayed in consequence of the report of the Patna Division having been delayed in transit by the interruption of traffic on the Northern Bengal State Railway. The information furnished in this report, for the Patna Division, is for the four weeks ending 29th May, the previous report having dealt with the five weeks ending 1st May; the portions relating to the other Divisions are for the five weeks from the 25th April to 29th May, inclusive. The rainfall during the period under report is shown in a separate statement hereto annexed. I am to submit, herewith, a copy of the report of the Commissioner of the Patna Division, No. 1272F.G., dated the 25th May 1897, with enclosures, for the first half of May. Copies of his report, No. 1367F.G., dated the 11th June 1897, with enclosures, for the second half of May, will be forwarded from Calcutta as soon as that report is printed. I am also to enclose famine maps of the districts of Manbhum, Palamau, Hazaribagh, Nadia, Murshidabad, Sonthal Parganas and Puri. A consolidated map of the Patna Division, showing the areas affected, and a famine map of the districts of Khulna, will be submitted later. As the affected area in the district of Bhagalpur continued unaltered, no map has been submitted by the local officers for the period under report.

2. *Patna Division.*—There is nothing of importance to report with regard to the districts of Patna and Gaya, both of which continued to be in a satisfactory condition. Prices were almost stationary, except that there was a slight rise in the price of rice, and public health and the condition of cattle were normal. The poor-house at Benkipore was still open, but of the 123 inmates, only about one-fourth belonged to the Patna district, and the rest were waifs from other districts. In Gaya, there were four poor-houses and two kitchens giving food to wanderers and others, the average daily number fed in the latter half of May being 515; charitable relief committees were at work in every thana and outpost, but all the reports received show that the number of persons in need of relief was small, and that in every case the funds locally raised had been sufficient to meet local requirements. In the remaining five districts of the Patna Division in which relief operations are in progress on an extensive scale, the month of May was marked by a rise in prices, which was greatest in Saran and in the Bettiah Subdivision of Champaran, and by an increase in the numbers on relief works and gratuitous relief. The following paragraphs deal with the main features of relief in these districts.

3. *Rainfall and prospects of crops.*—The rainfall in the several districts is shown in the statement hereto appended. Besides local showers, there was general rain in North Bihar on the 12th and 13th, and again between the 20th and 22nd of the month, and it is reported to have been wholly beneficial. The outturn of *cheena*, which was being harvested, was generally good, and sugarcane and the *bhadoi* crops are reported to have been doing well.

4. *Area and population affected.*—The only change reported under this head was in Champaran. Although there was no great alteration in the area seriously affected, the landless classes were everywhere in considerable distress on account of the very high prices, and as relief measures, in the shape of relief works or gratuitous relief or both, were in progress in all thanas, the Collector has now shown the whole district as affected.

5. *Numbers on relief.*—The numbers and percentages of population on relief are shown below from the first half of April:—

District.	10th April.		1st May.		15th May.		29th May.	
	Numbers on relief.	Percentage on population of affected area.	Numbers on relief.	Percentage on population of affected area.	Number on relief.	Percentage on population of affected area.	Number on relief.	Percentage on population of affected area.

Total	542,589	7·39	597,021	8·23	667,399	9·21	711,059	9·41

The numbers given in this table are as shown in the weekly telegraphic reports published in the *Calcutta Gazette*, corrected up to date. The number in Muzaffarpur for the 29th May shows a falling off as compared with the number on the 15th idem, but the number of relief workers, taken with the average daily number on gratuitous relief in the last week of May, as shown in Famine Statement A (relief works 60,071 + gratuitous relief 82,515 = total 142,586) was larger than the corresponding numbers for the first half of May (relief works 50,838 + gratuitous relief 78,369 = total 129,207). In all other districts the numbers were increasing. The smaller percentage for Champaran, as compared with that of the 15th of the month, is due to the increased area and population now shown as affected; there was an increase in the actual total numbers.

6. *Relief works.*—The number of works open on the 29th May was as follows:—

	Under Civil Officers.	Under the Public Works Department.	Total
Shahabad	10	...	10
Saran	37	12	49
Champaran	55	29	84
Muzaffarpur	82	25	107
Darbhanga	132	47	179
Total	316	113	429

The total number of works at the end of April was 373, of which 276 were under Civil Officers and 97 under the Public Works Department. The reasons which led to so large a number of works being opened, and the Lieutenant-Governor's views on this subject, were stated in paragraphs 10 to 12 of my letter No. 568 $\frac{T.R.}{Fam.}$, dated the 7th June 1897.

The following statement compares the numbers on Government relief works at the end of May with those at the end of April:—

The numbers on Government relief works increased in all districts. The following table shows the results of task-work, as regards outturn, wages and cost, in the second-half of May, in comparison with those in the corresponding period of April:—

District.	Average daily wage of adult male unit.				Average outturn of work per adult male unit on task-work.		Cost rate per 1,000 c. ft.

Darbhanga ...	1 6	1 6	1 6·6	1 6½	39·29	40	2 7 0			

The wages earned during the two periods do not show much difference. There was a satisfactory increase in the average daily outturn per male unit, and a consequent decrease in the cost rate per 1,000 cubic feet of earthwork in the district of Shahabad. Mr. Toogood, the Public Works Department Superintendent of Relief Works, who was lately on tour in this district, reported that the measurements were unimpeachable and that the work was being very well done. Owing to the small numbers of workers, measurements and payments were made for the individual task, and the Commissioner reports that the system was working well, he has decided not to interfere with it. The falling off in the outturn and the increase in cost rate in the district of Saran were due mainly to the facts that most of the works under Civil Officers were at the tanks far advanced, in which the lead and lift were very long, and that a number of women employed as carriers was very large. The proportion of females to males on task-work was greatest in this district, being 216·14 females for every 100 males.

7. *Piece-work system.*—The system of piece-work had been introduced during the course of the month only in the districts of Champaran, Muzaffarpur and Darbhanga, on the major works noted on the margin. The District Officers concerned have not found it possible to report fully on the working of the new system. The following table shows the results as far as can be gathered from the statistics furnished:—

lead up to 50 feet and lift up to 3 feet, with five annas per 1,000 cubic feet for every additional 5 or 6 feet or lift. The Collector writes:—

"This form of work is found to be much more popular with the labourers than task-work, the main reason being that if they fall short of what under the latter system would be the full task, they are paid exactly for what they do, and not be fined in a way they do not understand. The people have left the civil works accordingly, and this is what we wished them to do, as the canal will be a very useful work. Another advantage they find is that, when necessary, the men can go off to cultivate their fields and leave the rest of the family to do what they can, the women doing the digging when the soil is soft. On task-work this sort of thing would disorganise the whole gang, and the task could hardly be graduated suitably so as to give the gang a fair chance of earning the full wage. The Executive Engineer, Mr. Sealy, reports that he has observed no cases in which the people are unable to earn enough for their support by piece-work. The average proportion of carriers to diggers on the canal is reported to be 2½ to 1, the lead and lift being moderate. If this be so, each digger excavates on the average 173 cubic feet per diem, but there are many professional labourers on the work who accomplish considerably more than this under the stimulous of payment according to results. We should have to give work to the latter class under any system, as there is no competing private employment for them. Mr. Still, the experienced Charge Superintendent of Hardih, informs me that he has watched the work closely, and finds that non-professional labourers also work hard all day and late in the evening. He states that no women and comparatively few children are seen on these works. The piece-work system appears to be working satisfactorily, and I feel sure that it will prove a great saving of expense to Government, without diminishing the relief given to those really in distress. It is very much simpler to work than the task-work system, and easy of check. There is nothing to fear from false muster-rolls, wrong classifications, or cheating of the workers, through the system of fines. The labourers know pretty well what they ought to get, and it is not necessary to pay them the exact amount until after the measurements have been checked by superior officers."

8. *Private relief works.*—Private works continued to give employment to a considerable number of people in need of relief. In Shahabad, the Sadar tank employed 3,075 adult male units with 260 dependants on the 29th May. Besides this, there were several tanks and irrigation channels which, it is stated, in all employed more than 3,000 persons. The Gaya-Mogulsari Railway line in this district has not drawn large numbers, notwithstanding that the railway authorities have raised their rate to Rs. 2-8 per 1,000 cubic feet, and that all relief works in the neighbourhood have been closed for some time. The total weekly numbers employed on the railway are noted on the margin. In Saran, the Hatwa Raj had eight works open, employing a daily average of 3,439 adult male units, and the Collector estimates that an additional number of nearly 3,000 persons were employed on works carried on with loans given by Government. In Muzaffarpur and Darbhanga, the Darbhanga Raj continued to maintain works which employed a daily average of 2,243 labourers in the former district, and 12,036 in the latter district, on 29th May. The decrease as compared with the number at the end of April * is believed to have been due to large advances given out by the Maharaja.

9. *Poor-houses and kitchens.*—The following table shows the number of Government poor-houses and kitchens that were open in May:—

District.	Poor-houses.		Kitchens.		Total average daily number relieved in poor-houses and kitchens.

At the end of April there were 25 poor-houses and 42 kitchens maintained by Government. Out of the total number fed in kitchens in Muzaffarpur, 7,284 were children. The Hatwa and Darbhanga Raj poor-houses continued to do good work.

10. *Gratuitous relief.*—The following table shows the average daily numbers on gratuitous relief in the last week of May and the amounts of the average daily doles, in comparison with the corresponding figures at the end of April:—

In consequence of the inevitable increase of distress which must continue till the breaking of the monsoon rains, the numbers on gratuitous relief increased everywhere, the percentages being as given on the margin in comparison with the percentages on relief works. A report on the proportion of people on gratuitous relief has already been submitted to the Government of India in my letter No. 568 T.R. (Fam.) dated the 7th June 1897, and it is unnecessary to recapitulate here what was said in that communication. In his report for the second half of May, the Commissioner writes that he feels confident that no material reduction will be found possible in the proportions given above.

The following are extracts from letters addressed to the Commissioner of the Patna Division by the Collector of Muzaffarpur on the same subject:—

"It is a mistake to suppose that the gratuitous list has been swelled at the expense of the relief works. There is a certain minimum in these districts, not a small number, who can never go on to relief works. The only question in regard to these is, how long can they live without gratuitous relief, and they are not *parda-nashins* who can be relieved from the Charitable Fund.

"That relief works did not increase in proportion, was due to their being able to find work outside famine relief works, and that, by insisting on the execution of the fixed task, they were not encouraged to turn from private employment to famine works.

"The proportion of persons receiving gratuitous relief to relief work labourers is not a sufficient test of efficiency of famine administration. Percentages in famine work, as in criminal statistics, can only serve to draw attention to points calling for explanation; they cannot in themselves be made the basis of praise or censure. This has been thoroughly well accepted in criminal administration, and has got to be accepted in famine administration also.

"The fact is, in the crowded population of a Bihar district, there is an irreducible minimum which must come on Government hands in a severe famine or must die. We have kept these off our hands as long as we dared do so. These are not people who ever have been or could be labourers. They are those suffering from infirmities, and the very old and very young who have no one who is bound by custom or law to support them. Possibly the denseness of the population in these districts (902 to the square-mile) may cause their proportion to the total proportion to be unduly large, though I am unable to say that this is so. Then the population of the affected area is probably about 2½ millions. Hence a certain number must come on our hands even if there were no relief.

"The relief works numbers have been kept down partly, owing to the effective organisation and the care which has been taken to train the famine officers as far as was possible in their duties before sending them out, but principally owing to the untiring energy and devotion of the Charge Superintendent and the Public Works Department Officers who have constantly inspected the works and seen that the task imposed by Government was as far as possible exacted. The result has been that the people who have not hitherto had any need of

Government assistance, finding that the works are not a happy picnic party, have kept away. All the while the people have been carefully watched by the Circle Officers and Charge Superintendents, and their condition proves that, so far, they have been perfectly well able to do without Government assistance."

11. *Physical condition of the people, &c.*—The physical condition of the people and public health were generally good. There were cases of cholera and small-pox; but these are usual at this season. The death-rate in the affected tracts of Shahabad for April was 3·20 against 2·37 for the whole district. The high rate is reported to have been due principally to the prevalence of small-pox and fever. There was no death from starvation. The condition of cattle was normal.

12. *Loans.*—The season for loans for village works under the modified rules under the Land Improvement Loans Act is well nigh over. The following table shows the loans of this class actually made:—

District.	Up to 31st March 1897.	From 1st April.	Total.

As regards loans under the Agriculturists' Loans Act, at the date of the report enquiries on applications were being pushed on, and the amounts actually advanced were as follows:—

	Rs.
Shahabad	13,398
Saran	52,793
Champaran	3,378
Muzaffarpur	4,688
Total	74,257

The figure above given for Champaran does not include the amount advanced in the second-half of May, which the Collector had not been able to ascertain. In Darbhanga, no advances had actually been made up to the end of the period under report.

13. *Food-stocks, importation of grain, and prices.*—The following table shows the imports and exports since the second-half of November in all districts of the Patna Division, including Patna and Gaya, as far as this Government is aware:—

Shahabad and Patna are the only districts in which the imports exceeded the exports, the imports consisting chiefly of rice, and the exports of the new *rabi* crops. The falling off in imports in the first-half of May was due to an accumulation of grain at the Mokameh Ghât between the 6th and 13th May, owing to the inability of the Bengal and North-Western Railway to cope with the traffic. This obstacle has since been removed. The north of the Bettiah Subdivision of Champaran is now almost entirely dependent on imported supplies, which consist mainly of rice and paddy from Calcutta. It is stated that American maize has also found its way to some of the markets in the interior of the district of Champaran. The food-supply is being kept up by importation, and no deficiency is reported from any district. Prices, however, as already observed, rose in all the districts, the most marked increase being in Saran and North Champaran. In Saran, barley and *rahar* rose from 13 seers 9 chitaks to 11 seers 7 chitaks per rupee, and wheat from 11 seers 2 chitaks to 9 seers 15 chitaks per rupee. The following extract from the Champaran Collector's report for the second half of May describes the position as regards prices in that district:—

"At the former centre (Motihari) prices have not changed much, except that barley has risen from 13 seers 2 chitaks to 12 seers 5 chitaks per rupee, and a general tendency to rise is observable. Common rice is selling at 8 seers, and Burma rice practically at the same rate. At Bettiah, the prices of common and Burma rice, which rose sharply to 7 seers 5 chitaks and 8¼ seers respectively in the second week of May, have maintained the same high level ever since, and barley, gram and rahar have all risen in price and are considerably dearer than at Motihari. At Ramnagar, where common country rice was last returned at six seers, there does not now appear to be any more in the market, and the price of Burma rice has risen from 7¾ seers to 7¼ seers. At Bagaha, both common and Burma rice are returned at 7½ seers, against 8 seers a fortnight ago. In the northern markets generally, the price of rice is about the same as at Ramnagar and Bagaha. Barley is quoted as selling at 12 seers, but there is no quotation from several of the markets."

14. *Cost.*—The total expenditure in the Patna Division, up to the end of May, so far as is known, is reported to have been Rs. 37,80,233, of which Rs. 26,33,491 have been spent on relief works, and Rs. 10,94,510 on gratuitous relief. The Commissioner says, however, that these amounts do not include large sums outstanding and unadjusted.

15. *Chota Nagpur Division.*—There was general rain in the Chota Nagpur Division during the week ending 1st May. Since that date there were a few showers, except in Palamau, which had only ·05 of an inch in the week ending 8th May, and no rain during the remainder of the period under report. The heaviest fall is reported from Singbhum. The weather was, on the whole, favourable for ploughing and sowing, and the Commissioner states that the most pressing matter at the date of his report, was the question of granting advances to cultivators for the purchase of seed and cattle, and a sum of Rs. 60,000 has recently been allotted to this Division by the Board of Revenue, in addition to what was granted before. The present prospects of the coming crops are reported to be quite up to the average. There was a continued rise in the prices of rice during the month, but those of other food-grains were generally steady. Mr. Forbes writes:—

"The pressure of the continued high prices is making itself distinctly more felt week by week, specially in the Manbhum, Hazaribagh and Lohardaga districts. In Palamau, although prices there are higher and stocks have been much lower than anywhere else, it is evident that the effect is not telling upon the people in so marked a manner as in the other districts. The reason, no doubt, is that the people of Palamau have more forest products to fall back upon, and besides this, the outturn of *rabi* has been better there than in the eastern part of the Division."

In view of the rising prices and of the lapse of time since the gathering of the *mahua* flower, the Commissioner has ordered the piece-work rates to be raised throughout the Division from Re. 1-4, Re. 1-9 and Re. 1-14 for soft, medium and hard soil, respectively, to Re. 1-9, Re. 1-14 and Rs. 2-3 per 1,000 cubic feet. The piece-work system has been in force too short a time to permit of the results being known. The public health was generally good. Cholera is, however, reported from parts of Palamau, Manbhum and Hazaribagh. Cattle-disease is reported from Palamau.

In the report for April, it was stated that rice was selling in three markets in Palamau at between 5 and 6 seers the rupee; and that the lowest price recorded was a little over nine seers. During the week ending 29th May, rice was sold in four markets at between 5 and 6 seers, and the lowest price recorded was below 8 seers. The average prices of other food-grains were as noted on the margin. The causes of these exceptionally high prices appear to be that stocks of food-grains were running very low, and that importation was impeded by the difficulties of transport from a great distance. The Deputy Commissioner reports that the labourers on the works were unable to procure food at the markets in the neighbourhood of the works, and that all consignments of imported rice were whipped up, as soon as exposed for sale, by pack-bullock traders from the interior of the district. Early last month it became evident that the supply of food grain for the relief operations could not be left entirely in the hands of traders, who, it was found, were much hampered by the difficulty of obtaining carts to transport the grain collected at Baroon. It was, therefore, decided, on the recommendation of the Commissioner, that 17,500 maunds of Burma rice should be imported by Government for the wages of relief workers and for gratuitous doles, and about 15,500 maunds obtained from two Calcutta Firms were despatched *viâ* Gaya. Assistance was rendered to the grain-dealers in securing carts at Baroon, with the result that, while in the three weeks ending 15th May only 2,158 maunds of rice were imported into Palamau under the bounty system, making a total of 7,516 maunds during the past three months, the quantity imported by the traders between the 16th and the 29th May alone amounted to 5,044 maunds. Further advances made to grain-dealers during the period under report amounted to Rs. 26,800, making a total of Rs. 51,300. As already observed, notwithstanding the high prices, the numbers on relief works have not increased considerably. On the 24th April there were 18 relief works open with 2,665 labourers. On the 29th May the number of works was 16 and the number of relief-workers 3,045. But, in addition, about 3,570 persons were employed on 19 works carried on by local zamindars, and more found employment on 13 works opened by the Maharaj Kumar of Chota Nagpur in pargana Tori, for which returns have not been received. The daily average number on gratuitous relief at the end of the month was 1,971 against 1,672 in April. Besides this, it is stated that the Local Relief Committee (whose report, however, deals with the first half of May) were giving relief to 888 persons in return for work done, viz. for cotton-spinning, cloth-weaving, paddy-husking and *sattoo*-pounding, and to 225 persons who were doing no work.

Mahua rose from an average of 27 seers in the first half, to 23¾ seers in the second half of the month.

There was no change in the affected area in Manbhum. The price of rice in this district ranged from about 8 to 10 seers per rupee in the second half of April; on the 29th May rice sold in one market at less than 7 seers, and the average for the district may be taken at from 7½ to 8 seers the rupee. Mahua is reported to have risen from 42 to 31 seers per rupee. The imports aggregated 47,128 maunds, and the exports 1,901 maunds. The number of works open on 29th May was 20 against 11 on the 24th April. There was no great increase in the number of relief workers, the number at the end of the period being 3,971 against 3,484 on 24th April: about 3,000 persons are reported to have been employed on private works carried on with loans made by Government. But the number on gratuitous relief increased from 4,861 on 24th April to 7,383 on 15th May, and to 11,969 on the 29th May. Orders have been issued for a careful scrutiny of gratuitous relief lists. Three kitchens have been opened on the Grand Trunk Road for the distribution of cooked food to travellers.

Manbhum.

In the district of Hazaribagh the *mahud* harvest is over, and the outturn, estimated at 10 annas, should suffice for the food of the cultivating classes until the next *bhadoi* crop. The imports of food-grains aggregated 46,371 maunds, and there were practically no exports. Prices remained fairly steady, except in the case of rice, which sold at from 6½ to 8 seers per rupee. The number of public works carried on as test-works was 49 against 35 in April. The largeness of

Hazaribagh.

the number of works opened is explained in the following extract from the Deputy Commissioner's report for the first half of May:—

"They (the Charge Superintendents and the Subdivisional Officer of Giridi) all make the same report. They find the relief operations, the road work or kitchen, fairly well attended, but only by persons living in the immediate neighbourhood. When they visit places five or six miles distant, they find persons who require relief, but who refuse to go the distance named to get relief. It must be given them in their village or not at all. Frequent reports of such a nature agreeing with my own experiences would point to the absence of real distress were it not the fact that many of the people (and specially the children) are discovered to be in an emaciated condition, showing they were not getting a proper quantity of nourishing food. To deal with such obstinate cases we have no option but to give in to them. Hence there has been a large increase in the number of petty works, sections being opened at several places on each road instead of starting at one end and carrying the work and the camp of relief workers right through."

The average daily number of test-workers was 1,828 against 1,678 in the week ending 24th April. The *mahua* harvest is believed to have prevented a greater increase. A considerable number of persons were employed on private works undertaken with loans given by Government. The number of kitchens increased from 19 to 26, and the average daily number receiving cooked food or dry doles in them was 3,494 against 1,006 at the end of April. The Deputy Commissioner writes: "We have gathered together all the waifs and strays, the beggars and cripples, who have always lived upon public or private charity. These we feed at the kitchens." The number employed by the Local Relief Committee on cotton-spinning and weaving increased from 689 in April to 993 in the last week of the period under report.

Lohardaga and Singhbhum.

With regard to Lohardaga it is stated that the Deputy Commissioner still finds little or no indication of actual distress, although there can be no doubt that the pressure of high prices is being increasingly felt by the poorer classes. It is reported that there was a decidedly greater demand for work than existed a month before, that applications for loans were largely made by agriculturists, that a sum of Rs. 4,000 allotted from the Charitable Fund was being quickly expended, and that a much larger sum could be made use of with great benefit in this manner. Work was provided on a road undertaken from the District Fund, and the Maharaja of Chota Nagpur employed a considerable number of labourers on a tank. There were two kitchens, opened by Relief Committees from funds subscribed locally, one at Ranchi and the other at Lohardaga, and the number being fed in them was 664.

Exports from Singhbhum are ceasing, only 1,500 maunds having been exported during the latter half of May, and the price of rice was below 8 seers in two markets, and nowhere above 10 seers per rupee. The Deputy Commissioner apprehends distress in two small areas in Porahat and the Kolhan, but full particulars have not yet been furnished to Government.

16. *Presidency Division*—Rain fell in the districts of the Presidency Division during the period under report, as shown in the appended table; and in consequence, agricultural prospects are everywhere good. But more rain was wanted in the Chuadanga subdivision of Nadia, in Jessore and in the affected parts of the district of Khulna. Prices rose except in parts of Murshidabad (where they were almost stationary), and importation generally increased. The district of the 24-Parganas continued to give no cause for anxiety. In the other districts the poorer cultivators are reported to have been badly in want of seed-grain, and steps are being taken to supply the want by means of loans under the Agriculturists' Loans Act, and by gifts from the Charitable Relief Fund. Public health was on the whole good, cholera having almost disappeared except in some parts of Khulna and Murshidabad. The condition of cattle was also satisfactory.

Nadia.

The total affected area in the district of Nadia remained unaltered, but, as indicated in the map, distress deepened in some tracts which were before slightly affected. The

general condition is thus described by the Collector :—

"The general state of the affected tract has undoubtedly deteriorated during the period under report. The only redeeming feature in the situation is that the prospects of the *aus* crop are good. On the other hand, the necessity of attending to cultivation, a form of labour which does not supply any immediate relief, has brought a large number of the poorer cultivators into the direst straits. There can be no doubt that it was only by undergoing a great amount of privation that a large number of men who would otherwise have been attending the relief works have been able to cultivate their fields. * * Both *aus* and *aman* are doing well over the greater part of the district, with the exception of portions of the Chuadanga subdivision where more rain is badly required. I estimate that the area under *aus* this year is far above the normal, but as a set off to this must be taken into consideration the fact that as a general rule the fields, owing to lack of seed, have been very thinly sown."

There were 26 relief works open against 14 in April, and the total number employed on the 29th May was 20,101 against 18,051 on the 24th April. So far the piece-work system had been introduced only on one work in this district, the rate paid being Re. 1-15 per 1,000 cubic feet, and is reported to be working fairly well. The Collector, Mr. Garrett, reports that the relief works are being carried out in an orderly and systematic manner, and that tasks are being rigidly exacted. There was a sudden and very large increase in the numbers on gratuitous relief,* the average daily number in the last week of May being 53,444 against 32,763 in the week ending 24th April. The increase attracted the Lieutenant-Governor's attention as soon as it was shown in the weekly telegraphic report, and steps were at once taken to strengthen the establishment under the Collector, with a view to the gratuitous relief lists being carefully scrutinised. Orders have also been issued for kitchens to be established, if possible, so as to feed the non-working children of relief workers on the spot, instead of giving them money to take to their parents. The Collector thinks that the disparity between the numbers on relief works and those on gratuitous relief was due to the fact that a large number of labourers had been employed on field operations, leaving their families and dependants to be gratuitously relieved by Government. The Commissioner has been directed to go to the affected areas and enquire into the matter. A few weavers are being employed on weaving cloth, and women are employed on jute-twisting and cotton spinning.

The most important feature in this district is the failure of stocks of rice mentioned in this Government's report for April. Sanction has been accorded to the grant of loans up to Rs. 70,000 to stimulate the importation of grain. The Collector of Murshidabad reports that, in consequence of the improved prospects of the crops, grain-dealers in the Rarh country (the upland of Murshidabad from which supplies were drawn for Nadia, but were recently stopped) have again commenced selling off their stocks, and it is to be hoped that some of this grain will find its way to the adjoining district of Nadia.

Khulna.

There was no change in the area of acute distress in the district of Khulna, but test-works had been opened in an additional area of about 25 square miles with a population of 11,000 in Satkhira thana. It is reported that in consequence of the rise in the price of rice the condition of the people in the distressed area changed considerably for the worse. Burma rice is now being imported and sold at 8 seers per rupee. The number of relief works (31) was the same as in April, but in May all these works were conducted on the piece-work system, at a rate of Rs. 2-4 per 1,000 cubic feet. In the latter half of April, when task-work was still in force, the average daily number of dependants in the last week of the month was 668 against 2,945, the average daily number of task-workers.

The average daily number of dependants in the week ending 26th May was 42 against 4,109, the average daily number of piece-workers in that week. The total number of relief-workers on the 26th May was 4,809 against 3,764 on the 24th April. Although the number of dependants of relief-workers is now small, the total number on gratuitous relief has increased, being 6,163 at the end

of May against 5,860, the daily average in the week ending 24th April. But this number appears to include respectable men and *parda-nashin* women relieved from the Charitable Fund, which should have been shown separately from the numbers relieved by Government. Many of those shown on gratuitous relief are employed on jute-twisting, paddy-husking, &c. Two poor-houses have been opened in this district.

Murshidabad.

The area affected in Murshidabad remained the same as before, but its general condition had improved. *Boro* paddy, grown on an estimated area of 3,000 acres in the Kandi and Jangipur subdivisions, has been harvested and is reported to have yielded a bumper crop. The Collector writes:—

"The prospects of the *bhadoi* crop are everywhere favourable. The result has been, that the mahajans who have hitherto been holding back in the hope of a further rise in prices are now disposing of their stock as rapidly as possible. Over the greater part of the district there has been a fall in the prices of rice of at least half a seer in the rupee, although in portions of the Daulatabad, Goas, Jallangi and Nowada thanas, which are far removed from the Rarh, the price of common rice is still as high as from 7¼ to 8 seers per rupee. Agricultural operations are in progress all over the district, and the number on relief and test-works have fallen off in consequence. Weeding of paddy, indigo and mulberry is giving employment to a large number of persons in the fields, while owing to the improved prospects of the cocoon crop, the cocoon-rearers, who form a large proportion of the population of the Sadar, are finding employment in their houses. Although there has been no diminution of the distress since my last report was written, but rather the reverse, future prospects are far more favourable, and it may be expected that after the end of July, when the *aus* rice will be in the market, there will be a rapid fall in prices, and the measures taken for the relief of the distress may be gradually relaxed."

"Sowing of amun has commenced in the Kandi subdivision, and in the Kalantar is nearly finished, while the sowing of the *aus* has been practically completed all over the district. In a few cases in the Nowada, Barua and Saktipur thanas I have heard of land likely to remain unsown for want of seed, not because there was any lack of seed in the district, but because the raiyats had not the means to purchase it."

Six relief works and five test-works were open against four relief works and two test-works in April. The piece-work system was introduced on the 26th May, the sanctioned rate being Re. 1-9 per 1,000 cubic feet. The total number of workers employed on the 29th May was 3,808 against 3,517 in the beginning of May. The Collector reports that the tanks undertaken by private individuals with loans given by Government will have been completed about the middle of June, and that this fact and the cessation of agricultural operations will probably result in a large increase in the number of relief workers. The number shown on gratuitous relief is 4,732, but the expenditure was met entirely from charitable funds locally raised. In this district private charity plays a most prominent part. Maharani Sarnamayi alone gives daily doles of rice to about 5,000 persons. Other private persons also are distributing doles on a smaller scale in Berhampore and elsewhere. Agricultural advances are being given at rates varying from twelve annas to one rupee per bigha.

Jessore.

The district of Jessore has hitherto been only slightly affected, and the relief found necessary has been confined to gratuitous relief from charitable funds, and to the grant of loans or gifts for the purchase of seed or cattle. In the report of the local officers for the first half of the month, it was stated that about 40 per cent. of the cultivable area of the district was then still unsown for want of seed grains. A sum of Rs. 27,057 has since been advanced under the Agriculturists' Loans Act, and Rs. 9,312 from the Charitable Relief Fund have been distributed in small gifts to the poorest class of cultivators. It is now stated that little land is left unsown, but that more rain is wanted to save the newly-sown crops which are reported to be withering. Reports of distress have been received from the Magura subdivision, and the Collector has ordered test-works to be opened there.

17. *Bhagalpur Division.*—The prices of food-grains continued to rise slowly; there was an increase in the imports by rail, but agricultural prospects were everywhere good. In Monghyr, Purnea, and Malda no relief operations except from Charitable Relief Funds were in progress; in ordinary years the Collectors of these districts find difficulty in placing loans under the Land

Improvement and Agriculturists' Loans Acts, but this year they are reported to be anxious for allotments, and it has not been found possible to give the Collectors of Monghyr and Purnea more than one-third of the amounts for which they had applied. Public health was generally good, except that sporadic cases of cholera occurred in the affected tracts in the Sonthal Parganas, and the condition of cattle was normal.

Bhagalpur.

Acute distress in Bhagalpur was, as before, confined to the north of the district, but owing to early and copious rainfall agricultural prospects are excellent, and have considerably reduced present pressure and the chances of continuance of distress for any length of time. Mung (*Phaseolus Mungo*) has been cultivated to a much greater extent than in ordinary years, and is expected to yield a bumper crop. The harvesting of this lentil, which has commenced, gives employment to large numbers of women and children, and the men are busy ploughing, digging, weeding, and transplanting for other crops. The general result has been a great decrease in the numbers in receipt of relief from Government, and the Collector hopes to be able to close all relief works in the district when the monsoon bursts. At the end of April eleven relief works were open in North Bhagalpur, and the number of workers was 18,965. In the first half of May the number of works was raised to 13, but was afterwards reduced to 10. The total number of relief workers on the 29th May was 7,313. This remarkable decrease is reported to have been due in some measure to the substitution of the piece-work for the task-work system, which took place on the 24th May; but this change was made at a time when plentiful rain and harvesting work were drawing off labourers to the fields, and as the period under report closed shortly after, the local officers have not found it possible to state definitely the results of this important administrative change. In the sadar and Banka subdivisions distress was not acute. Three test-works were open, one in the Sadar and two in the Banka subdivision, but were not largely attended. Many private relief works continued open throughout the district. Gratuitous relief from public funds was confined to North Bhagalpur. The total number in receipt of this form of relief on the 29th May was 2,740 against 3,413 at the end of April. In addition to this, large numbers were in receipt of charitable relief from private individuals, and about 19,000 persons are stated to have been relieved in North and South Bhagalpur from the funds of the Indian Famine Charitable Relief Fund. It is reported from the Banka subdivision that the demand for loans was very great, and that the petty cultivators were without the means to purchase seed.

Sonthal Parganas.

Acute distress was felt in the Deoghur subdivision of the Sonthal Parganas; test-works were opened in the latter end of February, but were not then attended. The winter rice and Indian-corn crops had been bought and exported up-country, but the people were subsisting on the mahua crop, which yielded about 10 annas. In May, the exhaustion of this source of food-supply, combined with the high prices, drove the poorer people to seek relief, and sanction has recently been accorded to the opening of relief works. The whole of the subdivision, comprising 954 square miles with a population of 284,115, is reported to be effected, and the local officers estimate that relief will have to be given to about 8,710 persons, but that the intensity of distress is not likely to continue long.

The addition of the Deoghur subdivision has brought the total area now affected in the Sonthal Parganas to 1,321 square miles with a total population of 377,115 persons. Sugarcane, the only standing crop in the affected area, has been benefited by the general rain, which has enabled cultivation for other crops to be commenced. As in April, five relief works were open in the Jamtara subdivision, on one of which the piece-works system has been introduced; and in the Deoghur subdivision there were 11 relief works, all conducted on the piece-work system. But the local officers, as in the district of Bhagalpur, have not yet found it possible to report specially on the results of this system, as desired by Government, nor have they furnished figures for the same period for both subdivisions. The arrangements in the Deoghur subdivision were not complete at the date of report. The total number on the relief works in the Jamtara subdivision is stated, for the 21st May, to have been 3,232; while in the Deoghur

subdivision the number of relief workers for the whole fortnight is shown at 3,622, which gives a daily average of 258. Private relief works continued to afford employment to a considerable number in the Jamtara subdivision. The number on gratuitous relief in this subdivision on the 21st May was 689, against 1,046 on the 24th April. A kitchen was opened at Jamtara for the aged and children. From the Jamtara and Deoghar subdivisions, as well as from the rest of the district, where there is as yet no such distress as to require relief measures on an extensive scale, it is reported that many raiyats have consumed their seed-grain and sold their cattle. Rupees two thousand have been granted from public funds for agricultural loans in the Jamtara subdivision, and two thousand more from the Charitable Relief Fund.

18. *Rajshahi Division.*—There was copious rain in both the affected districts of this Division, Rajshahi and Pabna. In Rajshahi the outturn of the *boro* or spring paddy, which occupied a total area of 116,600 acres or about 182 square miles, is estimated at 16 annas; and the present prospects of the *aus* or autumn paddy, which has this year been sown in a larger area than usual, are reported to be excellent. The numbers employed on the two test-works in this district fell off considerably, the average daily number employed in the last week of May being 438 against 781 at the end of April, and the Collector has issued orders for one of the works to be closed. The people find more remunerative employment in the fields and on private works, and the Commissioner thinks that although the prevalence of famine prices must continue to cause some distress requiring charitable relief, the district of Rajshahi may now be classed as distinctly outside the famine line. In Pabna agricultural prospects are reported to be good, but there has been a marked rise in the price of common rice which in some places sold at six seers the rupee although imports are increasing. Another important feature of the period under report is that from the middle of the month women began to come to the test works, although many native gentlemen had assured the Collector that no pinch would induce females of this district to come to a Government relief work. The public health and the condition of cattle were generally good.

19. *Orissa Division.*—

Puri.

The affected area in the district of Puri is now shown at 365 square miles with a population of 102,000, but a further report on this matter has been called for from the local officers. There was very little rain throughout the period under report, but on the 30th May a heavy shower fell in Malud, Parikud and Satpara, and replenished the supply of water which had commenced to fail; the cultivation and sowing of rice is reported to be going on briskly. Food-stocks have been kept up by importation which, as previously reported, is aided by advances to the grain-dealers given from public funds. There were fifteen relief works and five test-works open as in April, and the number employed on them on the 29th May was 4,604 (exclusive of figures for the Khurda subdivision, which have not been received) against 2,874 on the 24th April. Besides this, the ordinary District Board road under construction in the affected area employed a daily average number of 460 persons, and a considerable number of labourers continued to find employment on the work carried on by the Raja of Parikud. Gratuitous relief in this district is given from certain funds raised by public subscriptions before the present scarcity. There was an outbreak of cholera in an epidemic form and of small-pox in certain parts of the affected area. The condition of cattle was generally good. Loans under the Agriculturists' Loans Act are in great request in this district as elsewhere.

As regards the other districts of Orissa, the condition of Balasore and Angul continued satisfactory, while in Cuttack there were only isolated cases of distress requiring gratuitous relief, and it is reported that the total number in receipt of this form of relief in the district at the end of May was 2,306. The rainfall in Cuttack was, however, much below the normal, and much *beali* or autumn rice sown in anticipation of rain was, at the date of the report, beginning to wither.

20. *Burdwan Division.*—In the district of Bankura, the prevailing high prices, combined with the partial failure of the last season's crops, caused distress in thana Gangajalghati and the northern part of thana Sonamukhi.

The total affected area is reported to be 400 square miles with a population of 178,000. The last rice crop in this area was an almost total failure, the outturn being estimated at 4 annas in Gangajalghati and at not more than one or two annas in the affected portion of Sonamukhi; the crop of 1895 was also poor. Towards the middle of May the price of common rice rose to 8 seers in Gangajalghati and 9 seers in Sonamukhi. The latest report shows the average price of rice at 9 seers. The Collector reports that he has himself seen persons in the Gangajalghati area who showed signs of suffering from insufficient food. The classes in need of relief are reported to be—

(*a*) the respectable poor, mostly widows, who usually live on the charity of their friends;

(*b*) orphans;

(*c*) sick and disabled poor persons who usually live by begging;

(*d*) small cultivators.

The number of lepers in this district is large. The resources of private charity have failed, and these lepers, with such members of their families as are unable to work, have to be relieved gratuitously; the local officers are of opinion that while the labourers will probably obtain ordinary employment when the monsoon sets in, gratuitous relief will rather increase than diminish until September. Test works were started on the 19th May; nine were open at the close of the period under report, and the number of labourers employed on them on the 31st May was 8,689. Arrangements have also been made for the distribution of gratuitous relief, and the total number in receipt of this form of relief on the 31st May was 3,521. In addition to this 582 persons were relieved from the Charitable Relief Fund.

Heavy showers of rain fell over the greater part of the affected area, benefiting the sugarcane, which is a crop of some importance in this district, and enabling the sowing of rice to commence. There is a great demand for loans for seed and cattle: funds for the purpose have been placed by Government at the Collector's disposal, and gifts are being given from the Charitable Relief Fund to distressed cultivators who are unable to furnish adequate security for loans. Public health was fair, and the condition of cattle normal.

21. *Dacca and Chittagong Divisions.*—There is nothing of importance to report with regard to the Dacca and Chittagong Divisions. The stress of high prices is felt by the very poor and by some of the more respectable classes in these divisions as elsewhere, but no necessity for opening Government relief works has been reported. Such aid as is required is being given from the charitable relief funds and by private individuals.

Imports.—During the week under report the imports of rice amounted to 169,185 cwts. against only 28,271 cwts. in the corresponding week of 1896. The amount that came from Burma was 104,392 cwts., and that coming from the Straits Settlements 19,769 cwts., against nil in the corresponding period of last year. The imports from Chandbali rose from 21,212 cwts. to 36,054 cwts., and those from Balasore showed a small increase of 1,498 cwts. in comparison with the corresponding period of last year. The fluctuations in the total imports of paddy and gram and pulses are slight, but a large quantity of miscellaneous food-grains (14,000 cwts.) was received from the United Kingdom against *nil* in the corresponding week of 1896.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the week ending 21st June 1897 is compared with the figures for the corresponding period of 1896 :—

Foreign Ports.

The foregoing figures show a decrease of 71·91 per cent. in the exports of rice to foreign ports, viz., from 161,307 cwts. to 45,298 cwts. The quantity shipped for Trinidad amounted to 27,970 cwts. against nil in the same period of last year. Nothing was sent to Mauritius, to States in Arabia other than Muscat, to Natal, to Abyssinia, or to Cape Colony, whereas the exports to these places in the third week of June 1896 aggregated 88,262 cwts. The United Kingdom, Aden, Ceylon, Muscat and Persia received altogether 17,319 cwts. against 72,971 cwts. in the same period of last year. Under gram and pulses, Mauritius imported *nil* against 12,851 cwts. in the corresponding week of last year, while the consignments to the United Kingdom fell off from 2,706 cwts. to merely 660 cwts. Mauritius also received no miscellaneous food-grains during the period under report against 5,917 cwts. imported in the corresponding week of 1896.

Indian Ports.

As regards Indian ports, the chief fluctuations appear in the exports to Bombay, which is credited with only 2,087 cwts. of rice against 5,376 cwts. in the third week of June 1896, while in the case of gram and pulses, Bombay received merely 213 cwts. during the period under review as against 1,545 cwts. in the corresponding week of last year.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

STATISTICS OF THE SEA-BORNE TRAFFIC OF THE MINOR PORTS IN BENGAL IN FOOD-GRAINS.

No. 1559 Statistics.—The following memorandum and statements are published for general information.

STATISTICAL DEPT.,
The 6th July 1897.

M. FINUCANE,
Secy. to the Govt. of Bengal.

Memorandum.

THE comparative statements below give statistics of the import and export trade of the minor ports of Chittagong, Narayanganj, Balasore (including both Balasore and Chandbali), Cuttack and Puri during the week ending 7th June 1897, as compared with the trade of the corresponding period of 1896 :—

Imports. The rise of 6,044 cwts. in the import trade of Chittagong and of 4,062 cwts. in that of Narayanganj was mainly due to larger receipts of rice and paddy from Burma and Chittagong respectively. Balasore also showed an improvement of 372 cwts.

Exports. The increase of 2,767 cwts. in the export trade of Chittagong is due to the despatch of 2,759 cwts. of rice to Narayanganj against nil in the corresponding week of 1896; on account of smaller consignments of rice, paddy and grain and pulses to Calcutta, Balasore exhibits a falling off of 23,162 cwts. In consequence of larger shipments of rice to Foreign Ports, the trade of Cuttack, however, improved by 13,233 cwts.

Returns not received.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·5° higher; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; ∽ dew.

IRRIGATION DEPARTMENT.

[Third Publication.]

The 29th June 1897.

No. 176—Notification.—In exercise of the powers conferred on him by sections XI and XII of Act V (B.C.) of 1864 (The Canals Act), the Lieutenant-Governor of Bengal proposes to pass the following rules in regard to the line of channel connecting the Kurnafuli and the Chandkhali rivers, known in its various parts as Sikalbaha and Murali khals, in the district of Chittagong.

A. D. MCARTHUR, *Colonel*, R.E.,
Secy. to the Govt. of Bengal.

1. Every vessel on entering the above channel shall be liable to measurement by the officer in charge of the toll station for the purpose of ascertaining the amount of toll to be paid.

2. The tonnage of every vessel, whether laden or empty, shall, for the purposes of the *Canals Act* and of these rules, be determined by the following measurements :—

(*a*) The product of half the length of the vessel from stem to stern measured along the water line, multiplied by the interior greatest breath of the vessel, multiplied by the depth from the water line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 50 maunds is to be omitted; and a fraction exceeding 50 maunds is to be charged as 50 maunds only.

3. No raft will be admitted into the channel in excess of 50 feet in length or 5 feet in breadth. No timber, bamboos or grass will be admitted except securely and compactly packed in the form of a raft.

4. Every vessel entering the channel shall be furnished with a ticket on paying the prescribed toll. The ticket will specify the date of entry, the maundage of the vessel and the amount of toll paid.

5. No vessels whatever except such as are employed on works connected with the maintenance or improvement of the channel shall be exempted from paying toll.

6. Every vessel or raft which has paid toll shall be allowed three days to pass through the channel, the days of entering and leaving being both included, and any vessel or raft remaining in any part of the channel longer than the period above fixed shall, for each day in excess of such period, be charged demurrage equal to one-half of the toll paid. Every vessel or raft remaining in the channel more than one month without authority from the Supervisor shall be subject to be summarily removed.

7. Any person infringing any of the above rules, or wilfully interfering in their enforcement, shall be liable, under section XI of the Canals Act, to a fine not exceeding fifty rupees for any one offence.

RAILWAY DEPARTMENT.

The 13th July 1897.

No. 112.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for Kanji Monji Selected Coal Company's siding at mile 174½, Damuda Branch of the Jheria Extension, East Indian Railway, in the villages of Gopalichuk, Bhuggutdih and Jheria, pargana Jheria, zilla Manbhum, it is hereby declared that for the above purpose a piece of land measuring, more or less, 38 bighas 18 cottahs 10·16 chitaks of standard measurement (corresponding to 12 acres 3 roods 19·20 poles), bounded by a nick on the ground, is required within the aforesaid villages of Gopalichuk Bhuggutdih and Jheria.

Mines of coal, iron-stone, slate or other minerals lying under the land, or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the siding, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

JUDICIAL.

No. 750.—The following draft of certain rules, which it is proposed to make for all cantonments in British India in exercise of the powers conferred by sections 26 and 27 of the Cantonments Act, 1889 (XIII of 1889), in supersession of the rules published in G. G. O. No. 460, dated 3rd May 1895, is, as required by section 27 of that Act, hereby published for the information of persons likely to be affected thereby, and notice is given that the draft will be taken into consideration on or after the 10th day of August 1897.

Any objection or suggestion which may be received from any person with respect to the draft before the date fixed as aforesaid, will be taken into consideration by the Governor-General in Council.

DRAFT RULES.

Definitions.

1. In these rules,—

(*a*) the expression "bazar" means any land set apart for occupation by natives of India, except the lines of native troops;

(*b*) the expression "regimental bazar" means any bazar under the management of regimental authorities;

(*c*) the expression "infectious or contagious disorder" includes cholera, leprosy, enteric fever, venereal disease and every infectious or contagious disorder;

(*d*) the expression "owner" includes the person for the time being receiving the rent of lands and buildings, or either of them, whether on his own account or as agent or trustee for any person or society or for any religious or charitable purpose, or who would so receive the same if the land or building were let to a tenant; and

(*e*) the expression "street" includes any way, road, lane, square, court, alley, passage or open space, whether a thoroughfare or not and whether built upon or not, over which the public have a right of way, and also the roadway and footway over any public bridge or causeway.

Information to be given of existence of infectious or contagious disorder.

2. Whoever,—

(*a*) being a medical practitioner, in the course of practice, becomes cognizant of the existence of any infectious or contagious disorder in any dwelling, other than a public hospital or dispensary, in the cantonment, or, in default of such medical practitioner,

(*b*) being the owner or occupier of such dwelling, is cognizant of the existence of any infectious or contagious disorder therein, or, in default of such owner or occupier,

(*c*) being the person in charge of, or in attendance on, any person suffering from any infectious or contagious disorder in such dwelling, is cognizant of the existence of such disorder therein,

shall be bound to give information to the Cantonment Authority respecting the existence of such disorder:

Provided that a person not required to give information in the first instance, but only in default of some other person, shall not be held to be bound to give information under this rule if it is shown that he had reasonable cause to suppose that the information had been, or would be, duly given.

Hospitals or dispensaries.

3. (*1*) So far as the funds at its disposal permit, the Cantonment Authority may—

(*a*) provide and maintain, either within or without the cantonment, as many hospitals or dispensaries as may be necessary; or

(*b*) make upon such terms as it thinks fit to impose, a grant-in-aid to any hospital or dispensary, whether within or without the cantonment, not maintained by it.

(*2*) Every hospital or dispensary maintained or aided under this rule shall have attached to it a ward or wards for the treatment of persons suffering from infectious or contagious disorders.

Medical officer to be in charge of hospital or dispensary.

4. A medical officer to be appointed in such manner as the Local Government may direct, shall be in charge of every hospital or dispensary maintained or aided under rule 3.

5. Subject to the control over the Cantonment Fund which is vested in the Local Government by section 23 of the Cantonments Act, 1889, there shall be appointed, for every hospital or dispensary maintained or aided under rule 3, such subordinate establishment as may be necessary. XIII of 1889.

Subordinate establishments for hospitals or dispensaries.

6. So far as the funds at its disposal permit, the Cantonment Authority shall cause every hospital or dispensary maintained or aided under rule 3 to be provided with—

Medical supplies, appliances, etc.

(*a*) all necessary drugs, instruments, apparatus, furniture and appliances;
(*b*) sufficient cots, bedding and clothing for in-patients; and
(*c*) such further requisites as may be necessary.

7. Every hospital or dispensary maintained or aided under rule 3 shall be maintained in accordance with the rules made generally or specially by the Governor-General in Council, or the Local Government for the conduct of hospitals and dispensaries, or in accordance with the said rules modified in such manner as the Governor-General in Council or the Local Government may think proper.

Application of civil hospital rules.

8. At every hospital or dispensary maintained or aided under rule 3, the sick poor of the cantonment, persons in the cantonment suffering from infectious or contagious disorders and, with the sanction of the Cantonment Authority, any other sick persons may receive medical treatment free of cost, and, if treated as in-patients, shall be either dieted gratuitously or, should the medical officer in charge so direct, granted subsistence allowance on a scale to be determined by the Cantonment Authority:

Free patients.

Provided that the subsistence allowance granted as aforesaid shall not be less than the lowest allowance for the time being fixed for the subsistence of judgment-debtors by the Local Government under section 338 of the Code of Civil Procedure. XIV of 1882.

9. Any sick person who is ineligible under the last foregoing rule to receive medical treatment free of cost in any hospital or dispensary maintained or aided under rule 3, may, upon such terms as the Cantonment Authority thinks fit to impose, be admitted to treatment in such hospital or dispensary.

Paying patients.

10. If the medical officer in charge of a hospital or dispensary maintained or aided under rule 3, has *primâ facie* grounds for believing that any person living in the cantonment is suffering from an infectious or contagious disorder, he may, by notice in writing in the form set forth in the schedule or in any similar form, call upon such person to attend at the hospital or dispensary at a time to be specified in the notice, and not to quit it without the permission of the medical officer in charge unless and until such medical officer is satisfied, by examination, if necessary, that such person is not in fact suffering, or is no longer suffering from such disorder:

Power to call upon person suffering from infectious or contagious disorder to attend and remain in the hospital or dispensary.

Provided that, if, having regard to the nature of the disorder, or the condition of the person suffering therefrom, or the general environment and circumstances of such person, the medical officer considers the attendance of such person at the hospital or dispensary inexpedient, he may dispense with such attendance and take such measures or give such directions as to him seem fit and proper.

11. If the medical officer in charge of a hospital or dispensary maintained or aided under rule 3 reports in writing to the Commanding Officer of the cantonment that any person having received a notice as provided in rule 10 has refused or omitted to attend at the hospital or dispensary, or that such person having attended at the hospital or dispensary, has quitted it without the permission of such medical officer, the Commanding Officer may, if he thinks it expedient, by order in writing, direct such person to remove from the cantonment within twenty-four hours and prohibit such person from remaining longer in, or re-entering, it without his written permission.

Power to exclude from cantonment.

12. The Cantonment Authority may, by notice in writing, prohibit—

Removal of brothels or prostitutes.

(*a*) the keeping of a brothel, or
(*b*) the residence of a public prostitute in the cantonment or in any specified part thereof.

13. No public prostitute shall be permitted to reside within the limits of any regimental bazar situate in the cantonment.

Exclusion of public prostitutes from regimental bazars.

14. No person shall, in any street or public place within the limits of the cantonment, loiter for the purpose of prostitution or importune any person to the commission of sexual immorality:

Loitering or importuning for sexual immorality prohibited.

Provided that no person shall be charged with a breach of this rule except on the complaint of the person importuned or of a member of the British military police-force employed

in the cantonment and specially authorized in this behalf by the Commanding Officer of the cantonment, or of an officer as defined in the Cantonments Act, 1889. XIII of 18

Penalties.

15. (1) Whoever, being bound by rule 2 to give information to the Cantonment Authority respecting the existence of an infectious or contagious disorder, fails to give information or gives false information, shall be punishable with fine which may extend to fifty rupees.

Penalties.

(2) Whoever,—

(*a*) having, under rule 11, been prohibited from remaining in, or re-entering, the cantonment, remains in or re-enters it without the written permission of the Commanding Officer; or

(*b*) fails to comply with a notice under rule 12; or

(*c*) commits a breach of rule 14;

shall be punishable with fine, which may extend to fifty rupees, or with imprisonment for a term which may extend to eight days.

16. Any member of the police-force employed in the cantonment may arrest without a warrant, any person committing, or charged with having committed, an offence punishable under clause (2) (*a*) or clause (2) (*c*) of the last foregoing rule:

Arrest without warrant.

Provided as follows:—

(*i*) no person shall be so arrested whose name and address are known to either the complainant or the arresting officer;

(*ii*) no person shall be so arrested who consents to give his or her name and address, unless there is reasonable ground for doubting the accuracy of the name or address so given, the burden of proof of which shall be on the arresting officer;

(*iii*) no person so arrested shall be detained after his or her name and address have been ascertained;

(*iv*) no person so arrested shall, except under the order of a Magistrate, be detained longer than may be necessary for bringing him or her before a Magistrate; and

(*v*) no person shall be so arrested for a breach of rule 14 except—

(*a*) at the request of the person importuned or of an officer as defined in the Cantonments Act, 1889, in whose presence the breach was committed; or XII

(*b*) by, or at the request of, a member of the British military police-force employed in the cantonment and specially authorised in this behalf by the Commanding Officer of the cantonment, in whose presence the breach was committed.

FUND OFFICE, No. 15, Kyd Street, Calcutta, the 2nd June 1897.

(375—1)

REVISED BYE-LAWS.

1. Every new cow-house, cattle-shed and stable constructed on a new site, and every extension of an existing cow-house, cattle-shed and stable to a new site, shall be a detached building, and not within 15 feet of any other inhabited building, and shall be provided with a paved passage behind the manger at least 2 feet in width.

2. Before beginning to build, the sanction of the Commissioners shall be obtained, and with the application a plan of the premises and sections of the building in which it is proposed to carry on the business shall be sent in for approval, and the plan shall show the provision made or proposed to be made for the drainage, lighting, ventilation and water-supply of the same, and shall also furnish a site plan of the locality showing the buildings and streets within 40 feet of the premises.

3. Every cow-house, cattle-shed and stable or building in which an animal is kept shall be subject to section, 335, and be properly lighted and ventilated by the owner to the satisfaction of the Commissioners.

4. Every cow-house, cattle-shed, stable or building, etc., shall be well paved by the owner with asphalte, iron stone or bricks-on-edge with cement-pointing, flag-stones set in cement, or other suitable impermeable material and shall have a channel or gutter sloping towards a gully or cess-pool which shall be situated outside the shed.

5. Every cow-shed, etc., shall be provided by the owner with an adequate supply of filtered water. If a cistern is used, it shall be situated outside the shed, and its waste-pipe shall terminate in the open air and be cu off from all direct communication with the drains.

6. No wells shall be allowed on the cow-shed premises.

7. Every shed shall be provided on the outside but protected from the rain with an iron bin or other suitable receptacle for keeping dung or other refuse. All cow-dung retained for the preparation of cakes shall be kept in this receptacle, and not allowed to accumulate on the ground.

8. Every person occupying a cow-shed shall keep in it only such number of cows as shall be specified in his license. The space for each cow shall not be less than 500 cubic feet in the case of country cows, and 600 cubic feet for cows imported from the North-Western Provinces and other places, and for buffaloes. In all cases the actual measurements of the sheds shall be taken as the basis of calculation for cubic space; provided that no height of the shed in excess of 15 feet shall be taken into account in estimating the cubic space. The stalls for single cows shall not be less than 4 feet in width, and a double stall for cows shall not be less than 7 feet 6 inches in width. The stall-partitions, if any, shall not extend in front line of the manger and shall leave a clear open space above the manger.

9. Every shed shall be kept clean to the satisfaction of the Commissioners.

10. Every cow-shed, etc., shall be thoroughly flushed and cleansed twice a day; the first time before 7 A.M. each day.

11. Every person occupying a cow-shed shall cause all dung manure to be removed daily in a properly constructed vehicle before 7 A.M.

N. B.—A person who has paid his trade-refuse fees shall be held to have discharged his liability under this bye-law.

12. No person occupying a cow-shed shall allow it to be used for any purpose other than that for which it is licensed, or shall keep or permit to be kept therein any fowl or any pig.

13. Every person occupying a cow-shed shall give notice in writing within 24 hours to the Inspector of the ward in which the cow-house, etc., is situated of the existence of any contagious or infectious or dangerous disease amongst his cows.

14. These bye-laws shall not, except in special cases, apply to any cow-house in which less than five cows are kept without the express orders of the Commissioners.

15. Every license-holder shall be bound to keep hung up in a conspicuous place in his cow-shed such license and to show it to any legally authorized person requiring its production.

Rule 16.—"Every person occupying a cow-shed shall give notice in writing within 24 hours to the Inspector of the ward in which the cow-house, etc., is situated of the existence of any contagious or infectious or dangerous disease amongst his cows, and shall destroy or allow to be destroyed all milk in his cow-shed which there shall be reason to think has been liable to contamination. The Inspector of the ward, on receiving information of the existence of any contagious or infectious disease in any cow-house, shall give intimation of the fact to the Police Inspector of the section for the purpose of segregating the diseased animals; it shall be the duty of the person occupying the cow-shed to get the cow-house cleansed, disinfected and lime-washed."

Rule 17.—"No person suffering from any loathsome, contagious or infectious disease shall live in or enter any cow-house in which milch cows or milch buffaloes are kept or shall take any part in the conduct of the trade or business of cow-keeper or purveyor of milk; and every person affected with such disease in any cow-house shall remove or shall be removed immediately therefrom, and the part of the cow-house in which the sick person shall have been shall be thoroughly cleansed, disinfected and lime-washed."

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one or the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876 :—

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 1st July, 1897:

NO. 9 OF 1897.

A Bill to Facilitate the citation of certain Acts.

WHEREAS it is expedient to facilitate the citation of certain Acts; It is hereby enacted as follows:

Title and commencement.

1. (*1*) This Act may be called the Indian Short Titles Act, 1897; and

(*2*) It shall come into force at once.

Citation of Acts described in schedule.

2. Each of the Acts described in the first three columns of the schedule may, without prejudice to any other mode of citation, be cited for all purposes by the short title mentioned in that behalf in the fourth column thereof.

[*Cf.* 59 & 60 Vict., c. 14, s. 1; V of 1897, s. 4.]

STATEMENT OF OBJECTS AND REASONS.

IT is convenient and in accordance with the present practice in England that every Act should be capable of being cited by means of a short title. This Bill has accordingly been drawn on the lines of the Short Titles Act, 1896 (59 & 60 Vict., c. 14), with the object of furnishing with such titles those general Acts of the Governor General in Council which are now deficient in this respect. A new edition of the general Acts is now in preparation, and with these Acts alone the present measure is concerned, all others being left to be dealt with hereafter when new editions of the local Codes are taken in hand.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 1st July, 1897 :

NO. 10 OF 1897.

A Bill to further amend the Court-fees Act, 1870.

WHEREAS it is expedient to further amend the Court-fees Act, 1870; It is hereby enacted as follows :

70. Short title and commencement.

1. (*1*) This Act may be called the Court-fees Act (1870) Amendment Act, 1897 ; and

(*2*) It shall come into force at once.

Addition of two new sections after section 19-G, Act VII, 1870.

2. After section 19-G of the Court-fees Act, 1870, the following sections shall be added, namely :

Power for Chief Revenue-officer of district to inspect records and prove under-valuation of estate.

"19-H. (*1*) The Chief Revenue-officer of the district may at any time inspect, or cause to be inspected, the record of any case in which application for probate or letters of administration has been made to a Court within his district, and if, on such inspection or otherwise, he is of opinion that the petitioner has underestimated the value of the estate of the deceased, he may require the Court before which such application is pending, to hold an inquiry into the true value of the estate.

(*2*) Every Court, when so required as aforesaid, shall hold an inquiry accordingly, and shall record a finding as to the true value, as near as may be, at which the estate of the deceased should have been estimated.

(*3*) For the purposes of any such inquiry the Court may examine the petitioner for probate or letters of administration on oath (whether in person or by commission), and may take such further evidence as may be produced before it, either by such Revenue-officer or by such petitioner, to prove the true value of the estate."

Mode of collecting Court-fees on probates or letters of administration.

"19-J. (*1*) Every application for probate or letters of administration must be accompanied by a deposit of a sum equal to the fee chargeable under this Act in respect of probate or letters of administration.

(*2*) If the application is allowed, the sum deposited under sub-section (*1*) shall be expended, under the direction of the Court, in the purchase of the stamp to be used for denoting the fee chargeable as aforesaid.

(*3*) Any sum deposited under sub-section (*1*) and not expended under sub-section (*2*) shall be refunded to the depositor."

STATEMENT OF OBJECTS AND REASONS.

Under Act VII of 1870, a certain percentage is leviable by way of court-fee on the value, as estimated by the petitioner, of an estate in respect of which a grant of probate or letters of administration is made. Chapter III-A of the same Act, as amended by Acts XIII of 1875 and VIII of 1890, makes provision for a refund where the petitioner pays what turns out to be too high a fee, and also, in the converse case of his paying at the time of his application for probate or letters of administration a fee calculated on too low an estimate of the assets likely to come to his hands, for the subsequent levy of the difference between what he has actually paid and what he ought to have paid.

2. There is, however, no means provided by which the Revenue Officers of Government can check the sufficiency of a petitioner's valuation, and it is proposed by this Bill to remove what experience has shown to be a defect in the law of some practical importance, by adding to the Court-fees Act, 1870 (VII of 1870), a section enabling the Chief Revenue Officer of the district to inspect the records of any case in which application for probate or letters of administration has been made, and to prove in court any undervaluation of the estate concerned.

3. It is further proposed to insert in the same Act a provision similar to that contained in section 14 of the Succession Certificate Act, 1889 (VII of 1889), so as to secure, at the time of application for probate or letters of administration, the payment of the fee chargeable in respect of the subsequent grant thereof. As the law now stands, the duty is payable, not on the application for, but on the grant of, probate or letters of administration. A person to whom sections 187 and 190 of the Indian Succession Act, 1865 (X of 1865), do not apply and who is not bound to produce probate or letters of administration to establish his rights in succession may attain all that he desires by merely obtaining on his application an order for the grant of probate or letters of administration, without actually taking out, and paying the fees prescribed for, the probate or letters of administration applied for. This result cannot, obviously, have been contemplated, and the latter part of clause 2 of the Bill is intended to guard against it.

The 26th June, 1897.

J. WOODBURN.

Secretary to the Government of India.

Ocean Ranger reef.

THE following Notice to Mariners (No. 310 of 1897) issued by the British Admiralty is republished :—

With reference to Notice to Mariners, No. 110 of 1892, on a dangerous reef reported by the Master of the barquentine *Ocean Ranger*, situated in lat. 18° 44′ S., long. 157° 2′ E., and on which the sea was observed to break heavily :—

H.M. Surveying-vessel *Penguin* searched for this supposed danger in 1894, and discovered a bank of from 800 to 1,000 fathoms in depth situated between the parallels of 18° 48′ and 19° 5′ South latitude, and the meridians of 156° 40′ and 157° 3′ East longtitude, and with depths of from 1,500 to 1,800 fathoms around, but no shallower soundings could be obtained.

During the search, and whilst obtaining a sounding of 1,713 fathoms, a considerable tide rip was observed extending about 3 miles in a north and south direction, which might have been mistaken for breakers, and some such phenomenon probably was the origin of the report made by the Master of the *Ocean Ranger*.

In order to further investigate the matter, some inquiries respecting the original report were addressed to the Master of the *Ocean Ranger* through the Marine Department at Wellington, New Zealand, but a reply has been received that Mr. Goodman, the Master of the vessel in 1892, has died, and that the log books cannot be found.

Viewing all the circumstances of the case, and considering that such a tide rip as seen from the *Penguin* may have been reported as a danger by the *Ocean Ranger*, and further, that no soundings were taken or other attempt made to verify the existence of this supposed danger, it is considered not to exist, and has, consequently, been expunged from the Admiralty charts.

THE British Admiralty has given notice (No. 279 of 1897) that, on 20th April 1897, a light would be exhibited from a lighthouse recently erected on Nagasaki bana, western coast of Naga Sima :—

Nagasaki bana light is a fourth order, *flashing white* light *every ten seconds*, elevated 81 feet above the sea and visible from N. 30° W., through north and east, to S. 14° E. (an arc of 196), a distance of 15 miles in clear weather.

The lighthouse, 41 feet high, constructed of iron, and hexagonal in section, is painted white.

Approximate position, lat. 32° 7′ 30″ N., long. 130° 6′ 10″ E.

Also, that, on the same date, a light would be exhibited from a lighthouse recently erected on the north-east point of To sima, Nagasima strait :—

To sima light is a sixth order, *fixed white* light, elevated 152 feet above the sea, and visible from S. 14° E., through south and west, to N. 36° E. (an arc of 230°), a distance of 8 miles in clear weather.

The lighthouse, 15 feet high, constructed of masonry, and cylindrical in shape, is painted white.

Approximate position, lat. 32° 12′ 0″ N., long. 130° 4′ 30″ E.

(*2*) *Hachiman Seto—Light on Kamimate Jima.*

Also; that, on the same date, a light would be exhibited from a lighthouse recently erected on Kamimate jima :—

Kamimate jima light is a *fixed white* light, elevated 60 feet above the sea, and visible in clear weather from a distance of 6 miles.

The lighthouse, 16 feet high, constructed of masonry, and cylindrical in shape, is painted white.

Approximate position, lat. 32° 15′ 45° N., long. 130° 8′ 50″ E.

As this light is not constantly watched, it should not be implicitly relied upon.

RESOLUTION ON THE ANNUAL REPORT ON LUNATIC ASYLUMS IN BENGAL FOR THE YEAR 1896.

MUNICIPAL DEPARTMENT.—MEDICAL.

Calcutta, the 12th July 1897.

RESOLUTION—No. 3601Medl.

READ—

The Report on the Lunatic Asylums in Bengal for the year 1896.

READ also—

The Report for the year 1895 and the Resolution recorded thereon by Government.

The Report should have reached Government on the 1st May, but it was not received until the 14th June. Surgeon-Colonel Newman only took over charge of the duties of Inspector-General of Civil Hospitals on 30th March, and therefore had no personal experience of the work reported on.

2. The chief facts relating to the patients in the five native asylums during the past two years are summarized in the following statement:—

			1895.	1896.

	Total	...	186	184
Remaining on 31st December	...	...	921	918

3. There was a slight increase in the number of admissions at Patna, Cuttack and Berhampore, and a falling off of 12 and 11 respectively at Dullunda and Dacca, the total number of admissions being 156 against 162 in the previous year. At Dullunda it is stated that several female patients could not be admitted for want of sufficient accommodation. Re-admissions numbered 25, a rise of 3, Dullunda heading the list with 12: twelve were of persons who returned to the asylums after trial, nine were cases of relapse, and four were sent back after having been made over to their friends. Of the 181 lunatics admitted and re-admitted during the year, 104 were criminal and 77 non-criminal, the figures in the preceding year being 102 and 82, respectively. The number of criminal lunatics remaining on 31st December was 477, against 470 in 1895, giving a proportion to non-criminals of 51·96 against 51·03. Of these, 191 had been tried and acquitted on the ground of insanity, 260 were detained because incapable of making a defence, and 26 were persons who had been imprisoned for an offence, had become insane while in jail, and had been transferred to an asylum. The numbers for these three classes in 1895 were 185, 255 and 30.

4. The number of discharges fell from 111 to 94. Patna shows a rise of 6, owing to a larger number of patients having been made over to their friends, but at Dacca and Dullunda there was a decrease of 16 and 10 respectively. At Dacca, it is stated, there were fewer recoveries, while at Dullunda the decrease seems to have been chiefly due to the fact that all the females remaining from the year before were unfit for release, and that many residents of other provinces were admitted whose relatives could not be found. During the year there were only 61 recoveries in the 5 asylums, against 81 in the preceding year.

5. Dr. Newman reports that the accommodation available was everywhere more than sufficient, and the figures show that 757 was the largest number confined on any one night, while the asylums are calculated to be able to contain 1,137, allowing 50 superficial square feet for each patient. The Superintendent of the Dullunda Asylum indeed complained of inadequate accommodation for females, but since the close of the year measures have been taken to relieve the overcrowding in this asylum by transferring patients who come from other provinces to asylums situated within those provinces.

6. Statements VI and VII have been revised and simplified in accordance with the orders of the Government of India received last year. In the former are shown the types, and in the latter the alleged causes, of insanity. Of a total of 181 admissions, 104 are classified under mania, 28 under melancholia, and the remainder under various other types; 60 are ascribed to physical causes, 27 to moral, and 94 to "causes unknown." Of the 60 cases attributed to physical causes, 20 cases are entered as due to ganja, 6 to spirit drinking, 1 to excessive study, 14 to heredity, and 19 to other causes. Not a single case was ascertained to have been brought on by the use of charas, bhang or opium. Although the number of cases ascribed to indulgence in ganja has fallen from 40 in 1894 to 20 in the past year, there is still a tendency to exaggerate the frequency of this cause, and much care has been taken in every asylum to test the descriptive roll and avoid a mistaken diagnosis on this point.

7. The number of admissions to hospital during the year decreased from 954 to 898, but the average daily number of sick rose from 58·81 to 84·64. At Dullunda there were 122 fewer admissions to hospital, which was due chiefly to the prophylactic measures introduced, the periodical weighment of the patients, and the formation of an "infirm gang," the members of which received medicines and extra diet without being admitted to hospital. There were three cases of cholera at Dullunda and two at Berhampore during the year, the disease being prevalent in the neighbourhood in both instances. At the former asylum 161 lunatics were inoculated by M. Haffkine early in May, as cholera at that time threatened to become epidemic. The mortality during the year was higher than in any of the past ten years, the number of deaths rising from 73 to 90, and the death-rate from 8·15 to 9·84. This death-rate is lower than that shown by Madras, the Panjab and Rangoon for 1895, but higher than that of Bombay and the North-Western Provinces for the same year. Thirty of the deaths occurred at Dacca and 25 at the Dullunda Asylum.

The question of the employment of the insane on penal labour, which was commented on in last year's Resolution, has received careful attention, and in consequence the manufacture of mustard oil at Dacca, and at Patna all manufactures that required hard labour from the lunatics, have been discontinued. To determine exactly what is and what is not suitable employment for a lunatic is a difficult question, and has been postponed for the present pending the establishment of a central lunatic asylum, where more systematic treatment can be resorted to than is possible under existing conditions. The Lieutenant-Governor is glad to notice that greater efforts are being made to render the lives of the lunatics as happy as possible. Various amusements were provided at all the asylums; musical instruments as well as pet animals were allowed to many patients, and in Calcutta some of the lunatics were taken to see the Zoological Gardens.

The system of placing dry earth on the floors, doubts about the advisability of which for Dullunda were entertained, is reported to have answered admirably in the wards where filthy patients were kept. The visitors, however, reported against its general use in the asylum.

8. There were 16 injuries and accidents against 22 in 1895. There was one sudden death at Dullunda, the cause of which could not be ascertained, but which is reported to have been due to either an injury or an accident. At Berhampore one lunatic got concussion of the brain by a fall from a tree he had climbed to steal *lichis*, and another had his leg broken from the stone of an oil-mill falling on it. There were five escapes from Dullunda and one from Patna during the year. In every instance the lunatics were recaptured. At Patna the female warder in charge was dismissed, and for four of the escapes at Dullunda the warders who were responsible were punished.

9. The income and expenditure of the asylums for the last two years are shown in the following statement:—

The excess of Rs. 2,577 over the gross expenditure of the previous year occurred chiefly under diet, the cost of which rose by Rs. 6,293, owing to the high prices of food-grains which prevailed throughout the year. At Dacca the cost of 652 maunds of rice, purchased when prices were comparatively low, in view of increased scarcity during the current year, has been entered in the asylum accounts for the year. The increase of Rs. 1,258 under contingencies is mainly due to the supply of uniforms for warders and the larger sums spent on the amusement of the lunatics.

10. The gross cost of each lunatic at the different asylums for the past two years and the cost per head of average strength are given in the following table:—

	1895.			1896.

11. The profits from the Dullunda dairy farm fell from Rs. 1,092-4-9 in 1895 to Rs. 646-13-9 owing to a change in the system of administration. At Dacca the farm was able to make a small profit besides supplying the patients. The dairy at Berhampore was opened in the latter part of the year: a cowshed was built, twelve cows were purchased, and the farm is now working satisfactorily.

12. There were 17 admissions and 2 re-admissions to the European Asylum at Bhowanipur during the year, while 32 patients remained from the previous year, making a total of 51 against 54 in 1896. Two of the persons admitted were criminal lunatics. There were 6 recoveries, against 10 in the former year; one person was despatched to Europe under the Merchant Shipping Act, and one as a civil pauper lunatic; two persons were transferred to the care of friends, and five died; so that the inmates of the asylum at the end of the year numbered 36. Accommodation is provided for 23 males and 19 females; and as the number confined on any one night did not exceed 21 males and 15 females, there was no overcrowding at any time of the year. The daily average strength was 18·11 against 26·57 in the preceding year; the general health of the inmates was good, there having been only 9 admissions to hospital. The total expenditure decreased from Rs. 22,838 to Rs. 21,269, but owing again to the smaller number of patients and to the smaller sum received from paying patients, the average cost of each lunatic to Government rose from Rs. 313 to Rs. 359. Government contributed Rs. 11,835, against Rs. 11,901 in the preceding year. Receipts from paying-patients fell from Rs. 10,926 to Rs. 9,424, in consequence of a decrease in the number of patients of the first and second class.

13. The Dullunda and Patna Asylums were inspected by Surgeon-Colonel Ross during the year, but the present Inspector-General of Civil Hospitals has had no opportunity of visiting any of the institutions since he took over charge of his office. The Lieutenant-Governor desires to thank Surgeon-Colonel Newman for his interesting report, and the various Superintendents, especially Surgeon-Captain Moir, who had charge of Dullunda and Bhowanipur, for their efficient administration of the asylums during the past year.

By order of the Lieutenant-Governor of Bengal,

C. E. A. W. OLDHAM,

Offg. Secretary to the Government of Bengal.

STATISTICS OF THE SEA-BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

No. 1588 Statistics.—The following memorandum and statements are published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 13th July 1897.

Memorandum.

The sea-borne import and export traffic of Calcutta in food-grains during the nine days from 22nd to 30th June 1896, and the corresponding period of 1897, is shown in the following statement:—

Imports.—Of the total import of 260,151 cwts. of rice from Indian ports, Burma contributed 257,239 cwts. during the last nine days of June 1897. In the week ending 21st June 1897, 104,392 cwts. were received from that country. Balasore sent 2,201 cwts. against 1,000 cwts. in the corresponding nine days of June 1896, while nothing was received from Chandbally against 43,812 cwts. in the last nine days of June 1896. The whole of the imports of 25,350 cwts. from foreign ports came from the Straits Settlements, which sent nothing in the last nine days of June 1896. The imports of paddy from Burma were 2,552 cwts. and from Coconada 5,806 cwts. against nil in the period ending 30th June 1896. The rise under gram and pulse from 3,599 cwts. in the last nine days of June 1896 to 7,161 cwts. in the corresponding period of 1897 was due to the supply from Madras ports of 5,201 cwts. against nil in the corresponding period of 1896, and from Rangoon of 1,960 cwts. against 71 cwts. in the same period of 1896.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the last nine days of June 1897 is compared with the figures for the corresponding period of 1896 :—

Foreign Ports.

There was a large falling off in the exports of rice to foreign ports, viz., from 159,415 cwts. in the last nine days of June 1896 to 44,675 cwts. in the same period of 1897. The decline was chiefly due to absence in 1897 of shipments to Reunion, Demerara, and Aden, to which ports 24,243 cwts., 24,066 cwts., and 14,083 cwts., respectively were exported in the nine days ending 30th June 1896. The despatches to Ceylon diminished by 43,573 cwts., to Natal by 7,123 cwts., to Mauritius by 2,933 cwts., and to the United Kingdom by 1,434 cwts. The exports of wheat to the United Kingdom during the nine days ending 30th June 1896 aggregated to 5,997 cwts., while nothing was sent in the period under review, and this is the chief cause of the fall in the total shipments to foreign ports from 5,997 cwts. to only 98 cwts. The shipments of gram and pulse during the nine days ending 30th June 1897 were only 10,769 cwts. against 43,678 cwts. in the corresponding period of 1896. The exports to the United Kingdom declined by 29,126 cwts. and those to Mauritius by 4,235 cwts.

Indian Ports.

The exports of rice to Indian ports fell from 4,910 cwts. to 1,736 cwts. in the period under review, the decline being chiefly due to Bombay having received 1,258 cwts. against 3,992 cwts. in the last nine days of June 1896. The decline of 5,259 cwts. in the supplies of gram and pulse was due to the exports to Bombay having fallen off by 1,958 cwts. and those to the Madras ports by 2,831 cwts. The variations under other heads are unimportant and call for no remarks.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

STATISTICS OF THE SEA-BORNE TRAFFIC OF THE MINOR PORTS IN BENGAL IN FOOD-GRAINS.

No. 1632 Statistics.—The following memorandum and statements are published for general information.

STATISTICAL DEPT.,
The 13th July 1897.

M. FINUCANE,
Secy. to the Govt. of Bengal.

Memorandum.

THE comparative statements below give statistics of the import and export trade of the minor ports of Chittagong, Narayanganj, Balasore (including both Balasore and Chandbali), Cuttack and Puri during the week ending 14th June 1897, as compared with the trade of the corresponding period of 1896 :—

Imports. The rise of 4,182 cwts. in the import trade of Chittagong was mainly due to the receipt of 5,772 cwts. of rice from Burma against *nil* in the corresponding week of 1896. The imports into Narayanganj were *nil* against 1,763 cwts. in the week ending 14th June 1896.

Exports. On account of smaller shipments of rice and gram and pulses, the trade of Chittagong and Narayanganj declined by 1,397 cwts. and 125 cwts. respectively. Owing to the cessation of exports to both Foreign and Indian Ports, Cuttack and Puri too showed a falling off of 7,424 cwts. and 4,175 cwts. respectively; in consequence of smaller consignments of rice, paddy and gram and pulses to Calcutta, the trade of Balasore also fell off by 8,739 cwts.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

General Summary.—There has been rain in all parts of the Province during the week. It has improved agricultural prospects to some extent, but in parts, especially in North Bihar, more rain is urgently required for the transplanting of winter rice and for cultivation generally. Elsewhere transplantation is going on. Early rice, jute and sugarcane are doing well. In North Bengal, and parts of East Bengal early rice is being harvested. Prices continue almost stationary. In the distressed districts the prices of the staple food-grain on which the famine wage is based are—Nadia (common rice) 7½ seers, Murshidabad (common rice) 7 to 7½ seers, Khulna (common rice) 8 seers, Shahabad (common rice) 8 seers and (peas) 10½ seers, Saran (barley) 11 seers, Champaran (Burma rice) 8⅔ seers and (peas) 10½ seers, Muzaffarpur (barley and *rahar*) 11 seers, Darbhanga (common rice) 8¾ seers and (*makai*)

9 seers, Bhagalpur (common rice) 8 to 8½ seers and (*marua*) 12 to 13 seers, Sonthal Parganas (common rice) 7½ to 8 seers and (*maise*) 7 to 12 seers, Puri (common rice) 9 to 12 seers, Hazaribagh (rice) 6 to 7 seers and (mahua) 16 to 32 seers, Lohardaga (rice) 6½ seers, Manbhum (common rice) 7½ seers. The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, from observations made at 6h., 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the New Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF JUNE 1897.

THE more noticeable features of the weather during June were—

(1) There was only a short period of disturbed weather over the Bay. It was due to a shallow depression which began over the north of the Bay about the middle of the month, and crossing the north coast of Orissa in the usual north-westerly direction led to typical monsoon weather for a time in all parts of the province.

(2) A more unusual feature was the reappearance of ordinary hot weather conditions towards the end of the month, and the alternating character between hot weather and south-west monsoon conditions throughout the month.

There was a greater number of cloudy showery days than usual with at times general rain, but with the exception of the small storm in the north of the Bay in the middle of the month, the causes of the unsettled weather were more similar to those that occur in the hot weather than during the monsoon season. Usually a fairly well-marked distinction may be drawn between weather in the early part of June and in the latter half of the month, but this year the difference was not very perceptible, and it would appear that the change which occurs about the middle of June, though established in the lower part of the atmosphere, extended to no great height, and was easily overcome after the disturbing influence was removed. In other words, the monsoon current was weak and was not of sufficient strength to take the place of the opposing currents which are characteristic of the hot weather.

Several times during the first half of the month a slight disturbance passed across the province from the west causing general rain over almost the whole province. The most marked of those began about the 11th and led to general rainy weather which might be called ordinary monsoon weather if the cause of it had originated in the north of the Bay and moved in the usual north-westerly direction. But beginning as it did in the north-east of the province and spreading towards the south-west, there can be little doubt, but that the cause of it was not connected with the advance of the monsoon. The fall of pressure, which preceded the rainy weather, began on the 9th in the west of Bihar, extended eastward on the 10th, and was general over the west and centre of the province on the 11th. These changes gave rise to steep gradients from east to west over the province, while over the Bay calm settled weather prevailed.

A further instance occurred towards the end of the month immediately before the commencement of the dry hot weather. A shallow depression entered the north-west of the province about the 24th, and moving eastward developed into one of moderate depth over the eastern districts. Immediately before the appearance of this depression ordinary monsoon weather prevailed over the province. Its eastward movement checked the monsoon current, and probably caused the very heavy rainfall in the west of South Bihar on the 24th and 25th. This rainfall was so unusually heavy that over a small area extending westwards from Patna, the excess falls for the whole of June are from 20 to 30 inches above the normal.

Judging, then, by the small disturbances in the early part of the month, the faint cyclonic storm in the middle, and the disturbance during the last week which began by causing general rain but led to the renewal of well-marked hot weather conditions over the whole province, there was a struggle between the monsoon current up the Gangetic plain and the high level westerly dry current, which ended in favour of the latter.

At the end of May the distribution of pressure was fairly normal, the difference being uniform over the Bay and the province. On the 1st of June a shallow low pressure area appeared over Bihar and Chota Nagpur. But the moderate fall of pressure on the 1st was followed by a brisk to rapid rise on the 2nd over the whole province, and the unsettled weather with fairly general rain ceased. A more rapid rise followed on the 3rd, and a second low pressure area formed and lay over the north of the province, till the 5th, when it disappeared owing to a brisk to rapid rise in the northern districts. During these three days, from the 3rd to the 5th, fairly general rain fell in most parts of the province, but the fall was most general in North Bengal and South-West Bengal on the 5th.

The rapid rise on the 5th resulted in a very uniform distribution of pressure, as is shown by the difference from the normal varying from excess of ·15 inch in North Bihar to defect of ·07 inch at Colombo. There was, therefore, a shallow depression over the south of the Bay and a general distribution unfavourable to the advance of the monsoon. These conditions continued with but little change till the 11th, when weather became more disturbed over the province owing to the passage of the shallow depression, referred to above, from west to east across the province. The depression was so shallow that the wind circulation was very little affected, and never became cyclonic, but the gradient was much steep over the province on the 11th, and the easterly winds were partly checked on the 12th, resulting in falls of 2 and 3 inches rain over a considerable part of the west of Bihar. From Bihar the rainfall spread over the whole province, and what were practically monsoon conditions became general.

With this slight disturbance the unfavourable pressure distribution passed away, and on the 13th a normal arrangement prevailed over the Bay and the province. The changes which immediately followed resulted in the small cyclonic storm which was the only disturbance over the Bay during the month. On the 14th pressure fell moderately in the north-east of the Bay and Burma. It continued rather more briskly on the 15th, and a shallow depression was then shown over the north of the Bay with a faint cyclonic circulation of winds. There had been very little change at inland stations where winds were easterly and pressure practically normal. On the 16th the centre of the depression was close to the Orissa coast, with a defect of only ·2 inch within the central area. It was, therefore, a disturbance of slight intensity, and it soon filled up after crossing the coast. The centre passed between Balasore and False Point between the 16th and 17th and was in the west of Chota Nagpur on the 18th, when defect was ·15 inch over the whole of that area.

The depression was too shallow to cause stormy weather in the north of the Bay, but as it crossed Orissa heavy rain was general and showery weather prevailed over the whole province.

The gradient was steeper than usual for some days over the whole area, and typical monsoon winds were blowing at both the coast and inland stations. Very heavy rain fell at times on the east coast of the Bay, and occasionally some of the provincial stations recorded falls of 2 and 3 inches. These conditions continued till the 24th when the change began in the west of Bihar, which was followed by the heavy rain mentioned above. There was only a very small fall of pressure, but winds became cyclonic and a diffused depression covered the province on the 25th. Dinapore reported 19·64 inches rainfall, Patna 13·8, and a few other places more than 10 inches. At that time there was a large defect at eastern stations, greatest in East Bengal, where it was more than a fifth of an inch. On the 23rd the greatest defect was in the west of Bihar, and the slow changes of pressure which resulted in the transference of the area of lowest pressure to East Bengal evidently caused the check to the monsoon winds to which the heavy rainfall in Bihar was due. The depression was better marked on the 26th owing to a rapid rise in the west of the province, and it soon after filled up the rise continuing in the east, while a fall set in in the west.

After the depression disappeared and cyclonic circulation of winds had ceased a low pressure area remained over Assam and North Bengal. This intensified considerably on the 29th owing to a rapid fall of pressure over that area, and westerly winds began over the whole province. With the westerly winds the sky became cloudless and hot dry weather was general on the 30th.

Pressure.—Though the distribution has been at times considerably below and above the normal, changes have been gradual and have rarely exceeded a tenth of an inch. The general tendency was for pressure to be high over the province in the early part of the month and low in the south of the Bay. After the cyclonic storm about the middle of the month there was a reversal as regards inland stations and readings were usually low, the greatest defect being ·2 inch. Owing to the continued low pressure during the latter half of the month means for the whole month are below the normal by small amounts varying from ·01 to ·04 inch, the latter at Sibsagar.

Temperature on an average for the month was above the normal in all divisions except South-West Bengal, where there was defect of less than half a degree. The excess was very small in Chota Nagpur, but varied from 1° to 1°·6 in Orissa, Bihar, and East and North Bengal.

Mean maximum temperature was generally below 1°, except in North Bengal, where there was excess of 2° to 3°, and mean minimum excess was practically 1°, except in part of South-West Bengal, where there was a small defect.

Daily mean temperature was high in the west and low in the east during the early part of the month, the greatest excess in Bihar being 10°. With the change which began about the 11th there was a reversal from the above arrangement, and temperature was high in the east and low in the west till near the end of the month. After the westerly winds became general there was a large increase of temperature over the whole province. On the 29th excess varied from 1° in the east to nearly 8° in the west, and on the 30th from 5° to nearly 10°.

Rainfall.—Except in North Bengal, where there has been a large defect, very nearly the normal amount has been received on an average in the large divisions of the province. In North Bengal defect is 6·51 inches, in East Bengal, Orissa, and Chota Nagpur it is about 1·2 inches, while in South-West Bengal excess is 1·56 inches, and in Bihar 3·12 inches.

The distribution is more irregular than usual when looked at in detail, especially in Bihar, where very heavy local falls occurred towards the end of the month. In the east of North Bihar falls were in defect by from 4 to 5 inches, and in the west of South Bihar over a small area extending westward from Patna there was excess ranging up to 28 inches at Dinapore. The total fall at Dinapore was 35, at Patna 29, at Bikram 27, and at several other stations in that neighbourhood more than 20 inches. Excess rainfall occurred over a tract of country running from south-east to north-west, comparatively narrow in the middle, but widening at the ends. At the southern end it included almost the whole of South-West Bengal and part of East Bengal, and in this area excess was generally about 3 inches, except over two limited areas, where it ranged up to 12 inches.

To the south-west of this tract of country there was generally a small defect, greatest in the south of Orissa, where it was as much as 5 inches. To the north-east there was a more decided absence of rain. Over almost the whole of North Bengal, the eastern half of East Bengal, and the east of Bihar there was defect steadily increasing towards the north-east, and greatest in Cooch Behar, where it was between 15 and 20 inches.

A BILL

TO

Amend the Salt Law in Bengal.

Whereas it is expedient to amend the salt law in force in all parts of Bengal which are not for the time being subject to the Indian Salt Act, 1882; it is hereby enacted as follows :—

XII of 1882.

CHAPTER I.

PRELIMINARY.

Short title, extent and commencement.

1. (*1*) This Act may be called the Bengal Salt Act, 189 ;

(*2*) It extends to the whole of the territories for the time being under the administration of the Lieutenant-Governor of Bengal, except those in which the Indian Salt Act, 1882, is for the time being in force ; but the Local Government may from time to time, by notification in the Calcutta Gazette, exempt any local area from the operation of the whole or any part of this Act other than this section and section 2 ; and

XII of 1882.

[Mad. Act IV of 1889, s. 1.]

(*3*) It shall come into force on the day on which it is first published in the Calcutta Gazette after having received the assent of the Governor-General.

Repeal and savings. Ben. VII of 1864.

2. On and from that day the Salt Act, 1864, and Bengal Act I of 1873 (*an Act to amend the Salt Act, 1864*), shall be repealed :

Provided as follows—

(*a*) all licenses granted, orders, rules and appointments made, notifications published, local limits defined and powers conferred under the said Salt Act, 1864, or under any enactment thereby repealed, shall, so far as they are consistent herewith, be deemed to have been respectively granted, made, published, defined and conferred under this Act ;

[Act XII of 1882, s. 2; Mad. Act IV of 1889, s. 2.]

(*b*) the repeal of the said Acts shall not affect any other thing done or any offence committed or any fine or penalty incurred or any proceedings commenced before the said date.

[Act I of 1873, s. 6.]

Definitions.

3. (*1*) In this Act, unless there be something repugnant in the subject or context,—

(*a*) "salt" means chloride of sodium, and includes—

(i) natural salt, and

(ii) salt or saline solutions made or produced from any saline substance or from salt-earth ;

[Ben. Act VII of 1864, s. 3; Mad. Act IV of 1889, s. 3(*b*); Bom. Act II of 1890, s. 3 (*a*).]

(*b*) "natural salt" means salt spontaneously produced, natural saline deposits, and saline efflorescence ;

[Bom. Act II of 1890, s. 3 (*d*).]

(*c*) "salt-earth" means earth which is naturally impregnated with salt, or with which salt is mixed ;

[Bom. Act II of 1890, s. 3 (*f*).]

(*d*) "saltpetre" means nitrate of potash, and in any local area which may be defined in this behalf from time to time by the Local Government by notification in the Calcutta Gazette,

[Mad. Act IV of 1889, s. 3(*e*).]

shall include all kinds of carbonates, nitrates or sulphates of soda and potash specified in such notification;

(*e*) "contraband salt" means salt, salt-earth or saltpetre manufactured, excavated, collected, packed, stored, landed, transported or removed in or from a salt-work or in or from a Government warehouse or store, or had in possession, in contravention of— [Mad. Act IV of 1889, s. 3(*k*); Bom. Act II of 1890, s. 3 (*m*).]

(*i*) this Act or any other enactment for the time being in force relating to the salt-revenue, or

(*ii*) any rule or order made under this Act or under any other such enactment as aforesaid, or

(*iii*) any license or permit granted under this Act or under any other such enactment as aforesaid:

provided that salt earth which has been merely excavated or collected shall not be deemed to be contraband unless it is found within the limits of some area notified under section 15;

(*f*) "manufacture" includes the excavation, collection and removal of natural salt or salt-earth and also every process by which salt is separated from brine or earth or any other liquid or substance, and every process for the purification or refinement of salt or saltpetre; [Ben. Act VII of 1864, s. 3; Bom. Act II of 1890, s. 3 (*g*).]

(*g*) "salt-factory" means any place which is used, or intended to be used, for the manufacture of salt or saltpetre, or for the storage or keeping of the same pending payment of duty, [Mad. Act IV of 1889, s. 3 (*i*).]

and includes all embankments, channels, reservoirs, lands, buildings and waste places situated within the limits of a salt-factory which are from time to time specified in this behalf by the Local Government by notification in the Calcutta Gazette,

but does not include a warehouse appointed or licensed under the Sea Customs Act, 1878; VIII of 1878.

(*h*) "salt-work" means any defined area, within a salt-factory, which is used for the manufacture of salt or saltpetre, and which is separately entered as a salt-work in the public accounts; [Ben. Act VII of 1864, s. 3; Mad. Act IV of 1889, s. 3 (*j*).]

(*j*) "salt-revenue" means revenue derived or derivable from any price, duty, fee, tax, fine, confiscation or payment imposed or ordered under this Act or any other enactment for the time being in force relating to the salt-revenue; [Mad. Act IV of 1889, s. 3 (*a*).]

(*k*) "Board" means the Board of Revenue for the territories for the time being under the administration of the Lieutenant-Governor of Bengal; [Ben. Act VII of 1864, s. 3.]

(*l*) "Collector" means the chief officer in charge of the revenue administration of a district;

(*m*) "Salt-revenue Officer" includes any person appointed under section 6 to exercise all or any of the powers or perform all or any of the duties of a Salt-revenue Officer under this Act; [Act XII of 1882, s. 3.]

(*n*) "Inspector" means a Salt-revenue Officer specially empowered to try charges of offences punishable under this Act;

(*o*) "licensee" means a person to whom a license is granted under Chapter III of this Act; [Mad. Act IV of 1889, s. 3 (*m*), adapted.]

(*p*) "imprisonment" means imprisonment of either description as defined in the Indian Penal Code; [Mad. Act IV of 1889, s. 3 (*o*).]

XLV of 1860.

(Salt.—Chapter II.—Control and Establishment.-Sections 4—7.)

(*q*) "place" includes a house, building, shop, tent or vessel; and [Mad. Act IV of 1889, s. 3 (*q*).]

(*r*) "section" means a section of this Act. [Act I of 1868, s. 2 (*15*).]

(*2*) The possession or removal of salt by a servant or agent of any person on that person's account shall be deemed, for the purposes of this Act, to be possession or removal, as the case may be, of such salt by such person himself. [Ben. Act VII of 1864, s. 3; Bom. Act II of 1890, s. 3 (*c*).]

CHAPTER II.

CONTROL AND ESTABLISHMENT.

Control by Board.

4. Subject to the general control of the Local Government, the Board shall have the control of the administration of the Salt Department and the collection of the salt-revenue. [Mad. Act IV of 1889, s. 4 (*a*), adapted.]

Functions of Collector and appointment of person to perform his functions.

5. Subject to the control and direction of the Commissioner of the Division, or of such other officer as the Local Government may from time to time direct, the Collector shall be charged with the collection of the salt-revenue and the carrying out of the provisions of this Act within his district: [Bom. Act II of 1890, s. 5, adapted.]

Provided that the Local Government from time to time, by notification published in the Calcutta Gazette, may appoint, in any district or part of a district, any other officer to exercise all or any of the powers and perform all or any of the duties of the Collector, either in subordination to or in place of the Collector, and may cancel any such appointment.

Appointment of Salt-revenue Officers or persons to perform their functions.

6. (*1*) Subject to the general control of the Governor-General in Council, the Local Government may from time to time appoint, either by name or by virtue of their office, so many persons as it thinks fit to be Salt-revenue Officers, or to exercise all or any of the powers or perform all or any of the duties of a Salt-revenue Officer under this Act. [Mad. Act IV of 1889, s. 8, and Bom. Act II of 1890, ss. 4 (*1*), (*3*), and 10, adapted.]

(*2*) Any person appointed to exercise powers or perform duties as aforesaid may be appointed with such designation as the Local Government thinks fit.

Appointment, punishment and dismissal of Subordinate Salt-revenue Officers.

7. Subject to such orders as may from time to time be passed by the Board with the sanction of the Local Government, the Collector, or any officer appointed under the proviso to section 5, may— [Bom. Act II of 1890, s. 6, adapted.]

(*a*) from time to time appoint as many persons as he thinks fit to be Subordinate Salt-revenue Officers, and

(*b*) for unfitness or for any breach of departmental rules or discipline or for carelessness, neglect of duty or other misconduct, at any time, after inquiry recorded in writing, fine, suspend, reduce or dismiss any person, other than a Police Officer, who has been so appointed.

CHAPTER III.

MANUFACTURE, EXCAVATION, COLLECTION, REMOVAL, TRANSPORT, STORAGE, POSSESSION AND SALE OF SALT, SALT-EARTH OR SALTPETRE.

License required for manufacture of salt or saltpetre, or excavation, collection, removal or possession of natural salt or salt-earth.

8. (*a*) No salt or saltpetre shall be manufactured, and [Ben. Act VII of 1864, ss. 4, 7; Bom. Act II of 1890, s. 11.]

(*b*) no natural salt, and, save in accordance with rules made under section 11, no salt-earth, shall be excavated, collected, removed or had in possession,

except under a license granted by the Collector.

Contents and form of license and fees for licenses.

9. (*1*) Every license granted under section 8 shall specify— [Ben. Act VII of 1864, s. 7; Mad. Act IV of 1889, s. 88; Bom. Act II of 1890, s. 13, adapted.]

(*a*) the name of the person to whom it is granted;

(*b*) the limits within which the manufacture, excavation, collection or removal is to be carried on, and within which the possession may be had; and

(*c*) the place where the salt, saltpetre or salt-earth is to be stored after manufacture, excavation, collection or removal;

and shall be in such form and contain such conditions and be subject to the payment of such fees as the Board, subject to any rules made under section 37, may from time to time, by notification in the Calcutta Gazette, prescribe.

(*2*) The Collector may at any time call for any such license and alter or amend it in accordance with the conditions so prescribed.

Power to cancel or suspend license.

10. The Board may cancel any such license if the licensee has been convicted of any offence under this Act, or may suspend or cancel any such license in case of any breach of the conditions thereof. [Mad. Act IV of 1889, s. 73.]

Power to make rules permitting excavation, collection, removal or possession of salt-earth without a license.

11. The Local Government may from time to time make rules for permitting the excavation, collection, removal or possession of salt-earth by any person or class of persons, in any local area or place defined in such rules, without a license from the Collector, [Bom. Act II of 1890, s. 14.]

and may in such rules make such provisions as it deems fit for limiting and regulating such excavation, collection, removal or possession, and prescribe the use to which salt-earth so obtained or possessed may be put.

Removal of salt or saltpetre from salt-factory or authorised place of storage.

12. Subject to any rules made under section 13,— [Mad. Act IV of 1889, s. 42.]

(*a*) no salt or saltpetre shall be removed from any salt-factory, except for the Government or for transport to a place of storage authorized by the Board, and

(*b*) no salt shall be removed from any such authorized place of storage, except under a permit granted by the Collector or by a Salt-revenue Officer specially empowered in this behalf and upon payment of the duty imposed by the

XII of 1882.

Governor-General in Council under the Indian Salt Act, 1882, and of the charges, if any, payable to the Government in respect of such salt.

Power to make rules defining areas and regulating removal, transport, storage, possession and sale of salt, salt-earth and saltpetre therein.

13. The Local Government may, from time to time, by rule,— [Act XII of 1882, s. 6, adapted.]

(*a*) define an area round any customs port, or round any place where salt or saltpetre is manufactured;

(*b*) define the areas which shall be deemed to be saliferous tracts; and

(*c*) regulate the removal, transport, storage, possession and sale of salt, salt-earth and saltpetre within any such area or areas.

Restriction on transport or possession of salt, salt-earth or saltpetre in areas so defined.

14. (*1*) No person shall, within any area defined under section 13, transport or possess salt, salt-earth or saltpetre in excess of such quantity as the Local Government may prescribe by rule made under clause (*c*) of that section, unless— [Bom. Act II of 1890, s. 36.]

(*a*) such salt is being removed under a permit granted under section 12, clause (*b*), or is covered by a special permit granted under sub-section (*2*) of this section; or

(*b*) such salt, salt-earth or saltpetre has been legally imported from a foreign port or place, at some port or place within the said area, and is covered by a certificate, signed by a Customs Officer, of the payment of the import duty levied thereon.

(*2*) The Collector, or any Deputy Collector or Assistant Collector, or any Salt-revenue Officer specially empowered in this behalf, may grant to such persons as he thinks fit special permits authorising them to be possessed of salt, in excess of the quantity prescribed by rule made under section 13, clause (*c*), for their private consumption or for conveyance out of any of the areas defined under that section.

Power to declare salt-earth to be contraband in certain areas.

15. (*1*) The Local Government may, by notification in the Calcutta Gazette, declare that salt-earth which has been excavated or collected shall be deemed to be contraband if found within the limits of any area specified in such notification. [Mad. Act IV of 1889, ss. 3(*k*), 74(*b*).]

(*2*) No person shall, except for agricultural or building purposes, excavate, collect or possess salt earth in any area notified under sub-section (*1*).

CHAPTER IV.

POWERS OF SEARCH, ARREST, SEIZURE AND TRIAL.

Power of Magistrates to issue search warrants.

16. (*1*) Any Magistrate, on receiving information— [Mad. Act IV of 1889, s. 46.]

(*a*) that salt or saltpetre is being manufactured, excavated, collected or removed without a license granted under this Act, or

(Salt.—Chapter IV.—Powers of Search, Arrest, Seizure and Trial.—Sections 17, 18.)

(*b*) that there is a natural formation of salt, or

(*c*) that contraband salt is stored or concealed,

in any place within his jurisdiction, may, after examining the informant on oath or affirmation, issue a warrant to search for such salt or saltpetre or to inspect such formation, as the case may be.

(*2*) Every such examination shall be reduced into writing and signed by the informant and by the Magistrate.

Authority to specially empowered officers to search and arrest without warrant.

17. (*1*) Whenever any Salt-revenue officer or officer of the Police, Land-revenue or Customs Department who is specially empowered in this behalf has reason to believe— [Mad. Act IV of 1889, s 47.]

(*a*) that salt or saltpetre is being manufactured, excavated, collected or removed without a license granted under this Act, or

(*b*) that contraband salt is stored or concealed,

in any place subject to his authority, and that the delay in obtaining a search warrant would prevent the discovery thereof, he shall record in writing (so far as may be practicable),—

(*i*) the name, residence and calling of the informant (if any);

(*ii*) the position and a description of the place in which, and the name of the person for or by whom, it is alleged the salt or saltpetre is being unlawfully dealt with, and

(*iii*) the supposed quantity and description of the salt or saltpetre in question, and the grounds for believing that an offence is being committed in respect thereof,

and may then, at any time by day or night, enter and search such place,

and may seize and carry away all contraband salt and other things liable to confiscation under this Act which he may find,

and may destroy any works constructed in such place for the manufacture of such salt or saltpetre or to cause or assist the spontaneous generation of salt,

and may arrest any person concerned in the manufacture, excavation, collection or removal of such salt or saltpetre or in the storing or concealing of such contraband salt.

(*2*) Any person arrested under this section shall be admitted to bail by the officer conducting the search, if sufficient bail be tendered for the appearance of such person before an Inspector.

Power to search, seize and arrest in open place.

18. Any Salt-revenue officer or officer of the Police, Land-revenue or Customs Department may in any public thoroughfare or open place other than a dwelling-place,— [Mad. Act IV of 1889, s 49.]

(*a*) search any person, vessel, vehicle, animal, package or covering upon whom or in or upon which he may have reasonable cause to suspect there is any thing liable to confiscation under this Act, and

(*b*) seize and detain any thing which he has reason to believe to be liable to confiscation under this Act, and

(Salt.—Chapter IV.—Powers of Search, Arrest, Seizure and Trial.—Sections 19—22.)

(*c*) arrest without warrant any person found committing an offence punishable under this Act.

Searches and arrests how to be made.

X of 1882.

19. All searches and arrests made under this Chapter shall be made in accordance with the provisions of the Code of Criminal Procedure, 1882, relating respectively to searches and arrests made under that Code. [Ben. Act VII of 1864, s. 28, proviso; Mad. Act IV of 1889, s. 51; Bom. Act II of 1890, s. 40.]

Person in possession of articles which are to be searched or examined bound, on requisition, to unpack and weigh or to remove or deposit the same.

20. (*1*) Any officer who makes a search under this Act, or who examines any salt, salt-earth or saltpetre for any of the purposes of this Act or of any rule made thereunder, may require the person who has the immediate possession or control of any animal, conveyance, vessel, goods or package which such officer desires to search, or of any salt, salt-earth or saltpetre which he desires to examine, without delay and in such manner as such officer thinks fit to direct,— [Ben. Act VII of 1864, s. 25; Bom. Act II of 1890, s. 43.]

(*a*) to unload, unpack or open any such animal, conveyance, vessel, goods or package, and to weigh any such salt, salt-earth or saltpetre; or

(*b*) before or after such search, examination or weighing is completed, to remove any such animal, conveyance, goods or package to a convenient spot, or to deposit such goods or package in a convenient spot until further orders.

(*2*) If the said person fails to comply with any such requirement, the officer aforesaid may cause the animal, conveyance, vessel, goods or package to be unloaded, unpacked, opened, removed or deposited, or the salt, salt-earth or saltpetre to be weighed, in the manner which he requires; and the cost of so doing shall be recoverable by the said officer from the said person.

Arrested persons to be forwarded to Inspector.

21. (*1*) Whenever any person is arrested under the provisions of this Chapter, and has not been admitted to bail under section 17, sub-section (*2*), the person arresting him shall forthwith forward him to the nearest Inspector, or, if there be no Inspector within a reasonable distance, to the officer in charge of the nearest police-station. [Mad. Act IV of 1889, s. 53.]

(*2*) When any person is forwarded under sub-section (*1*) to the officer in charge of a police-station, such officer shall admit him to bail to appear when summoned before the nearest Inspector, or, if bail be not furnished, shall himself forward such person in custody to such Inspector. [Mad. Act IV of 1889, s. 54.]

Procedure of Inspector.

22. (*1*) When any person charged with having committed an offence punishable under this Act is brought before an Inspector or appears before him on bail, the Inspector shall, after such inquiry as he may deem fit, either— [Mad. Act IV of 1889, s. 55.]

(*a*) release such person, or

(*b*) admit him to bail to appear before a Magistrate having jurisdiction, or, if bail be not furnished, forward him in custody to such a Magistrate

(Salt.—Chapter IV.—Powers of Search, Arrest, Seizure and Trial.—Chapter V.—Duties of Village-Headmen and Others.—Chapter VI.—Offences, Penalties and Damages.—Sections 23—26.)

(*2*) For the purpose of proceedings under this section, the Inspector may exercise the like powers and shall be subject to the same provisions as an officer in charge of a police-station may exercise and is subject to under the Code of Criminal Procedure, 1882, when investigating a cognizable case:

X of 1882.

Provided that the Inspector shall not be bound to forward the accused person to a Magistrate, or to take bail for his appearance before a Magistrate, if for any reason he considers it undesirable that the prosecution should be further proceeded with.

Power of Inspector to summon suspected persons.

23. (*1*) Any Inspector may, after recording his reasons in writing, summon to appear before him any person whom the Inspector has reason to suspect of having committed an offence punishable under this Act. [Mad. Act IV of 1889, s. 58.]

(*2*) When any such person appears before the Inspector, he shall be dealt with as provided in section 22.

CHAPTER V.

DUTIES OF VILLAGE-HEADMEN AND OTHERS.

Village-headmen and officers of certain Departments bound—

to give information of offences punishable under this Act; and

to prevent such offences and

to assist Salt-revenue Officers.

24. It shall be incumbent on every village-headman, and on every officer of the Departments of Police, Customs, Opium, Excise and Forests,— [Bom. Act II of 1890, s. 41, adapted. "Village-headman" is taken from Act X of 1894.]

(*a*) to communicate to some Salt-revenue Officer of not lower rank than that of Sub-Inspector any information which he receives of a design to commit, or of the commission of, any offence punishable under this Act;

(*b*) to interpose for the purpose of preventing, and to prevent, by the use of all reasonable means within his power, the commission of any such offence; and

(*c*) on receipt of a notice or request from any Salt-revenue Officer, to assist such officer in carrying out any of the provisions of this Act.

Proprietors and others bound to give notice of manufacture of contraband salt.

25. All proprietors, tenants, under-tenants, cultivators and other persons who own or hold land on which there is any manufacture of contraband salt, and their agents, shall, in the absence of reasonable excuse, be bound to give notice of the fact to a Magistrate or an officer of the Salt or Police Department immediately the same comes to their knowledge. [Ben. Act VII of 1864, s. 8, para. 1; Mad. Act IV of 1889, s. 70; Bom. Act II of 1890, s. 15; Act XII of 1882, s. 14.]

CHAPTER VI.

OFFENCES, PENALTIES AND DAMAGES.

Penalty for contravening section 8, 12, 14 or 15, for receiving or retaining contraband, salt, or for contravening rule, license or permit.

26. Whoever,— [Ben. Act VII of 1864, s. 5, para. 1, s. 11; Bom. Act II of 1890, s. 47; Act XII of 1882, s. 9; Mad. Act IV of 1889, s. 74(*b*).]

(*a*) in contravention of section 8 or section 12, manufactures or removes salt or saltpetre; or

(*b*) in contravention of section 8, excavates, collects, removes or possesses natural salt or salt-earth; or

(*c*) in contravention of section 14, transports or possesses salt, salt-earth or saltpetre; or

(*d*) in contravention of section 15, sub-section (*2*), excavates, collects or possesses salt-earth; or

(*e*) except in the exercise of some power or the discharge of some duty conferred or imposed upon him by or under this Act or some other enactment at the time in force, receives, or without lawful excuse retains, contraband salt, knowing or having reason to believe the same to be contraband, or

(*f*) does anything in contravention of any rule made, or of any condition of a license or permit granted, under this Act,

shall for every such offence be liable to fine which may extend to five hundred rupees, or to imprisonment for a term which may extend to six months, or to both.

Punishment on second and subsequent convictions under section 26.

Ben. VII of 1864.

27. Any person convicted of an offence under section 26, after having been previously convicted of an offence under that section or under section 5 of the Salt Act, 1864, shall be liable to imprisonment for a term which may extend to six months, in addition to the punishment which may be inflicted for a first offence under section 26,

and every such person shall, upon every subsequent conviction of an offence under section 26, be liable to imprisonment for a term which may extend to six months, in addition to any term of imprisonment to which he was liable at his last previous conviction.

[Ben. Act VI of 1864, s. 34; Act XII of 1882, s. 10, adapted.]

Misbehaviour by certain persons.

28. If any Salt-revenue Officer or village-headman, or any officer of the Departments of Police, Customs, Opium, Excise or Forests,—

(*a*) does any act, or is guilty of any omission, in contravention of this Act or of any rule made thereunder; or

(*b*) with intent to cause injury or annoyance to any person, vexatiously or unnecessarily makes use of any power conferred upon him by this Act or by any rule made thereunder,

he shall for every such offence be liable to fine which may extend to five hundred rupees.

[Ben. Act VII of 1864, s. 33; Bom. Act II of 1890, s. 48, altered to adapt it to Bengal.]

Penalty for not giving notice of manufacture of contraband salt.

29. If any person bound to give notice under section 25 wilfully omits or delays to give such notice, he shall be liable to fine which may extend to five hundred rupees.

[Ben. Act VII of 1864, s. 8, para. 2.]

Offences by what Magistrates triable.

30. All offences under this Act shall be tried by a Magistrate exercising powers not less than those of a Magistrate of the second class.

[Ben. Act I of 1875, s. 2; Act XII of 1882, s. 11.]

Limitation of prosecutions.

31. No complaint of an offence under this Act shall be admitted unless it is preferred within six months after the commission of the offence to which it refers.

[Ben. Act VII of 1864, s. 37; Act XII of 1882, s. 11.]

(Salt.—Chapter VI.—Offences, Penalties and Damages.—Chapter VII.—Miscellaneous.—Sections 32—36.)

Confiscation.

32. When proceedings are taken under this Act before a Magistrate, the following things, namely—

(*a*) all contraband salt;

(*b*) all animals, conveyances and vessels used, or intended to be used, in carrying contraband salt;

(*c*) all goods, packages and coverings in or among which contraband salt is found; and

(*d*) all apparatus, implements, utensils and materials employed, or intended to be employed, for the manufacture, excavation, collection or removal of salt, salt-earth or saltpetre without a license, or for the purpose of utilizing natural salt contrary to any of the provisions of this Act or of any rule made thereunder;

shall be liable to confiscation by order of the Magistrate trying the case.

[Ben. Act VII of 1864, ss. 6, 29; Bom. Act II of 1890, s. 50, except that the power of ordinary confiscation is reserved to the Magistrate trying the case.]

Redemption of things confiscated.

33. Whenever confiscation is ordered under section 32, the Collector may, subject to any rules made under section 37, clause (*d*), allow the owner of the thing confiscated to redeem it on payment of such fine as the Collector thinks fit.

[Bom. Act II of 1890, s. 52 (*d*).]

No penalty or damages for act done in good faith.

34. No person shall be liable to any penalty or to payment of damages on account of any act done or order made in good faith in pursuance of any duty imposed or authority conferred on him by this Act, or by any rule made thereunder.

[Bom. Act II of 1890, s. 61 (*1*).]

Suit for damages.

35. (*1*) Every suit for damages for an alleged wrong on the part of any person by any act which was done, or which the Court considers to have been done, under colour or in excess of any such duty or authority as aforesaid, shall be dismissed—

(*a*) if the suit was instituted more than three months after the wrong complained of; or

(*b*) if the plaintiff omitted to give the defendant one month's previous notice in writing of the institution of the suit, with a sufficient description of the wrong complained of.

(*2*) The plaint in every such suit must set forth that a notice as aforesaid has been served on the defendant, and the date of such service, and must state whether any, and, if any, what tender of amends has been made by the defendant.

(*3*) A copy of the said notice must be annexed to the plaint, endorsed or accompanied with a declaration by the plaintiff of the time and manner of service thereof.

[Ben. Act VII of 1864, s. 41; Bom. Act II of 1890, s. 61 (*2*), (*3*), (*4*).]

CHAPTER VII.

MISCELLANEOUS.

Authority to confer special powers on certain officers.

36. The Local Government may, by notification in the Calcutta Gazette,—

(*1*) specially empower any Salt-revenue Officer—

(*a*) to grant permits under section 12, clause (*b*);

(*Salt.—Chapter VII.—Miscellaneous.—Sections 37-39.*)

(*b*) to grant special permits under section 14, sub-section (*2*); or

(*c*) to try charges of offences punishable under this Act; or

(*2*) specially empower any Salt-revenue Officer or any officer of the Police, Land-revenue or Customs Department to exercise all or any of the powers conferred by section 17.

General power to make rules.

37. In addition to the rules which the Local Government is hereinbefore empowered to make, it may from time to time make rules to regulate all or any of the following matters, namely—

(*a*) the manufacture, deposit, storage, sale and removal of salt or saltpetre in and from any salt-works; [Ben. Act VII of 1864, s. 11.]

(*b*) the deposit, storage and removal of salt or saltpetre in and from any enclosed place used for the deposit or storage of salt on which duty has not been paid;

(*c*) the fee to be charged on account of any license, permit, pass, certificate, dákhilá, rawána or other such document granted or issued under this Act; [Act XII of 1882, s. 28 (*a*).]

(*d*) the disposal of things seized or confiscated, and the grant of rewards to informers and others; [Ben. Act VII of 1864, s. 40 Mad. Act IV of 1889, s. 85 (*h*).]

(*e*) the payment of duty on salt; [Ben. Act VII of 1864, s. 11.]

(*f*) the cases in which, the officers to whom, and the conditions subject to which, orders made under this Act by Salt-revenue Officers shall be appealable; [Act XII of 1882, s. 28 (*b*).]

(*g*) the statistical returns to be furnished by dealers in imported salt and manufacturers of excise salt;

(*h*) generally, the carrying out of the provisions of this Act. [Mad. Act IV of 1889, s. 85 (*i*).]

Publication of rules in draft.

38. (*1*) The Local Government shall, before making any rules under this Act, publish a draft of the proposed rules for the information of persons likely to be affected thereby. [Act I of 1887, s. 6.]

(*2*) The publication shall be made in such manner as the Local Government directs.

(*3*) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(*4*) The Local Government shall consider any objection or suggestion which may be received by it from any person with respect to the draft before the date so specified.

Final publication of rules.

39. All rules made under this Act shall be published in the Calcutta Gazette; and such publication shall be conclusive proof that the rules have been duly made. [Act I of 1887, s. 6 (*3*).]

STATEMENT OF OBJECTS AND REASONS.

THE main objects of this Bill are—

(*a*) to provide for the abolition of the system of salt passes (*rawánás*);

(*b*) to enable the Government of Bengal to resume charge of the administration of the Salt Department in Orissa; and

(*c*) to introduce certain changes in the law which experience has shown to be necessary in the interests of the salt revenue.

2. The Bill accordingly repeals Bengal Act VII of 1864, which, as amended by Bengal Act I of 1873, is now in force in the whole of Bengal except the Patna, Bhagalpur and Orissa Divisions and the town of Calcutta, where it has been ousted by Act XII of 1882.

3. Section 3 (*a*) defines "salt" more fully and precisely than section 3 of the Bengal Act of 1864, and enlarges that definition by withdrawing the condition embodied in the words "used or intended to be used with food"

4. Section 3 (*c*) defines "contraband salt" so as to include salt-earth, which, not being used or intended to be used with food, does not come under the definition of "salt" contained in section 3 of the Bengal Act of 1864.

5. Sections 4 to 7 deal with the subject of establishment and control more fully than the Bengal Act of 1864, which is admitted to be defective in respect of these points.

6. Sections 8 to 15, which are modelled on the corresponding provisions of the Bombay and Madras Salt Acts, give power to control dealings with natural salt and salt-earth or saltpetre in any quantity.

7. Sections 12 and 13 reserve power to regulate the movement of salt in the neighbourhood of customs ports and salt or saltpetre factories.

8. Sections 11, 13 and 14 enable the Lieutenant-Governor to mitigate by formal order the stringency of section 8, which prohibits the possession of any quantity of salt-earth except in accordance with rules made under section 11. Under these sections it will be possible to allow people in saliferous tracts to possess the small quantity of salt-earth which the poorer classes may require for the purposes of domestic manufacture, while still retaining the power to proceed against people who collect large quantities of salt-earth in order to manufacture *panga* salt for sale.

9. Sections 16 to 23 confer upon Salt-revenue Officers powers of search, inspection, seizure, arrest, inquiry, taking bail, and discharge, generally similar to those exercised by Salt Officers in Madras. Except in cases of urgency, searches can only be made under a warrant from a Magistrate, and when this is dispensed with the officer must record the information on which he acted.

10. The rest of the Bill consists of supplementary provisions based for the most part the Indian Salt Act of 1882 and the Salt Acts of Madras and Bombay.

IRRIGATION DEPARTMENT.

[Fourth Publication.]

The 29th June 1897.

No. 176—Notification.—In exercise of the powers conferred on him by sections XI and XII of Act V (B.C.) of 1864 (The Canals Act), the Lieutenant-Governor of Bengal proposes to pass the following rules in regard to the line of channel connecting the Kurnafuli and the Chandkhali rivers, known in its various parts as Sikalbaha and Murali khals, in the district of Chittagong.

A. D. McARTHUR, *Colonel*, R.E.,
Secy. to the Govt. of Bengal.

1. Every vessel on entering the above channel shall be liable to measurement by the officer in charge of the toll station for the purpose of ascertaining the amount of toll to be paid.

2. The tonnage of every vessel, whether laden or empty, shall, for the purposes of the *Canals Act* and of these rules, be determined by the following measurements :—

(*a*) The product of half the length of the vessel from stem to stern measured along the water line, multiplied by the interior greatest breath of the vessel, multiplied by the depth from the water line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 50 maunds is to be omitted ; and a fraction exceeding 50 maunds is to be charged as 50 maunds only.

3. No raft will be admitted into the channel in excess of 50 feet in length or 5 feet in breadth. No timber, bamboos or grass will be admitted except securely and compactly packed in the form of a raft.

4. Every vessel entering the channel shall be furnished with a ticket on paying the prescribed toll. The ticket will specify the date of entry, the maundage of the vessel and the amount of toll paid.

5. No vessels whatever except such as are employed on works connected with the maintenance or improvement of the channel shall be exempted from paying toll.

6. Every vessel or raft which has paid toll shall be allowed three days to pass through the channel, the days of entering and leaving being both included, and any vessel or raft remaining in any part of the channel longer than the period above fixed shall, for each day in excess of such period, be charged demurrage equal to one-half of the toll paid. Every vessel or raft remaining in the channel more than one month without authority from the Supervisor shall be subject to be summarily removed.

7. Any person infringing any of the above rules, or wilfully interfering in their enforcement, shall be liable, under section XI of the Canals Act, to a fine not exceeding fifty rupees for any one offence.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the "Gazette of India."*]

The following order, issued by the Government of India in the Department of Finance and Commerce, is republished for general information.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

ACCOUNTS AND FINANCE.
PUBLIC DEBT.

No. 3110.

Simla, the 19th July, 1897.

THREE-AND-A-HALF PER CENT. LOAN.

His Excellency the Right Honourable the Governor General in Council has resolved to borrow three hundred lakhs of rupees for the public service in the following manner:

2. Promissory Notes will be issued for the said amount in the Form annexed to this Notification, being the form of the notes of *the Three-and-a-half Per Cent. Loan of 1854-55*, of which loan the notes to be now issued will form a part. All the conditions which apply to notes of *the Three-and-a-half Per Cent. Loan of 1854-55* will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December; and the notes are not liable to discharge before the 1st day of August 1904.

Tenders.

3. Tenders for the whole or any part of the said amount of ₹3,00,00,000 will be received by the Comptroller General from this date to noon of Monday, the 16th August next. Tenders must be for sums of 500 Rupees or multiples of 500 Rupees.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three-and-a-half Per Cent. Loan.*" If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

NOTE.—Tenders made in accordance with these instructions will also be received by the Accountants General, Madras and Bombay, on account of the Comptroller General, Calcutta, on the 14th August and up to 11-30 or 11 o'clock local time respectively (corresponding with 12 o'clock in Calcutta) on the 16th August, provided that—

(*a*) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them);

(*b*) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank;

(*c*) each tender is for not less than ₹10,000;

(*d*) that the deposit is either a promissory note or a Treasury Receipt from the Head Office of the local Presidency Bank, or a cheque on a local Bank in Madras or Bombay in favour of the Accountant General, Madras or Bombay, respectively;

(*e*) that the amount of the tender is made payable either in Calcutta, Madras, or Bombay;

and the Accountant General will return deposits on non-accepted tenders, and will issue allotment-certificates so far as the tenders are payable in Madras or Bombay.

5. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

Deposits.

7. Each tender must be accompanied by a deposit of not less than one-hundredth, or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (*a*) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (*b*) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras or Bombay, or (*c*) Government Promissory Notes,[1] standing in the name of or endorsed to the tenderer or the person making the deposit.

[1] *It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.*

8. (*a*) Deposits, not being promissory notes, will, in the case of accepted tenders, be credited proportionally in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in even tens of rupees in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(*b*) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

Opening of Tenders.

9. The Governor General in Council reserves the right to declare, on or before the 9th August, the minimum rate at which tenders will be accepted. If not so declared, the said minimum rate will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon (Calcutta time), on Monday, the 16th August next, and those received under the terms of the note under clause 4 will be similarly opened by the Accountant General, Madras, at 11-30 (Madras time), and by the Accountant General, Bombay, at 11 o'clock (Bombay time) on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at the minimum rate and at rates above the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate; the amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than ₹500.

Allotment-Certificates.

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General[2] as soon as possible after the 16th August; and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay.

[2] For tenders received by the Accountant General, Madras or Bombay, and payable at those places, the Accountant General will issue the allotment-certificates.

13. If the allotment made on any tender is less than ₹3,000, then the whole of the allotment-certificates (after credit of the deposit under clause 8 (*a*)) will be made payable upon the 28th September.

Otherwise the whole amount of each allotment will be divided into three instalments as follows:

Instalment I.—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 30th August:

Instalment II.—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 28th September:

Instalment III.—The balance payable upon the 21st October:

and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of ₹500.

14. Any allotment-certificate will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal or Madras or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the Officers in charge of the Government Treasuries at which payment is made, by enfacement upon the relative certificate.

Issue of Promissory Notes.

16. (*a*) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than ₹500), bearing interest from 31st December 1897, and he will also receive interest at 3½ per cent. per annum from the dates on which he may have made payment till the 30th of December 1897.

(*b*) Or he may, at his option, by paying interest at the said rate from 30th June 1897 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1897.

FORM OF PROMISSORY NOTE (see Clause 2).

Fort William, the

Promissory Note No. *Government Rupees* *at 3½ per cent. of 1854-55.*

The Governor General of India in Council does hereby acknowledge to have received from
the sum of Government Rupees Five Hundred only as a loan to the Secretary of State in Council for India, and does hereby promise, for and on behalf of the said Secretary of State in Council, to repay the said loan, by paying the said sum of Government Rupees Five Hundred only to the said
his Executors, or Administrators, or his or their Order, on demand, at the General Treasury, at Fort William, after the expiration of Three Months' Notice of Payment, to be given by the Governor General of India in Council, in the *Government Gazette*, and to pay the interest accruing on the said sum of Government Rupees Five Hundred only from the
at the rate of three-and-a-half per cent. per annum, by half-yearly payments, at the General Treasury at Fort William, to the said , his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment

as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this note) all further interest shall cease.

The Governor General in Council hereby further engages that Notice of Payment as aforesaid shall not be given before the First day of May 1904, and that this Note shall not be discharged before the First day of August 1904.

FORM OF TENDER (see Clause 4).

NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements:

Filling up Tenders.

(1) They are requested to use only the printed forms of tender which will be available at his Office and at the Currency Office on application to the Durwan on duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay, and will also be supplied to the principal Treasuries.

(2) If the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

Presentation of Tenders.

(3) For all tenders presented to him in his office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant especially deputed for the purpose. The Accountants General, Madras and Bombay, will do likewise in respect of tenders presented to them under the note to clause 4 of the Government Notification.

Return of Deposit in case of Non-acceptance.

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General, Madras or Bombay, a receipt for the deposit accompanying it. This form should on the third day after the opening of the tenders be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General or Accountant General, Bombay or Madras. The deposit will then be returned to the bearer in exchange for the receipt.

(5) Deposit upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

Accepted Tenders.

(6) The Comptroller General and the Accountant General, Madras or Bombay (in the case of tenders received by such Accountant General and payable in Madras or Bombay), will issue allotment-certificates to successful tenderers. These certificates will be for the following amounts:—₹500, ₹1,000, ₹2,000, ₹5,000, ₹10,000, ₹20,000, ₹50,000, ₹1,00,000, making up the full value accepted; and the deposit on the tender will be divided among them; they will be substantially of the following form:

This is to certify that, in accordance with the terms of Notification No. 3110, dated 19th July 1897 (Gazette of India, Extraordinary, *dated 19th July 1897*), *the abovenamed tenderer has engaged to take up ₹2,000 of the 3½ Per Cent. Loan of 1854-55 at the rate above mentioned on or before ; and that on the said payment being completed, he is entitled on endorsing and delivering up this certificate to receive a promissory note or notes of the Government of India for ₹2,000 bearing interest from*

JUDICIAL.

No. 750.—The following draft of certain rules, which it is proposed to make for all cantonments in British India in exercise of the powers conferred by sections 26 and 27 of the Cantonments Act, 1889 (XIII of 1889), in supersession of the rules published in G. G. O. No. 460, dated 3rd May 1895, is, as required by section 27 of that Act, hereby published for the information of persons likely to be affected thereby, and notice is given that the draft will be taken into consideration on or after the 10th day of August 1897.

Any objection or suggestion which may be received from any person with respect to the draft before the date fixed as aforesaid, will be taken into consideration by the Governor-General in Council.

DRAFT RULES.

Definitions.

1. In these rules,—

(*a*) the expression "bazar" means any land set apart for occupation by natives of India, except the lines of native troops;

(*b*) the expression "regimental bazar" means any bazar under the management of regimental authorities;

(*c*) the expression "infectious or contagious disorder" includes cholera, leprosy, enteric fever, venereal disease and every infectious or contagious disorder;

(*d*) the expression "owner" includes the person for the time being receiving the rent of lands and buildings, or either of them, whether on his own account or as agent or trustee for any person or society or for any religious or charitable purpose, or who would so receive the same if the land or building were let to a tenant; and

(*e*) the expression "street" includes any way, road, lane, square, court, alley, passage or open space, whether a thoroughfare or not and whether built upon or not, over which the public have a right of way, and also the roadway and footway over any public bridge or causeway.

Information to be given of existence of infectious or contagious disorder.

2. Whoever,—

(*a*) being a medical practitioner, in the course of practice, becomes cognizant of the existence of any infectious or contagious disorder in any dwelling, other than a public hospital or dispensary, in the cantonment, or, in default of such medical practitioner,

(*b*) being the owner or occupier of such dwelling, is cognizant of the existence of any infectious or contagious disorder therein, or, in default of such owner or occupier,

(*c*) being the person in charge of, or in attendance on, any person suffering from any infectious or contagious disorder in such dwelling, is cognizant of the existence of such disorder therein,

shall be bound to give information to the Cantonment Authority respecting the existence of such disorder:

Provided that a person not required to give information in the first instance, but only in default of some other person, shall not be held to be bound to give information under this rule if it is shown that he had reasonable cause to suppose that the information had been, or would be, duly given.

Hospitals or dispensaries.

3. (*1*) So far as the funds at its disposal permit, the Cantonment Authority may—

(*a*) provide and maintain, either within or without the cantonment, as many hospitals or dispensaries as may be necessary; or

(*b*) make upon such terms as it thinks fit to impose, a grant-in-aid to any hospital or dispensary, whether within or without the cantonment, not maintained by it.

(*2*) Every hospital or dispensary maintained or aided under this rule shall have attached to it a ward or wards for the treatment of persons suffering from infectious or contagious disorders.

Medical officer to be in charge of hospital or dispensary.

4. A medical officer to be appointed in such manner as the Local Government may direct, shall be in charge of every hospital or dispensary maintained or aided under rule 3.

5. Subject to the control over the Cantonment Fund which is vested in the Local Government by section 23 of the Cantonments Act, 1889, there shall be appointed, for every hospital or dispensary maintained or aided under rule 3, such subordinate establishment as may be necessary. XIII of 1889

Subordinate establishments for hospitals or dispensaries.

6. So far as the funds at its disposal permit, the Cantonment Authority shall cause every hospital or dispensary maintained or aided under rule 3 to be provided with—

Medical supplies, appliances, etc.

(*a*) all necessary drugs, instruments, apparatus, furniture and appliances;

(*b*) sufficient cots, bedding and clothing for in-patients; and

(*c*) such further requisites as may be necessary.

7. Every hospital or dispensary maintained or aided under rule 3 shall be maintained in accordance with the rules made generally or specially by the Governor-General in Council, or the Local Government for the conduct of hospitals and dispensaries, or in accordance with the said rules modified in such manner as the Governor-General in Council or the Local Government may think proper.

Application of civil hospital rules.

8. At every hospital or dispensary maintained or aided under rule 3, the sick poor of the cantonment, persons in the cantonment suffering from infectious or contagious disorders and, with the sanction of the Cantonment Authority, any other sick persons may receive medical treatment free of cost, and, if treated as in-patients, shall be either dieted gratuitously or, should the medical officer in charge so direct, granted subsistence allowance on a scale to be determined by the Cantonment Authority:

Free patients.

Provided that the subsistence allowance granted as aforesaid shall not be less than the lowest allowance for the time being fixed for the subsistence of judgment-debtors by the Local Government under section 338 of the Code of Civil Procedure. XIV of 1882.

9. Any sick person who is ineligible under the last foregoing rule to receive medical treatment free of cost in any hospital or dispensary maintained or aided under rule 3, may, upon such terms as the Cantonment Authority thinks fit to impose, be admitted to treatment in such hospital or dispensary.

Paying patients.

10. If the medical officer in charge of a hospital or dispensary maintained or aided under rule 3, has *primâ facie* grounds for believing that any person living in the cantonment is suffering from an infectious or contagious disorder, he may, by notice in writing in the form set forth in the schedule or in any similar form, call upon such person to attend at the hospital or dispensary at a time to be specified in the notice, and not to quit it without the permission of the medical officer in charge unless and until such medical officer is satisfied, by examination, if necessary, that such person is not in fact suffering, or is no longer suffering from such disorder:

Power to call upon person suffering from infectious or contagious disorder to attend and remain in the hospital or dispensary.

Provided that, if, having regard to the nature of the disorder, or the condition of the person suffering therefrom, or the general environment and circumstances of such person, the medical officer considers the attendance of such person at the hospital or dispensary inexpedient, he may dispense with such attendance and take such measures or give such directions as to him seem fit and proper.

11. If the medical officer in charge of a hospital or dispensary maintained or aided under rule 3 reports in writing to the Commanding Officer of the cantonment that any person having received a notice as provided in rule 10 has refused or omitted to attend at the hospital or dispensary, or that such person having attended at the hospital or dispensary, has quitted it without the permission of such medical officer, the Commanding Officer may, if he thinks it expedient, by order in writing, direct such person to remove from the cantonment within twenty-four hours and prohibit such person from remaining longer in, or re-entering, it without his written permission.

Power to exclude from cantonment.

12. The Cantonment Authority may, by notice in writing, prohibit—

Removal of brothels or prostitutes.

(*a*) the keeping of a brothel, or

(*b*) the residence of a public prostitute in the cantonment or in any specified part thereof.

13. No public prostitute shall be permitted to reside within the limits of any regimental bazar situate in the cantonment.

Exclusion of public prostitutes from regimental bazars.

14. No person shall, in any street or public place within the limits of the cantonment, loiter for the purpose of prostitution or importune any person to the commission of sexual immorality:

Loitering or importuning for sexual immorality prohibited.

Provided that no person shall be charged with a breach of this rule except on the compliant of the person importuned or of a member of the British military police-force employed

n the cantonment and specially authorised in this behalf by the Commanding Officer of he cantonment, or of an officer as defined in the Cantonments Act, 1889. XIII of 1889.

Penalties.

15. (*1*) Whoever, being bound by rule 2 to give information to the Cantonment Authority respecting the existence of an infectious or contagious disorder, fails to give information or gives false information, shall be punishable with fine which may extend to fifty rupees.

Penalties.

(*2*) Whoever,—

(*a*) having, under rule 11, been prohibited from remaining in, or re-entering, the cantonment, remains in, or re-enters, it without the written permission of the Commanding Officer; or

(*b*) fails to comply with a notice under rule 12; or

(*c*) commits a breach of rule 14;

shall be punishable with fine, which may extend to fifty rupees, or with imprisonment for a term which may extend to eight days.

16. Any member of the police-force employed in the cantonment may arrest without a warrant, any person committing, or charged with having committed, an offence punishable under clause (2) (*a*) or clause (2) (*c*) of the last foregoing rule:

Arrest without warrant.

Provided as follows:—

(*i*) no person shall be so arrested whose name and address are known to either the complainant or the arresting officer;

(*ii*) no person shall be so arrested who consents to give his or her name and address, unless there is reasonable ground for doubting the accuracy of the name or address so given, the burden of proof of which shall be on the arresting officer;

(*iii*) no person so arrested shall be detained after his or her name and address have been ascertained;

(*iv*) no person so arrested shall, except under the order of a Magistrate, be detained longer than may be necessary for bringing him or her before a Magistrate; and

(*v*) no person shall be so arrested for a breach of rule 14 except—

(*a*) at the request of the person importuned or of an officer as defined in the Cantonments Act, 1889, in whose presence the breach was committed; or XIII of 1889.

(*b*) by, or at the request of, a member of the British military police-force employed in the cantonment and specially authorised in this behalf by the Commanding Officer of the cantonment, in whose presence the breach was committed.

THE SECOND SCHEDULE ABOVE REFERRED TO—

(1) The endowment hereby created shall be called, after the donor's name, "The Iswar Chandra Charitable Dispensary at Amragori," and its object is and shall be the establishment and maintenance of the said charitable dispensary in the aforesaid village of Amragori.

(2) The Trustees to be appointed under section 5 (1) of Act VI of 1890 to administer the trust shall be a Committee consisting of not less than five and not more than nine members, on whom only and none else the management of the charitable dispensary shall exclusively devolve.

(3) The members of such Committee shall ordinarily be selected from the inhabitants of thana Amta; but if there be any difficulty in obtaining the requisite number of persons competent and willing to serve on the Committee from among the inhabitants of the said thana, the full complement shall be made up by selection from the inhabitants of the subdivision of Ulubaria.

(4) The Subdivisional Officer for the time being of Ulubaria shall be asked to be a member of the Committee, and if he accepts office, he shall preside at all meetings of the Committee. If he be not a member of the Committee or present at any meeting, the members present shall elect their Chairman.

(5) The District Board of Howrah, in consultation with the donor, Babu Iswar Chandra Hazra, during his lifetime, shall select and remove the other members of the Committee. In case of any difference between the donor and the District Board the decision of the Commissioner of the Division shall be final. After the death of the donor the duty imposed by this paragraph shall devolve on the District Board alone.

(6) If any member shall absent himself without reasonable ground from six consecutive meetings, the District Board may by resolution remove him, and may appoint a new member in his place. The procedure laid down in paragraph 5 as regards consultation with the donor as well as the provision made therein for any difference between the donor and the District Board shall apply in this case also.

(7) The members shall appoint one of their number to be Honorary Secretary to the dispensary to keep the accounts and conduct all correspondence on behalf of the Committee.

(8) The Committee, with the approval of the District Board, may make rules for the proper management of the dispensary and may hold meetings for the despatch of business at such times and places and may adjourn and otherwise regulate such meetings as they think fit and determine the quorum necessary for the transaction of business, but they shall at all times conform to and abide by any rules relating to the administration of endowments under

the Charitable Endowments Act, 1890, which the Governor-General in Council, in exercise of the powers conferred by section 13 of that Act, may from time to time see fit to make. Questions arising at any meeting shall be determined by a majority of votes, and in case of an equality of votes, the President of the meeting shall have a second or casting vote.

(9) The duties of the Committee shall be as follows:—

They shall appropriate and apply the interest of the said Government securities for Rs. 12,000, which shall be paid to them by the Treasurer of the Charitable Endowments for the territories subject to the Government of Bengal as and when the same accrues together with such sum or sums as may be allotted and paid by the District Board of Howrah to the expenditure noted on the margin, or such other scale of expenditure as the said District Board may from time to time approve for the management of the dispensary.

Collector's Office, Puri, the 15th July 1897.

W. H. LEE, Officiating Collector.

REVISED BYE-LAWS.

1. Every new cow-house, cattle-shed and stable constructed on a new site, and every extension of an existing cow-house, cattle-shed and stable to a new site, shall be a detached building, and not within 15 feet of any other inhabited building, and shall be provided with a paved passage behind the manger at least 2 feet in width.

2. Before beginning to build, the sanction of the Commissioners shall be obtained, and with the application a plan of the premises and sections of the building in which it is proposed to carry on the business shall be sent in for approval, and the plan shall show the provision made or proposed to be made for the drainage, lighting, ventilation and water-supply of the same, and shall also furnish a site plan of the locality showing the buildings and streets within 40 feet of the premises.

3. Every cow-house, cattle-shed and stable or building in which an animal is kept shall be subject to section 335, and be properly lighted and ventilated by the owner to the satisfaction of the Commissioners.

4. Every cow-house, cattle-shed, stable or building, etc., shall be well paved by the owner with asphalte, iron, stone or bricks-on-edge with cement-pointing, flag-stones set in cement, or other suitable impermeable material, and shall have a channel or gutter sloping towards a gully or cess-pool which shall be situated outside the shed.

5. Every cow-shed, etc., shall be provided by the owner with an adequate supply of filtered water. If a cistern is used, it shall be situated outside the shed, and its waste-pipe shall terminate in the open air and be cut off from all direct communication with the drains.

6. No wells shall be allowed on the cow-shed premises.

7. Every shed shall be provided on the outside but protected from the rain with an iron bin or other suitable receptacle for keeping dung or other refuse. All cow-dung retained for the preparation of cakes shall be kept in this receptacle, and not allowed to accumulate on the ground.

8. Every person occupying a cow-shed shall keep in it only such number of cows as shall be specified in his license. The space for each cow shall not be less than 600 cubic feet in the case of country cows, and 600 cubic feet for cows imported from the North-Western Provinces and other places, and for buffaloes. In all cases the actual measurements of the sheds shall be taken as the basis of calculation for cubic space; provided that no height of the shed in excess of 15 feet shall be taken into account in estimating the cubic space. The stalls for single cows shall not be less than 4 feet in width, and a double stall for cows shall not be less than 7 feet 6 inches in width. The stall-partitions, if any, shall not extend in front line of the manger and shall leave a clear open space above the manger.

9. Every shed shall be kept clean to the satisfaction of the Commissioners.

10. Every cow-shed, etc., shall be thoroughly flushed and cleansed twice a day; the first time before 7 A.M. each day.

11. Every person occupying a cow-shed shall cause all dung manure to be removed daily in a properly constructed vehicle before 7 A.M.

N. B.—A person who has paid his trade-refuse fees shall be held to have discharged his liability under this bye-law.

12. No person occupying a cow-shed shall allow it to be used for any purpose other than that for which it is licensed, or shall keep or permit to be kept therein any fowl or any pig.

13. Every person occupying a cow-shed shall give notice in writing within 24 hours to the Inspector of the ward in which the cow-house, etc., is situated of the existence of any contagious or infectious or dangerous disease, amongst his cows.

14. These bye-laws shall not, except in special cases, apply to any cow-house in which less than five cows are kept without the express orders of the Commissioners.

15. Every license-holder shall be bound to keep hung up in a conspicuous place in his cow-shed such license and to show it to any legally authorized person requiring its production.

Rule 16.—"Every person occupying a cow-shed shall give notice in writing within 24 hours to the Inspector of the ward in which the cow-house, etc., is situated of the existence of any contagious or infectious or dangerous disease amongst his cows, and shall destroy or allow to be destroyed all milk in his cow-shed which there shall be reason to think has been liable to contamination. The Inspector of the ward, on receiving information of the existence of any contagious or infectious disease in any cow-house, shall give intimation of the fact to the Police Inspector of the section for the purpose of segregating the diseased animals; it shall be the duty of the person occupying the cow-shed to get the cow-house cleansed, disinfected and lime-washed."

Rule 17.—"No person suffering from any loathsome, contagious or infectious disease shall live in or enter any cow-house in which milch cows or milch buffaloes are kept or shall take any part in the conduct of the trade or business of cow-keeper or purveyor of milk; and every person affected with such disease in any cow-house shall remove or shall be removed immediately therefrom, and the part of the cow-house in which the sick person shall have been shall be thoroughly cleansed, disinfected and lime-washed."

সংশোধিত উপবিধি।

১। কোন নূতন জায়গায় প্রস্তুত করা প্রত্যেক নূতন গোয়ালঘর, গোমহিষাদির চালা ও আস্তাবল এবং যে গোয়ালঘর, গোমহিষাদির চালা ও আস্তাবল এক্ষণে আছে তাহার প্রত্যেকের কোন নূতন জায়গা পর্য্যন্ত বাড়ান স্বতন্ত্র বিল্‌ডিং হইবে এবং অন্য যে বিলডিঙ্গে লোক আছে তাহার ১৫ ফুটের মধ্যে হইবে না এবং তাহাতে গোমহিষাদির জাব খাইবার যে পাত্র থাকে তাহার পশ্চাদ্দিকে অন্ততঃ ২ ফুট চওড়া পাকা পথ করিয়া দিতে হইবে।

২। প্রস্তুত করিতে আরম্ভ করিবার পূর্ব্বে কমিশনরদের মঞ্জুরি লইতে হইবে। যে প্রেমিসে এবং যে বিল্‌ডিঙ্গে কার্য্য চালান হইবে দরখাস্তের সহিত সেই প্রেমিসের এবং সেই বিল্‌ডিঙ্গের সেকশনের এক খানি নক্‌শা অনুমোদনের নিমিত্ত পাঠাইতে হইবে, এবং তাহার জল নিকাশের, আলোর, বাতাস খেলিবার ও জল সরবরাহের যে বিধান করা হয় বা বিধান করিবার প্রস্তাব করা হয় ঐ নক্‌শায় তাহা দেখাইতে হইবে এবং উহাতে ঐ পল্লীরও নক্‌শা দিতে হইবে। ঐ প্রেমিসহইতে ৪০ ফুটের মধ্যে যে সমস্ত বিলডিং ও ষ্ট্রীট আছে পল্লীর নক্‌শায় তাহা দেখাইতে হইবে।

৩। যে গোয়ালঘরে, গোমহিষাদির চালায় ও আস্তাবলে কিম্বা বিল্‌ডিঙে কোন জন্তু রাখা যায় তাহা ৩৩৫ ধারার নিয়মাধীন হইবে ও কমিশনরদের সন্তোষজনক হয় মালিক তাহাতে আলোর ও বাতাস খেলিবার এরূপ উপযুক্ত উপায় করিয়া দিবে।

৪। মালিক প্রত্যেক গোয়ালঘর, গোমহিষাদির চালা, আস্তাবল বা বিলডিং প্রভৃতির মেজে আস্কাল্ট, লোহা, পাতর কিম্বা ইট দিয়া খাদরি করিয়া সীমেণ্ট দিয়া তাহার বাইন মারিয়া, সীমেণ্টে ফ্লাগ ষ্টোন বসাইয়া কিম্বা যাহাতে জল প্রবেশ করিতে পারে না এমন কোন উপযুক্ত দ্রব্য দিয়া ভাল করিয়া পাকা করাইয়া দিবে এবং ময়লার গর্ত্তের দিকে গড়ানিয়া নালা করাইবে ঐ ময়লার গর্ত্ত চালার বাহিরে থাকিবে।

৫। মালিক প্রত্যেক গোয়ালঘর প্রভৃতিতে যথেষ্ট পরিষ্কৃত জল যোগাইবে। জলাধার বা ট্যাঙ্ক রাখা হইলে তাহা চালার বাহিরে থাকিবে এবং তাহার ওয়েষ্ট পাইপ ফাঁকায় শেষ হইবে ও সাক্ষাৎ সম্বন্ধে ড্রেনের সহিত তাহার যোগ থাকিবে না।

৬। গোয়ালবাড়ির প্রেমিসে পাতকুয়া করিতে দেওয়া হইবে না।

৭। প্রত্যেক চালার বাহিরে যে খানে বৃষ্টির জল না পড়িতে পায় এমন স্থানে গোবর বা অন্য আবর্জনা রাখিবার জন্যে লোহার বিন্ বা অন্য উপযুক্ত পাত্র রাখাইয়া দিতে হইবে। ঘুঁটে করিবার জন্যে যত গোবর রাখা হয় তাহা এই পাত্রে রাখিতে হইবে, মাটিতে জমা করিতে দেওয়া হইবে না।

৮। গরুর চালার দখীলকারের লাইসেন্সে যত গরুর কথা লেখা থাকে সে তথায় কেবল ততগুলি গরু রাখিবে। দেশী গরু হইলে এক একটা গরু থাকিবার স্থান ৫০০ ঘন ফুটের কম হইবে না এবং উত্তর পশ্চিম-প্রদেশ বা অন্যান্য স্থানহইতে আনীত প্রত্যেক গরুর স্থান ও প্রত্যেক মহিষের স্থান ৬০০ ঘন ফুটের কম হইবে না। সকল স্থলেই চালার প্রকৃত পরিমাণ ধরিয়া ঘনফুটের হিসাব করিতে হইবে। কিন্তু ঘন ফুট হিসাব করিবার সময় চালার ১৫ ফুটের অধিক যে উচ্চতা থাকে তাহা ধরা যাইবে না। এক একটা গরুর থাকিবার স্থান ৪ ফুটের কম প্রশস্ত হইবে না, ও যোড়া গরু থাকিবার স্থান ৭ ফুট ৬ ইঞ্চির কম হইবে না। থাকিবার স্থানের বিভাগ থাকিলে তাহা জাব খাইবার পাত্রের সম্মুখ লাইনে থাকিবে না এবং জাব খাইবার পাত্রের উপর খানিকটা খোলা থাকিবে।

৯। প্রত্যেক চালা কমিশনরদের সন্তোষজনকরূপে পরিষ্কার রাখিতে হইবে।

১০। প্রত্যেক গরুর চালা প্রভৃতি দিনে দুইবার ভাল করিয়া ধুইতে ও পরিষ্কার করিতে হইবে। প্রতিদিন সকালে ৭ টার পূর্ব্বে প্রথমবার ধুইতে ও পরিষ্কার করিতে হইবে।

১১। গরুর চালার প্রত্যেক দখীলকার উপযুক্তরূপে প্রস্তুত করা গাড়িতে প্রতিদিন সকালে ৭ টার পূর্ব্বে সমস্ত গোবরের সার স্থানান্তর করাইবে।

মন্তব্য—যে ব্যক্তি আবর্জনা ফেলিবার ফী দিয়াছে এই উপবিধিমতে তাহার আর দায়িত্ব থাকিবে না এইরূপ বিবেচনা করা যাইবে।

১২। যে জন্য গরুর চালার লাইসেন্স দেওয়া হয় ঐ চালার দখীলকার তাহা ভিন্ন অন্য কোন কাজের জন্য উহা ব্যবহার করিতে দিবে না। এবং সেই দখীলকার তথায় কুক্কুটাদি পক্ষী কিম্বা শূকর শাবক রাখিবে না এবং রাখিতে দিবে না।

১৩। গরুর মধ্যে কোন সংক্রামক বা স্পর্শাক্রামক বা সঙ্কটজনক রোগ উপস্থিত হইলে যে ওয়ার্ডে গরুর চালা প্রভৃতি থাকে, চালার দখীলকার সেই ওয়ার্ডের ইনস্পেক্টরের নিকট ২৪ ঘণ্টার মধ্যে তাহার লিখিত নোটিস দিবে।

১৪। যে গোয়াল ঘরে ৫টা গরুর কম গরু রাখা হয় বিশেষ বিশেষ কারণ ছাড়া অন্য কারণে কমিশনরদিগের স্পষ্ট আদেশ ব্যতীত সেই গোয়ালঘর সম্বন্ধে এই সকল উপবিধি খাটিবে না।

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, and on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 8th July, 1897:

NO. 11 OF 1897.

A Bill to repeal the Cantonments Act Amendment Act, 1895, and to amend the Cantonments Act, 1889.

WHEREAS it is expedient to repeal the Cantonments Act Amendment Act, 1895, and to amend the Cantonments Act, 1889: It is hereby enacted as follows: XIII of

1. (1) This Act may be called the Cantonments Act, 1897, and

Title and commencement.

(2) It shall come into force at once.

Repeal of Act V of 1895.

2. The Cantonments Act Amendment Act, 1895, is hereby repealed.

Amendment of section 31 of Act XIII of 1889.

3. In section 31 of the Cantonments Act, 1889, for the words "a commanding officer" the words "a commanding, medical or other officer" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The second and third are the operative clauses in this Bill. The second clause proposes to repeal Act V of 1895, which imposed restrictions on the rule-making power conferred by section 26 of the Cantonments Act, 1889 (XIII of 1889). The removal of these restrictions will restore to the Governor General in Council the power to make rules to check the spread of venereal diseases in cantonments, and will give him the same powers in respect of venereal diseases that he has in the case of other contagious and infectious disorders.

The third clause merely extends to medical and other officers, the same protection in the performance of their duties as is already given to cantonment authorities and commanding officers.

The 7th July, 1897.

M. D. CHALMERS.

J. M. MACPHERSON,

Secretary to the Government of India.

A newly discovered reef.

THE President, Marine Board, Port Adelaide, has given notice (No. 3 of 1897) that a reef, on which the sea breaks only occasionally, and which is not marked on the Admiralty charts, exists in lat. 34° 51′ S., long 136° 14′ 30″ E., the highest part of dangerous reef bearing N.W., cor. mag., distance two and a half miles therefrom.

The reef in question extends east and west three-quarters of a mile and north and south a quarter of a mile, with less than five fathoms of water, shoaling in the centre where the sea occasionally breaks heavily to not more than 7ft. L.W.S.

This notice affects chart No. 2389B.

Ocean Ranger reef.

THE following Notice to Mariners (No. 310 of 1897) issued by the British Admiralty is republished :—

With reference to Notice to Mariners, No. 110 of 1892, on a dangerous reef reported by the Master of the barquentine *Ocean Ranger*, situated in lat. 18° 44′ S., long. 157° 2′ E., and on which the sea was observed to break heavily :—

H.M. Surveying-vessel *Penguin* searched for this supposed danger in 1894, and discovered a bank of from 800 to 1,000 fathoms in depth situated between the parallels of 18° 48′ and 19° 5′ South latitude, and the meridians of 156° 40′ and 157° 3′ East longtitude, and with depths of from 1,500 to 1,800 fathoms around, but no shallower soundings could be obtained.

During the search, and whilst obtaining a sounding of 1,713 fathoms, a considerable tide rip was observed extending about 3 miles in a north and south direction, which might have been mistaken for breakers, and some such phenomenon probably was the origin of the report made by the Master of the *Ocean Ranger*.

In order to further investigate the matter, some inquiries respecting the original report were addressed to the Master of the *Ocean Ranger* through the Marine Department at Wellington, New Zealand, but a reply has been received that Mr. Goodman, the Master of the vessel in 1892, has died, and that the log books cannot be found.

Viewing all the circumstances of the case, and considering that such a tide rip as seen from the *Penguin* may have been reported as a danger by the *Ocean Ranger*, and further, that no soundings were taken or other attempt made to verify the existence of this supposed danger, it is considered not to exist, and has, consequently, been expunged from the Admiralty charts.

RESOLUTION ON THE ANNUAL REPORT ON EMIGRATION FROM THE PORT OF CALCUTTA TO BRITISH AND FOREIGN COLONIES FOR THE YEAR 1896.

GENERAL DEPARTMENT.—EMIGRATION.

Calcutta, the 17th July 1897.

RESOLUTION—No. 1933.

READ—

The Annual Report on Emigration from the Port of Calcutta to British and Foreign Colonies for the year 1896.

During the year 1896 the appointment of Protector of Emigrants was held by Dr. R. Macleod from 1st January to 17th September, by Dr. W. Forsyth from 18th September to 29th October, and again by Dr. R. Macleod from 30th October to the end of the year.

Requisition and despatch of labourers.

2. There were 6 agencies at work during the year against 7 in 1895, Jamaica taking no coolies in 1896. The number of labourers requisitioned by the Colonies was less by 711 than the number in the previous year, but the supply during the year under report exceeded the demand by 835 as against an excess of 489 in 1895. It will appear from the following table that, for Mauritius and Natal, the supply exceeded the demand, for Demerara, Trinidad and Fiji the supply fell short of the demand, and for

Surinam the exact number required was supplied, whereas in the previous year the supply to Demerara, Mauritius and Fiji exceeded the demand:—

Name of Colony.	1895.		1896.	
	Indent.	Supply.	Indent.	Supply.
1	2	3	4	5
Demerara	1,840	2,282½	2,276	2,250
Trinidad	2,000	1,993	3,000	2,841½
Jamaica	460	446	Nil	Nil.
Mauritius	330	964	400	546½
Natal	1,900	1,431	815	1,725½
Fiji	1,340	1,341½	1,166	1,128½
Surinam	1,617	1,518½	1,119	1,119
Total ...	9,487	9,976½	8,776	9,611

(*N.B.*—Two children under 10 years of age are reckoned as one adult.)

The Protector observes that the requisition from Mauritius had reference only to male emigrants, and that the number despatched to that Colony includes women and children, of whom there were 133 and 27, respectively.

Terms of engagement of intending emigrants.

4. Except for Natal, the terms on which emigrants were engaged for the six Colonies were the same as in 1895. The alteration in the terms as regards Natal had reference to return passages and to the emigrants' stay in the Colony after termination of indenture or re-indenture. It is now provided that free passages will be granted at the end of a five years' residence instead of at the end of ten years, as was formerly the case, and further that emigrants, deciding to remain in the Colony after a service of five years, must take out yearly licenses at an annual fee of £3 sterling.

Recruiting operations.

5. There were 755 licenses granted, against 838 in the previous year. Of the licenses granted, 12 were cancelled on account of misconduct on the part of the recruiters, against 13 in 1895. The number of emigrants registered was 16,439, against 17,315 in the previous year, the average, excluding transfers from other depôts, being 21 per recruiter, or about the same as in the preceding year. Of the number of emigrants registered, 1,022, or 6·21 per cent., were recruited in Bengal; 1,997, or 12·4 per cent., in Bihar; 9,576, or 58·25 per cent., in the North-Western Provinces; and 3,844, or 23·38 per cent., in Oudh, the percentages in the previous year being 6·43, 11·42, 59·02, and 23·10, respectively. As in previous years, the largest number were recruited in the North-Western Provinces and the smallest in Bengal. Among districts, Fyzabad and Basti supplied the largest number of recruitments, Shahabad being third. Only 160 persons (all from Saran) were recruited in North Bihar.

Classified according to the place of birth, it appears that 60 per cent. of the total number of persons registered were natives of the North-Western Provinces and 31 per cent. of Oudh, against 58 and 32 per cent., respectively, in the previous year, Basti being the birth-place of the largest number; 7 per cent. were natives of Bengal and Bihar, against 6 per cent. in 1895, Shahabad again taking the lead; and 2 per cent. were of other Provinces, Native States and other countries. None of the 813 emigrants registered in the 24-Parganas were natives of that district.

History of intending emigrants subsequent to registration.

6. There were 118 emigrants remaining at sub-depôts at the end of 1895, 16,439 were registered in the year under report, and one infant was born, so that a total of 16,558 has to be accounted for. Of this number, 2,611, or 15·76 per cent., were rejected as unfit before despatch to the Calcutta depôts, against 2,176, or 12·28 per cent., in the previous year. This rise in the

percentage of rejections may, it is hoped, be ascribed to more careful medical inspection in the mufassal: 9 died, 1,443 deserted or were otherwise accounted for before starting for Calcutta, 394 are unaccounted for, 176 remained in the sub-depôts at the close of the year and 11,925 were despatched. On the journey to Calcutta there were 2 deaths and 39 other casualties; thus 11,884, or 71·77 per cent., actually arrived at their destination in Calcutta, against 13,104, or 73·96 per cent., in the previous year.

There were 12,796 emigrants accommodated in the depôts, including 2 orphans of returned emigrants, 55 re-admitted from outside hospitals, 824 remaining over from the previous year, and 31 infants born in depôts. Of these, 1,145, or 8·94 per cent., were rejected as unfit, against 1,516 or 10·39 per cent. in 1895, 33 died, 133 deserted and 1,033 were discharged for various reasons. The total number despatched to the Colonies was, therefore, 10,176, or 79·52 per cent., against 73·28 per cent. in 1895, leaving 276 in the Natal depôt at the end of the year for subsequent disposal. Out of the whole number embarked, 9,260 were Mussulmans, and the rest Hindus.

It is satisfactory to note the reduction in the number of rejections made in Calcutta on account of unfitness for despatch to the Colonies. In last year's Resolution the attention of the Protector was drawn to the large number of these rejections; and he was directed to report to what extent he had awarded compensation under section 50 of Act XXI of 1883 to persons so rejected, and what amounts had been expended in returning them to their homes. Dr. MacLeod reported on these points in July 1896; and it was found that the rates of compensation and diet-money awarded were inadequate. The Protector was desired to make more use of the powers given him by the section; and he has since reported that the rates have been raised as follows, from 1st November last;—for a single man from Rs. 3 to Rs. 4, for a man and wife from Rs. 5 to Rs. 7, and for a dependant from annas 8 to annas 12. For the purposes of awarding diet-money, infants over 10 years of age are now reckoned as adults. The Officiating Lieutenant-Governor observes, however, that there is room for further improvement in this direction, and that the provisions of section 50 should be strictly enforced.

Sanitation and management of depôts.

7. The total number of emigrants admitted into hospitals was 744, and the total number of deaths 33, against 582 cases and 41 deaths in the previous year, the percentages being 5·81 and 0·25, against 3·99 and 0·28, respectively. The following table shows the admissions into hospital and number of deaths as compared with the three previous years:—

Years.	Total strength.	Admission into hospital.	Percentage of total strength.	Number of deaths.	Percentage of deaths to total strength.
1	2	3	4	5	6
1893	13,220	359	2·71	14	·10
1894	21,181	824	3·89	109	·51
1895	14,584	582	3·99	41	·28
1896	12,796	744	5·81	33	·25

The chief causes of sickness were (1) malarial fever, (2) dysentery and diarrhœa, (3) measles, and (4) chest complaints. Now that a pure water-supply has been introduced in all the depôts, cholera is not met with in epidemic form. Nine cases, however, occurred during the year, of which three terminated fatally, as against three cases with two deaths in 1895. There were no cases of small-pox, but of chicken-pox there were 16 cases with 1 death.

Embarkation of emigrants.

8. The number of emigrants who embarked for the several Colonies was 10,176, as already stated. As in the previous year, 19 vessels were employed to convey the emigrants, of which 13 were sailing vessels and 6 steamers, the average number

carried on each being 535, against 562 in the previous year. The duration of the passage, so far as has been ascertained, varied from 19 days, the shortest voyage, to Mauritius, to 100 days, the longest, to Demerara. The Protector reports that the documents relating to five of the vessels had not come to hand. Of the 14 vessels, the documents regarding which had been received, the average mortality on the voyage amounted to 78, or 1·09 per cent. of the number embarked, against 119, or 1·11 per cent., on the 19 voyages in 1895. The mortality was largely due to measles, which broke out in an epidemic form in the ships *Lena*, *Brenda*, *Ems*, and *Mersey*. The mortality on the ship *Erne*, bound to Fiji, was mainly due to cholera: 8 out of the 11 cases of cholera reported on this voyage ended fatally. No vessel had to be detained on account of epidemic disease.

Returned emigrants.

9. The number of emigrants who returned was 3,297, against 6,514 in 1895: 4 sailing ships and 5 steamers were employed to convey them, against 8 sailing ships and 10 steamers in the previous year, the average number carried on each vessel being 366, against 361 in 1895, and the longest duration of the voyage being 168 days from Demerara, and the shortest 21 days from Mauritius.

There were 75 deaths on the return passage, including one infant out of the 15 born on the voyage, or 2·26 per cent. of the total number embarked, against 130 or 1·98 embarked in the previous year. The largest mortality is said to have occurred on the ships *Elbe* and *May*, being 32 and 17, respectively, the mortality in the former being principally due to a severe outbreak of fever.

Among the returned emigrants there were 19 lepers, of whom 7 came from Demerara, 6 from Mauritius, 4 from Natal and 2 from Fiji. It was impossible to say whether the affected coolies had contracted the disease in the Colonies or not; but the Medical Inspector states that no intending emigrant suffering from leprosy in a condition sufficiently developed to be recognizable was allowed to leave India for the Colonies in 1896.

There were 6 Colonies that returned emigrants to India, against 10 in 1895, and the aggregate ascertained savings amounted to Rs. 5,74,882-9-3, against Rs. 13,38,683-4 in the previous year, or an average of Rs. 174-5-10 per emigrant embarked, against Rs. 205-8-1 in 1895. The largest average savings per head were those of the returned emigrants from Trinidad, and amounted to Rs. 224-2-3 per head, and as in the previous year, the smallest, Rs. 33-4-5, were those of the returned emigrants from the French Colonies.

Administration of estates.

10. The total number of estates under administration was 378, valued at Rs. 70,876-8-9, against 434, valued at Rs. 84,028-8-4 in 1895. Of the 378 estates under administration, 131, valued at Rs. 30,366-6-11, were finally administered, the sum of Rs. 28,028-8-11 having been paid to heirs in respect of 106 estates, and the sum of Rs. 2,337-14, standing at the credit of the remaining 25 estates, having lapsed to the Indian and Colonial Governments concerned owing, in some cases, to absence of heirs, and in others to inability to trace them. Besides the final disposal of the foregoing 131 estates heirs were traced in respect of 75 estates, valued at Rs. 17,196-3-11, and were in course of payment, so that the enquiries for heirs were completed in 206 estates, or 54·49 per cent. of the total number under administration, against 267, or 61·52 per cent., in 1895. The remaining 172 estates, valued at Rs. 23,313-13-11, were still under enquiry.

The irregularities mentioned in paragraphs 61 and 62 of the Report under review regarding the disposal of the estates of deceased emigrants in the case of Mauritius will be separately dealt with.

Financial.

11. The calendar year 1896 closed with a credit balance of Rs. 1,228-3-5, against a closing balance of Rs. 1,066-13-9 in the previous year. The receipts amounted to Rs. 31,077, and the charges to Rs. 29,848-12-7, and were less by Rs. 34 and Rs. 195-5-8, respectively, than in the previous year.

STATISTICS OF THE SEA-BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

No. 1772 Statistics.—The following memorandum and statements are published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 20th July 1897.

Memorandum.

The sea-borne import and export traffic of Calcutta in food-grains during the week ending 7th July 1896, and the corresponding period of 1897, is shown in the following statement:—

Imports.—During the week under report 150,375 cwts. of rice were imported against only 3,013 cwts. in the corresponding week of 1896. The contribution from Burma amounted to 112,270 cwts., from Chandbali to 23,113 cwts., and from the Straits Settlements to 13,166 cwts., against nil in the corresponding period of last year. Practically the whole of the paddy imported came from Burma and Balasore. Gram and pulses were chiefly imported from Rangoon and Chandbali, and miscellaneous food-grains from the Madras Presidency.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the week ending 7th July 1897 is compared with the figures for the corresponding period of 1896 :—

	1st to 7th July

Foreign Ports.

The exports of rice from Calcutta to foreign ports declined from 103,329 cwts. in the first week of July 1896 to 58,777 cwts. in the period under report. During the week ending 7th July 1896, Trinidad took 19,738 cwts., while in the week under report, nothing was sent to that port; the falling off in the exports to Demerara was 29,009 cwts., and in those to Ceylon 9,374 cwts. in comparison with the corresponding week of last year. An increase, however, occurred in the shipment to the United Kingdom, viz., 22,144 cwts. against 15,038 cwts., and 4,596 cwts. were shipped for Natal, which received nothing in the corresponding week of 1896. The trade in gram and pulses shows a decrease of 3,027 cwts. in the quantity sent to the United Kingdom.

Indian Ports.

As regards Indian ports, the exports of rice to Bombay showed a decrease of 3,182 cwts. compared with the corresponding week of last year. No wheat was despatched to Rangoon, but in the week ending 7th July 1896, 4,738 cwts. were sent to that port. Under gram and pulses, Madras is shown to have received only 162 cwts., against 1,856 cwts. in the corresponding period of last year.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

CONSOLIDATED PROVINCIAL STATEMENTS OF FOOD-GRAIN TRAFFIC OF THE LOWER PROVINCES.

No. 1778 Statistics.—The following memorandum and statements are published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT;
The 20th July 1897.

MEMORANDUM.

IN the *Calcutta Gazette* of the 19th May 1897, consolidated provincial statements were published for the month of January 1897, showing the traffic in food-grains in all the routes by which this trade is registered in Bengal, in comparison with the figures for the corresponding period of 1896. Similar statements are now published for the month of February 1897, as compared with the figures for February 1896. The following divisions of the trade are registered on the routes shown against each :—

(1) Trade of Calcutta and Howrah—
With all districts and provinces in India — By inland routes, *i.e.*, by rail, country boats, inland steamers and road, and by sea-going vessels, both foreign and coasting.

(2) Trade of the Dacca, Chittagong, and Orissa Divisions—
With Calcutta ... ... By all inland routes and coasting vessels.
With foreign ports ... ... By sea.
And with other districts and provinces in India ... ... By rail only.

(3) Trade of the Burdwan, Presidency, Rajshahi, Patna, Bhagalpur, and Chota Nagpur Divisions—
With Calcutta ... ... By all inland routes.
And with other districts and provinces in India ... ... By rail only.

The table below shows the total quantity of food-grains carried to and from these provinces during the months of February 1896 and 1897 respectively :—

	Imports.		Exports.	
	1896. Mds.	1897. Mds.	1896. Mds.	1897. Mds.
Rice	23,91,317	28,65,382	41,05,165	40,44,772
Paddy	4,00,350	4,71,993	4,17,062	4,18,577
Wheat	2,19,373	1,50,885	47,953	27,643
Gram and pulses	5,89,020	4,15,820	7,29,672	7,63,696
Other food-grains	1,11,811	1,42,998	2,38,457	1,90,984
Total	37,11,871	40,47,078	55,38,309	54,45,672

The aggregate quantity imported during the month showed an increase of 3,35,207 maunds or 9·03 per cent. over the aggregate for the corresponding month of 1896, while the exports showed a decrease of 92,637 maunds or 1·67 per cent. The staple food-grain of which the largest quantity was registered was rice : of this 28¾ lakhs of maunds were imported against 24 lakhs in 1896, the exports being 40½ against 41 lakhs. The imports of paddy increased by 71,643 maunds, while the exports were nearly equal to the figures of 1896. The wheat trade showed a decrease on both sides, viz., of 68,488 maunds and 20,310 maunds in imports and exports respectively. Under gram and pulses imports showed a falling off of 1,73,200 maunds, but exports an increase by 34,024 maunds. In the case of "Other food-grains" the imports showed an increase of 31,187 maunds, and the exports a decrease of 47,473 maunds.

The total trade of Calcutta and Howrah taken together, and of the districts in each division during the month of February 1897, is compared below with the totals of the corresponding month of the preceding year:—

A large decrease is noticeable in rice, paddy and other food-grains exported from Bengal [illegible] especially under rice, the shipments of which fell from 12 lakhs of maunds

As regards the trade between Bengal and other Provinces in India, the following statement furnishes the necessary details :—

Both imports and exports showed a considerable increase, viz., 5,73,440 maunds under imports, and 5,95,004 maunds under exports. In the import trade, the chief points of interest are the large despatches of Burma rice, viz., 7,51,197 maunds, and the great decrease under wheat due to smaller despatches from the North-Western Provinces and Oudh (9,359 maunds against 1,59,889 maunds in 1896).

Out of the total exports shown above, the quantity despatched to the North-Western Provinces and Oudh alone amounted to 11,36,776 maunds, against 3,46,653 maunds in the corresponding month of the previous year, as will be seen from the figures given below :—

The aggregate quantity of rice exported from Bengal to Assam was 55,148 maunds against 44,411 maunds in the corresponding month of 1896, Calcutta contributing 45,939 maunds against 37,616 maunds. The exports of gram and pulses and other food-grains from Bengal into the Punjab were 5,103 maunds, against 5,529 maunds in the case of gram and pulses, and 1,494 maunds, against 4 in the case of other food-grains.

Following the arrangement adopted in the preceding month, the internal traffic of these Provinces will be dealt with separately under the several heads noted below :—

(1) Inter-district trade of Bengal Proper.
(2) Trade between Bengal Proper and Bihar.
(3) Inter-district trade of Bihar.

The following statement shows the total food-grain traffic under head (1)—

The import trade showed a falling off of 1,40,831 maunds, which was due to smaller consignments of gram and pulses (36,051 maunds against 1,20,882 maunds) from the Bhagalpur Division to the Burdwan Division and Calcutta. On the other hand, the export trade advanced by 3,45,812 maunds owing to larger despatches of rice (3,08,273 maunds against 8,973 maunds) to the Patna Division mainly from Calcutta and the Burdwan Division.

The inter-district and inter-divisional trade of the Patna and Bhagalpur Divisions is shown in the following abstract:—

The local trade of the Patna Division diminished by 1,36,586 maunds, of which 99,301 maunds and 39,815 maunds occurred under rice and miscellaneous edible grains, respectively; while exports to the districts comprised in the Bhagalpur Division were practically unchanged.

The local trade of the Bhagalpur Division declined by 25,758 maunds, chiefly under rice. Similarly, the exports to the Patna Division declined by 25,225 maunds, mainly under rice. The Patna Division drew a very large supply of miscellaneous food-grains from the Bhagalpur Division.

…lowing the quantities of food-grains imported into and exported from each district in the Lower Provinces carried by rail, inland steamer, country boat, road and sea, during the month of February 1897, as compared with the figures for the corresponding period of 1896.
